- b. To be eligible for retention by the Office of the Attorney General the debt collected must be from a qualifying judgment. Qualifying judgments, as used in this rider, are judgments that are at least one-year old from the date of entry of the court order and also include debts not reduced to judgment where there are collections on the debt by the Collections Division of the Attorney General's Office if the debt is delinquent by more than one year or has been certified for collection to the Collections Division of the Attorney General's Office. Any unexpended balances remaining as of August 31, 2004 out of the appropriations herein are hereby appropriated to the Building and Procurement Commission for the fiscal year beginning September 1, 2004 for the same purpose.

- 6. **Transfer Authority Utilities.** In order to provide for unanticipated cost increases in purchased utilities during fiscal year 2004, the Texas Building and Procurement Commission may transfer such amounts as may be necessary to cover such increases from appropriations made in fiscal year 2005 for utilities in C.2.1, Facilities Operation, to amounts appropriated in fiscal year 2004 for utilities. Prior to transferring fiscal year 2005 funds into the 2004 fiscal year, notification shall be given to the Comptroller of Public Accounts of the amounts to be transferred and quarterly reports shall be filed with the Legislative Budget Board and the Governor detailing the necessity for such transfers.

Upon reimbursement, the Comptroller shall transfer these funds to unappropriated general revenue balances.
- 12. **Texas Building and Procurement Commission's Revolving Account.** It is the intent of the Legislature that the Comptroller of Public Accounts maintain the "Texas Building and Procurement Commission's Revolving Account" to account for the expenditures, revenues, and balances of its full cost-recovery operations of Central Store, Print Shops, Minor Construction, and Project Management. "Other direct and indirect costs" for the Federal Surplus Property Program above for strategy item D.2.1, Surplus Property Management, are estimated to be \$219,082 for fiscal year 2004 and \$218,490 for fiscal year 2005. In the event that the actual and/or projected revenue collections are insufficient to offset the costs identified by this provision, the Legislative Budget Board may direct the Comptroller of Public Accounts to reduce the appropriation authority provided herein to be within the amount of fee revenue expected to be available. Any unexpended balances as of August 31, 2003 (estimated to be \$0), in Surplus Property Service Charge Account Fund 570 are hereby appropriated to the Texas Building and Procurement Commission for costs associated with the operations of the Federal Surplus Property Program during the 2004–05 biennium. In addition, the TBPC is authorized to charge vendors for their share of the costs related to electronic purchasing. Any such reimbursement amounts are hereby appropriated to the TBPC. - 4. **Employee Incentive Rider.** In addition to the existing authority and amounts related to employee compensation and benefits, the Comptroller of Public Accounts may expend amounts necessary from funds appropriated for the 2004–05 biennium for the purposes of enhancing compensation, providing incentives, or paying associated expenses for high performing employees within the Comptroller's Office.

The financial responsibility of such schools shall be a direct obligation of the school to pay the vendor upon approval of the work product by the Comptroller.
- 13. Comptroller Fiscal Oversight Responsibilities. In order to clearly differentiate between core Comptroller functions and those functions which are for fiscal oversight or primary benefit to units of government, it is the intent of the Legislature that the Legislative Budget Board and the Governor shall work cooperatively with the Comptroller to determine appropriate activities which should be recorded under Fiscal Programs Comptroller of Public Accounts for budget and spending purposes. Specific activities include contract activities where outside vendors perform services for the benefit of units of local government. Examples of such programs include School Performance reviews, and reviews of cities, counties, hospital districts, mass transit authorities, community colleges, or other entities where work is directed at reducing the cost of government. - 2. **Updated Actuarial Valuation**. The Employees Retirement System shall contract with an actuary to perform a limited actuarial valuation of the assets and liabilities of the Employees Retirement System as of February 28 in those years when the Legislature meets in regular session. The purpose of the valuation shall be to determine the effect of investment, salary, and payroll experience on the unfunded liability, the amortization period, and the state contribution rate which results in a 30-year amortization period of the Retirement System.
- 3. **State Contribution to Employees Retirement Program**. The amount specified above in A.1.1, ERS Retirement, is based on a state contribution of 6.0 percent of payroll, including annual membership fees of \$3 for contributing members for each fiscal year.
- 4. **State Contribution to Judicial Retirement Program (JRS-2).** The amount specified above in A.1.2, Judicial Retirement System Plan 2, is based on a state contribution of 16.83 percent of payroll for contributing members for each fiscal year.
- 5. **State Contribution to Group Insurance for General State Employees.** Funds identified above for group insurance are intended to fund:
  - a. the total cost of the basic life and health coverage for all active and retired employees;

#### **EMPLOYEES RETIREMENT SYSTEM**

(Continued)

- b. fifty percent of the total cost of health coverage for the spouses and dependent children of all active and retired employees who enroll in coverage categories which include a spouse and/or dependent children; and
- c. the additional cost of providing a premium structure comparable to the Children's Health Insurance Program (CHIP) for dependent children of state employees enrolled in the State Kids Insurance Program (SKIP).

In no event shall the total amount of state contributions allocated to fund coverage in an optional health plan exceed the actuarially determined total amount of state contributions that would be required to fund basic health coverage for those active employees and retirees who have elected to participate in that optional health plan.

During each fiscal year, the state's monthly contribution shall be determined by multiplying (1) the per capita monthly contribution as certified herein by (2) the total number of full-time active and retired employees enrolled for coverage during that month.

Each year, upon adoption of group insurance rates by the Board of Trustees, Employees Retirement System must notify the Comptroller, the Legislative Budget Board, and the Governor of the per capita monthly contribution required in accordance with this rider for each full-time active and retired employee enrolled for coverage during the fiscal year.

It is the intent of the Legislature that the Employees Retirement System control the cost of the group insurance program by not providing rate increases to health care providers participating in HealthSelect during the 2004–05 biennium.

In order to fund the Employees Retirement System (ERS) projected health plan costs for the 2004–05 biennium, the Legislature directs the Employees Retirement System to reduce total health plan costs by \$485.5 million in All Funds and \$296.1 million in General Revenue through benefit design changes made by the Employees Retirement System based on the Legislature's medical cost trend assumption of 9.75 percent per year. Benefit design changes will include an option allowing participants to choose retail pharmacies for maintenance medications with the participant paying the additional cost. It is the intent of the Legislature that the Employees Retirement System achieve this reduction, to the extent possible, with the least impact on participants. If more aggressive provider contracting and other cost-effective management practices result in the actual costs of the program being less than projected for the 2004-05 biennium, the Employees Retirement System should consider restoring health program benefit reductions to the extent possible.

- 6. **Administrative Cost Provision**. Funds identified above in A.1.3, Judicial Retirement System Plan 1, include \$120,000 in each fiscal year to reimburse the Employees Retirement System for the cost of administering the Judicial Retirement Plan 1.
- 7. **Administrative Cost Provision**. Funds identified above in A.1.4, Public Safety Benefits, include \$28,000 in each fiscal year to reimburse the Employees Retirement System for the cost of administering the death benefits program for public safety personnel.
- 8. **Excess Benefit Arrangement Account.** There is hereby appropriated to the Employees Retirement System all funds transferred or deposited into the Excess Benefit Arrangement Account established in the General Revenue Fund for the purpose of paying benefits as authorized by Government Code § 815.5072.
- 9. **Transfer of Retirement Contributions and Group Insurance.** Appropriations made in this and other articles of this Act for Retirement and Group Insurance contributions shall be transferred by each agency from the Employees Retirement System to the agency based on estimated amounts by

funding source for each fiscal year. Transfers should be made no later than September 15 of the year in which the payments are to be made. Adjustments and return of excess appropriation authority to the Employees Retirement System shall be completed by October 30 of the subsequent fiscal year.

- 2. **DIR Clearing Fund Account.** The Comptroller shall establish in the state treasury the Department of Information Resources clearing account for the administration of cost recovery activities pursuant to authority granted under Chapters 771, 791, 2054, 2055, and 2177 Government Code. The account shall be used:
  - a. As a depository for funds received as payments from state agencies and units of local government for services provided;
  - b. As a source of funds for the department to purchase, lease, or acquire in any other manner services, supplies, software products, and equipment necessary for carrying out the department's duties relating to services provided to state agencies and units of local government for which the department receives payment from state agencies and local governmental units; and
  - c. To pay salaries, wages, and other costs directly attributable to the services provided to state agencies and units of local government for which the department receives payment from those agencies and governmental units. However, the maximum amount of Indirect Cost Allocation for administrative costs to be applied to state agency receipts and local government receipts shall not exceed 2.0 percent per receipt. The Department of Information Resources shall report the amount of administrative costs allocated to each agency and unit of local government annually to the Legislative Budget Board.

The balance of the account shall not exceed more than 10 percent of the total revenue processed through the account. All balances as of August 31, 2003, and revenues accruing during the 2004–05 biennium to the Department of Information Resources clearing fund account are hereby appropriated for the 2004–05 biennium. As part of its Comprehensive Annual Financial Report showing the use of appropriated funds, the Department of Information Resources shall include information showing the costs avoided and/or savings obtained through its cooperative activities and a list of the agencies or units of local government for which the clearing fund account was used.

- 3. Capital Purchases on Behalf of Other Government Entities. Any capital items related to information resources and telecommunications technologies purchased by the Department of Information Resources for use by other state agencies and governmental entities for which the department is reimbursed do not apply to the department for the purpose of the capital budget rider limitations specified in Article IX, Limitation on Expenditures Capital Budget, of the General Provisions of this Act.
- 4. **Cash Flow Contingency**. Contingent upon receipt of reimbursements from state agencies, other governmental entities, and vendors for direct services provided and procurements of goods or services made through the Program Management Office, Cooperative Contracts, and Telecommunications Services programs, the department may temporarily utilize additional general revenue funds in an amount not to exceed 10 percent of projected annual sales or \$4.0 million, whichever is greater. These funds shall be utilized only for the purpose of temporary cash flow needs. The transfer and reimbursement of funds shall be made under procedures established by the Comptroller of Public Accounts to ensure all borrowed funds are reimbursed to the Treasury on or before August 31, 2005.
- 5. **TexasOnline Project.** Included in the amounts appropriated above in Strategy A.1.2, TexasOnline, is \$500,000 out of Appropriated Receipts generated by the TexasOnline Project for the 2004–05 biennium for the continued operation and expansion of the TexasOnline Project.

- 6. **Development of a Statewide Licensing Agreement.** Out of funds appropriated above, the Department of Information Resources shall plan, develop request for information and proposals, and contract negotiations for statewide licensing agreements, as required, for off-the-shelf licensing software. The Department of Information Resources shall assist agencies in the procurement and implementation of the licensing software.
- 7. Reduce the State Reporting Burden on Texas Cities and Counties. In coordination with a working group comprised of representatives of the Comptroller's Office, other state agencies, and local governments, DIR should compile a list of recommendations for the Legislature for streamlining and reducing reporting requirements on cities and counties. DIR should establish and update an inventory of required reports. Other purposes of these recommendations should be to improve data accuracy, electronic infrastructure, and access to data by the public and elected officials at all levels of government for better decision-making. It is the intent of this Legislature that state agencies cooperate with this working group, review existing reporting requirements, and wherever possible, place a moratorium on additional requirements, unless they are specifically required by law or essential to agency missions. Finally, the working group should examine the state-funded telecommunications networks that connect with county courthouses to determine the costs and benefits of consolidating these systems.

In addition, DIR in coordination with the Comptroller's Office, local governments, state and federal agencies, the Conference of Urban Counties, the Texas Association of Counties, and the Texas Municipal League should develop and implement functional specifications for a statewide electronic data clearinghouse. During the fiscal 2004–05 biennium, DIR should develop policies, procedures, data standards, training materials, and perform other duties to prepare for the establishment of the clearinghouse in fiscal year 2004. DIR should develop options for funding the ongoing maintenance, or expansion of the clearinghouse such as using resources from participating agencies to recoup the cost. Each option should address the potential impact on participation.

- 8. **Telecommunications Capital Budget Purchases.** The Department of Information Resources is hereby authorized to expend funds appropriated elsewhere in this Act to acquire equipment that may be necessary to facilitate cost savings or technical advancements associated with the Capital Complex Telephone System (CCTS) or TEX-AN Statewide Telecommunications System. The Department of Information Resources shall coordinate any equipment acquisitions associated with the TEX-AN Statewide Telecommunications System with the Telecommunications Planning and Oversight Council. The Department of Information Resources shall notify the Legislative Budget Board and the Governor prior to such acquisition.
- 9. **Telecommunications Revolving Account**. This includes services such as planning, development of requests for information and proposals, and contract negotiations.
- 10. **Electronic Government Program Management Office.** Included in the amounts appropriated above is \$1.8 million in Interagency Contracts for the Department of Information Resources to direct and facilitate the implementation of electronic government projects pursuant to Chapter 2055, Texas Government Code.
- 11. **TexasOnline Authority**. Included in the amounts appropriated above in Strategy A.1.2, Texas Online, is \$667,635 in 2004 and \$667,447 in 2005 out of General Revenue Funds (\$1,335,082) for the TexasOnline Authority to implement and administer electronic services.

The Commission for the Blind may, under such rules and regulations as deemed necessary, maintain and operate on a reimbursable basis a Central Supply Revolving Fund in order to contribute to the efficiency and economy of the commission under its control and management. The Central Supply Revolving Fund may be established and operated from funds appropriated to the commission in such amounts as shall be necessary. All receipts deposited to this Fund are appropriated for the purchase of necessary operating supplies and materials for the biennium ending August 31, 2005. To reimburse the funds from which expenditures are made, the commission may make fund transfers from the appropriations which receive the supplies, or may submit purchase vouchers through the office of the State Comptroller.

- 3. Employee Work Assignments. Employees assigned to the Criss Cole Rehabilitation Center or to special project facilities operated by the agency may, to the extent required for the effective direct provision of services to clients, be excepted from usual state policies regarding working hours, working days, and holidays. 9. Business Enterprises of Texas Trust Fund, are appropriated to the Texas Commission for the Blind (TCB) for the purpose of establishing and maintaining a retirement and benefits plan for blind or visually impaired vendors as defined in the federal Randolph-Sheppard Act (20 USC, § 107). Unexpended balances in Earned Federal Funds at the close of the fiscal year ending August 31, 2004, are hereby appropriated to the fiscal year beginning September 1, 2004.
- 11. **General Revenue Dedicated Account No. 492**. Included in amounts above in the Method of Finance "Business Enterprises of Texas Account No. 492" is \$2,180,000 for the biennium from revenue deposited into the account in object codes 3747, 3754, and 3802.

- 3. **Transfer Authority**. Subject to the limitations contained in provisions No. 2, Limitation: Medicaid Transfer Authority and No. 45, Children with Special Health Care Needs and notwithstanding any other provision, appropriations contained in this Act to the Department of Health may be transferred from one appropriation item to another appropriation item in amounts not to exceed 25 percent of All Funds for the fiscal year, at the discretion of the Commissioner of Health. Transfers from one appropriation item to another item that exceed the lesser of \$250,000 or 10 percent in All Funds of the appropriation item from which the transfer is made are subject to the approval of the Board of Health, and are subject to the following reporting requirements.
  - a. At least 14 days prior to a meeting of the Board of Health to consider or take action on any transfer of funds between items of appropriation notification shall be made to the Governor and the Legislative Budget Board.

(Continued)

- b. At least 14 days prior to a meeting of the Board of Health to consider any program expansion, notification shall be made to the Governor and the Legislative Budget Board. Program expansion is defined as any modification of current policy that would result in an increase in services delivered or clients served, including any increase in funds budgeted in the program.
- c. Notifications shall include information regarding the source of funds to be transferred; any changes in Federal Funds related to the proposed transfer; the strategy from which the transfer is to be made and the strategy to which the transfer is to be made; the need which was to be served through the original appropriation and the basis for the decrease in need; the need to be served in the strategy receiving the funds and the basis for such selection and the amounts of funds to be spent on direct client services as opposed to both general and operating support costs. Transfers approved by the Commissioner of Health will be reported to the Board of Health, Legislative Budget Board, and the Governor quarterly.

#### 4. Laboratory Funding.

- 5. Appropriations Limited to Revenue Collections. The Board of Health shall review all of the fee schedules within its authority on an annual basis. The Department of Health shall provide a copy of the report summarizing this review to the Legislative Budget Board and the Governor no later than September 1 of each year in the biennium, with a copy of the final report to be submitted no later than January 1 of each year of the biennium. It is the intent of the Legislature that, to the extent feasible, fees, fines and other miscellaneous revenues as authorized and generated by the department cover, at a minimum, the cost of the appropriations made for the programs listed in the table below, as well as the "other direct and indirect costs" associated with these programs, appropriated elsewhere in this Act. "Other direct and indirect costs" for these programs are estimated to be \$9,180,402 for fiscal year 2004 and \$9,315,188 for fiscal year 2005. In the event that actual and/or projected revenue collections are insufficient to offset the costs identified by this provision, the Legislative Budget Board may direct that the Comptroller of Public Accounts reduce the appropriation authority provided above to be within the amount of revenue expected to be available. This rider shall apply to revenues generated in the following strategies and deposited under the following revenue codes or account numbers:

- b. A transfer authorized by this section must receive the prior approval of the Governor and the Legislative Budget Board.
- c. The Comptroller of Public Accounts shall cooperate as necessary to assist the completion of a transfer and spending made under this section.
- 18. **Medical Treatment.** The Texas Health and Human Services Commission may distribute funds for medical, dental, psychological, or surgical treatment provided to a minor only if consent to treatment is obtained pursuant to Chapter 32 of the Texas Family Code. In the event that compliance with this rider would result in the loss of Federal Funds to the state, the Commission may modify or suspend this rider to the extent necessary to prevent such loss of funds, provided that prior approval is obtained from the Governor and the Legislative Budget Board.
- 19. **Reporting of Child Abuse**. The Texas Health and Human Services Commission may distribute or provide appropriated funds only to recipients who show good-faith efforts to comply with all child abuse reporting guidelines and requirements set forth in Chapter 261 of the Texas Family Code.

Funds for Medical Assistance payments appropriated for Medicaid Strategies in Goal B out of the General Revenue Fund for Medicaid services shall be made available to the agency by the Comptroller of Public Accounts in equal monthly installments on the first day of each calendar month; provided, however, that any balances on hand in such funds may be carried over from month to month during each fiscal year and from fiscal year 2004 to fiscal year 2005, and such funds are appropriated to the Commission for the 2004–05 biennium.
- 22. **Risk Stabilization Reserve.** Upon termination of a contract with the fiscal agent or insurance carrier for purchased health insurance, or change to another fiscal arrangement, the state's share of the unexpended balance in the risk stabilization reserve and/or trust account shall be deposited into the General Revenue Fund and such funds are not appropriated to the Health and Human Services Commission.
- 23. Accounting of Support Costs. The Comptroller of Public Accounts shall establish separate accounts from which certain support costs shall be paid. Hospitals reimbursed under TEFRA cost principles shall be paid without the imposition of the TEFRA cap.

At initial cost settlement of the hospital's fiscal year, the Health and Human Services Commission shall determine the amount of reimbursement the hospital would have been paid under TEFRA cost principles, and if the amount of reimbursement under the TEFRA principles is greater than the amount of reimbursement received by the hospital under the prospective payment system, the Health and Human Services Commission shall reimburse the hospital the difference. These payments shall be made out of the funds appropriated above for acute care hospital services.

- 25. Payments to Rural Hospitals under Medicaid Managed Care. All payments from funds appropriated for acute care services made to rural hospitals with 100 or fewer licensed beds in counties with fewer than 50,000 persons that are in a Medicaid managed care program must be reimbursed at a rate calculated using the higher of the prospective payment system rate or cost-reimbursement methodology authorized under the Tax Equity and Fiscal Responsibility Act of 1982 (TEFRA). Hospitals reimbursed under TEFRA cost principles shall be paid without the imposition of the TEFRA cap. Under a primary care case management system model, primary care physicians also shall be paid a monthly case management fee. This section applies only to a managed care contract that is entered into or renewed on or after September 1, 1997.
- 27. **Disposition of Appropriation Transfers from State-owned Hospitals.** The Health and Human Services Commission shall use the sums transferred from state owned hospitals as provided elsewhere in the Act as necessary to apply for appropriate matching Federal Funds and to provide the state's share of disproportionate share payments due to state-owned hospitals. Any amounts of such transferred funds not required for disproportionate share payments shall be deposited by the Health and Human Services Commission to the General Revenue Fund as unappropriated revenue. At the beginning of each fiscal year, the Health and Human Services Commission shall present a schedule of projected transfers and payments to the Comptroller of Public Accounts, the Governor, and the Legislative Budget Board. The Comptroller of Public Accounts shall process all payments and transfers, unless disapproved or modified by the Legislative Budget Board or the Governor.

  - c. Notifications shall include information regarding the source of funds to be transferred; any changes in Federal Funds related to the proposed transfer; the strategy from which the transfer is to be made and the strategy to which the transfer is to be made; the need which was to be served through the original appropriation and the basis for the decrease in need; the need to be served in the strategy receiving the funds and the basis for such selection; and the amounts of funds to be spent on direct client services as opposed to both general and operating support costs. - 2. **Medical Assistance Payments.** General revenue funds appropriated herein above for all Medicaid services shall be made available to the agency by the Comptroller of Public Accounts in equal monthly installments on the first day of each calendar month; provided, however, that any balances on hand in such funds may be carried over from month to month during each fiscal year and from fiscal year 2004 to fiscal year 2005, and such funds are appropriated to the department for the 2004–05 biennium.
- 3. Federal Funds Appropriated. The appropriations herein made may be used to match federal funds granted to the state for the payment of personal services, travel and other necessary expenses in connection with the administration and operation of a state program of public welfare services. The Department of Human Services is hereby authorized to receive and disburse in accordance with plans acceptable to the responsible federal agency, all federal moneys that are made available (including grants, allotments, and reimbursements) to the state and retain their character as federal funds for such purposes and all fees authorized by federal law, and to receive, administer, and disburse federal funds for federal programs in accordance with plans agreed upon by the Department of Human Services and the responsible federal agency, and such other activities as come under the authority of the Department of Human Services, and such moneys are appropriated to the specific purpose or purposes for which they are granted or otherwise made available. Earned federal funds are not considered to be federal funds for the purpose of this section.
- 4. **Federal, State and Local Funds Appropriated.** The Department of Human Services is hereby authorized to accept all moneys appropriated by the federal or state governments, or by the Commissioners' Court of any county, or by any political subdivisions, as provided by Human Resources Code § 11.003, as amended, for any purpose including but not limited to the cost of

distributing foods to needy people, institutions, school lunch programs, or otherwise as provided by the laws of the United States and the rules and regulations issued pursuant thereto for the distribution of commodities as they now read or as they may be hereafter amended, and to deposit said moneys in the State Treasury. All of said funds are hereby appropriated to the Department of Human Services for the purposes for which they were granted.

- 5. **Appropriation of Federal and Local Funds**. All funds received by the department from counties, cities, federal agencies and from any other local source and all balances from such sources as of August 31, 2003, are hereby appropriated for the biennium ending August 31, 2005, for the purpose of carrying out the provisions of this Act.
- 6. Food Stamp Program Funds Appropriated. The Department of Human Services is hereby designated as the state agency to establish and operate a statewide Food Stamp Program and to accept all moneys appropriated for this purpose by the federal or state governments, by the Commissioners' Court of any county, by any political subdivisions of the state, or received from any other source as provided for herein and in Chapter 33, Human Resources Code. The Department of Human Services is authorized to expend such funds for welfare purposes, including the cost of distributing foods to needy people, institutions, school lunch programs, or otherwise as provided by the laws of the United States and the rules and regulations issued pursuant thereto, for the establishment and operation of a statewide Food Stamp Program, and for the employment of essential personnel who shall be employed under a merit system basis comparable to the merit principles or standards applicable to all other personnel of the department.

#### 7. Nursing Home Program Provisions.

- a. Nursing Home Income Eligibility Cap. It is the intent of the Legislature that the income eligibility cap for nursing home care shall be maintained at the federal maximum level of 300 percent of Supplemental Security Income (SSI). Further, it is the intent of the Legislature that any cost-of-living increase in social security or other benefits sponsored by the federal government or that any increase in other pension plans should not result in the termination of Title XIX benefits for persons already eligible for services. The Department of Human Services is hereby authorized to expend general revenue funds to the extent necessary to ensure the continuation of benefits to persons eligible.
- b. Limitation of Per Day Cost of Alternate Care.
  - (1) Subject to the exception in (2), no funds shall be expended by the Department of Human Services for alternate care where the cost per patient per day exceeds the average Medicaid Nursing or ICF-MR Facility rate or the patient's nursing or ICF-MR facility rate, whichever is greater, except for cases individually exempted by the Board of Human Services or by the Commissioner of Human Services.
  - (2) The department may not disallow or jeopardize community services for individuals currently receiving services under Medicaid waivers if those services are required for that individual to live in the most integrated setting, the reimbursement rate paid for needed services does not exceed 133.3 percent of the reimbursement rate that would have been paid for that same individual to receive comparable services in an institution over a six month period, and the department continues to comply with cost-effectiveness requirements from the Centers for Medicare and Medicaid Service.

The department shall "grandfather" on September 1, 2003, those individuals receiving services in a medical assistance waiver program, under authority granted in the department's budget rider 7 from the Seventy-seventh Legislature, when

(Continued)

continuation of these services is necessary for the individual to live in the most integrated setting appropriate to his/her needs and the department continues to comply with the cost-effectiveness requirements from the Centers for Medicare and Medicaid Service.

- c. Establishment of a Swing-bed Program. Out of the funds appropriated above for nursing home vendor payments, the department shall maintain a "swing-bed" program, in accordance with federal regulations, to provide reimbursement for skilled nursing patients who are served in hospital settings in counties with a population of 100,000 or less. If the swing beds are used for more than one 30-day length of stay per year per patient, the hospital must comply with the regulations and standards required for nursing home facilities.
- d. Nursing Home Bed Capacity Planning. It is the intent of the Legislature that the department shall establish by rule procedures for controlling the number of Medicaid beds and for the decertification of unused Medicaid beds and for reallocating some or all of the decertified Medicaid beds. The procedures shall take into account a facility's occupancy rate.
- e. Nursing Facility Competition. It is the intent of the Legislature that the department encourage competition among contracted nursing facilities.
- 8. Appropriation of Receipts: Civil Monetary Damages and Penalties. Included in the General Revenue Funds appropriated above is \$2,660,000 for the biennium from funds collected as civil monetary damages and penalties under Human Resources Code § 32.021. Any amounts above \$2,660,000 are hereby appropriated to the department in amounts equal to the costs of the investigation and collection proceedings conducted under that section, and any amounts collected as reimbursement for claims paid by the department.
- Appropriations Limited to Revenue Collections. It is the intent of the Legislature that fees, fines, and other miscellaneous revenues as authorized and generated by the agency cover, at a minimum, the cost of the appropriations made above for the Nursing Facility Administrator program in Strategy A.2.2, Long Term Care Credentialing and Home Health and Community Support Service Agencies program in Strategy A.2.3, Home and Community Support Services Licensing as well as the "other direct and indirect costs" associated with this program, appropriated elsewhere in this Act. Direct costs for the Nursing Facility Administrator program are estimated to be \$248,766 for fiscal year 2004 and \$248,766 for fiscal year 2005. Direct costs for the Home and Community Support Services Licensing program are estimated to be \$1,867,073 for fiscal year 2004 and \$1,870,615 for fiscal year 2005. "Other direct and indirect costs" for the Nursing Facility Administrator program are estimated to be \$82,831 for fiscal year 2004 and \$83,702 for fiscal year 2005. "Other direct and indirect costs" for the Home and Community Support Services Licensing program are estimated to be \$427,904 for fiscal year 2004 and \$434,200 for fiscal year 2005. In the event that actual and/or projected revenue collections are insufficient to offset the costs identified by this provision, the Legislative Budget Board may direct that the Comptroller of Public Accounts reduce the appropriation authority provided above to be within the amount of revenue expected to be available.
- 10. Accounting of Support Costs. The State Comptroller shall establish separate accounts from which certain support costs shall be paid. The Department of Human Services is hereby authorized to make transfers into these separate accounts from line item strategies in order to pay for these expenses in an efficient and effective manner. Only costs not directly attributable to a single program may be budgeted in or paid from these accounts. Items to be budgeted in and paid from these accounts include, but are not limited to: postage, occupancy costs, equipment repair, telephones, office printing costs, supplies, freight and transport costs, telephone system costs, and salary and travel costs of staff whose function supports several programs. The department shall be responsible for monthly allocations of these costs to the original strategies.

- 11. Fund Transfers for Funds Consolidation. For the purpose of funds consolidation, federal and other funds may be transferred into the General Revenue Fund from the Department of Human Services Fund No. 117. The initial deposit of federal funds shall be made into Fund No. 117 and no direct expenditures shall be made from this fund.
- 12. Pediatric Care in Nursing Facilities. In determining the appropriate placement for children who currently receive care in nursing facilities, the department shall, within the requirements of federal law, consider the requests of parents concerning either a continued stay in a nursing facility providing skilled pediatric care or an alternate placement.
- 13. Limitation: Transfer Authority. Notwithstanding any other provision of this Act, none of the funds appropriated by this Act to the Department of Human Services for

may be transferred to any other item of appropriation or expended for any purpose other than the specific purpose for which the funds are appropriated, unless the Commissioner certifies to the Legislative Budget Board and the Governor that such a transfer is necessary to maintain direct services to clients or to provide needed transitional services and complies with other provisions contained in this Act regarding notification of transfers. However, transfers may be made between Medicaid Strategies in accordance with other provisions in this Act.

- 15. Medicaid and Other Program Reporting Requirements.
  - a. None of the funds appropriated by this Act to the Department of Human Services may be expended or distributed by the department unless:
    - the department submits to the Legislative Budget Board and the Governor a copy of each report or petition submitted to the federal government relating to Medicaid, Temporary Assistance for Needy Families, and other programs. This shall include, but is not limited to:

- (i) expenditure da(ii) caseload data; expenditure data;
- (iii) revenue generation;
- (iv) cost allocation revisions;
- (v) state plan amendments; and
- (vi) state plan waivers, including, but not limited to, applications for new waivers or changes to existing waiver services, costs, or authorized number of clients.

Such reports shall be submitted to the Legislative Budget Board and the Governor no later than the date the respective report is submitted to the federal government, and

- the department submits to the Legislative Budget Board and the Governor at the close of each quarter a report detailing Medicaid, TANF, and other program caseload figures and related expenditure amounts for the preceding 36 months, and projecting the anticipated Medicaid and other program caseloads, related expenditure amounts, and full-time equivalent requirements for the 36 month period beginning with the first month after the report is due. The report shall be prepared in a format specified by the Legislative Budget Board.
- The Department of Human Services submits data to the Legislative Budget Board and the Governor by the end of each month pertaining to the actuarial data and forecasts of caseloads and costs for the programs identified in subsection a(2). The data shall be sent in a manner to be specified by the Legislative Budget Board and the Governor.
- b. Each report submitted to the Legislative Budget Board and the Governor pursuant to this provision must be accompanied by supporting documentation detailing the sources and methodologies utilized to develop any caseload or cost projections contained in each respective report and any other supporting material as specified by the Legislative Budget Board and the Governor.
- Each report submitted pursuant to this provision must contain a certification by the person submitting the report that the information provided is true and correct based upon information and belief together with supporting documentation.
- The Comptroller of Public Accounts shall not allow the expenditure of funds appropriated by this Act to the Department of Human Services if the Legislative Budget Board and the Governor certify to the Comptroller of Public Accounts that the Department of Human Services is not in compliance with this provision.
- e. The department shall submit to the Legislative Budget Board and the Governor a monthly report on expenditures and encumbrances of the agency by strategy. The report shall include, but is not limited to expenditures and methods of finance, number of full-time equivalent positions, both state/federal and local/federal, Earned Federal Funds, and capital budget.

#### 16. Earned Federal Funds.

- The Department of Human Services shall submit a monthly report to the Legislative Budget Board and the Governor which details revenues, expenditures, and balances for earned federal funds as of the last day of the prior month. The report shall be prepared in a format approved by the Legislative Budget Board.
- The authority to receive and expend earned federal funds generated in the 2004-05 biennium in excess of those appropriated above is subject to the following limitations:

- (1) At least 14 days prior to any expenditure of earned federal funds in excess of those appropriated, the department shall report the earned federal funds received and provide documentation of the proposed use of these funds to the Legislative Budget Board, Governor, and Health and Human Services Commission. At least 14 days prior to any meeting of the Board of Human Services to budget any use of earned federal funds above levels indicated in the appropriation above or to consider any program expansion, the department shall report the earned federal funds received and provide documentation of the proposed use of these funds to the Legislative Budget Board, Governor, and Health and Human Services Commission.
- (2) Notifications shall include information regarding the need which will be served with the additional revenue. In the event program expansions are under consideration, information shall be forwarded regarding the population to be served; criteria for eligibility; and impact upon existing programs.
- (3) The report shall include the information detailed in "2" and identify the impact on established performance targets, measures, and full-time equivalent positions.
- 17. Child Support Supplemental Payments. Out of the funds appropriated above in Strategy B.1.1, TANF Grants, and child support collections from the Child Support Trust Fund, the department shall make supplemental payments to families receiving welfare who would be eligible to receive child support "pass through" and "first excess" payments under the Social Security Act Title IV-D child support distribution requirements prior to passage of the Personal Responsibility and Work Opportunity Reconciliation Act of 1996. These payments shall equal the amount of the "pass through" and "first excess" payment the family would have received under prior law. Child support collections shall comprise a portion of each total payment. The portion of the total payment funded with child support collections shall equal the state share of the Federal Medical Assistance Percentage (FMAP) for the fiscal year. If child support "pass through" or "first excess" payment distribution requirements are modified by federal law after enactment of this provision, the department, in cooperation with the Office of the Attorney General, shall adjust the supplemental payments as necessary to be consistent with federal law and to not exceed the total the family would have received prior to welfare reform. The department shall report any change to child support supplemental payments to the Governor and Legislative Budget Board.
- 18. **Temporary Emergency Assistance for Families At-Risk of Welfare Dependency.** Out of funds appropriated above in Strategy B.1.1, TANF Grants, the department shall provide a one-time emergency assistance payment to applicants for Temporary Assistance for Needy Families (TANF) who are likely to be employed within a short period of time, without referral to the Choices program. It is the intent of the Legislature that the department expand the use of one-time emergency payments as a cost-effective deterrence from the TANF program.
- 19. Revolving Account for the Consolidated Health and Human Services Print Shop. It is the intent of the Legislature that the Department of Human Services establish and maintain the "Revolving Account for the Consolidated Health and Human Services Print Shop" to account for the expenditures, revenues, and balances of managing a full-cost recovery Consolidated Print Shop. The expenditures, revenues, and balances included above for this operation shall be maintained separately by the Department of Human Services within its accounting system. Any unobligated balances as of August 31, 2004, are appropriated for the same use during fiscal year 2005. For the purpose of meeting cash flow needs, the Department of Human Services may temporarily transfer funds from Strategy D.1.3, Other Support Services, to the revolving account. Transfers must be returned by the end of the fiscal year.
- 20. **Appropriation Transfer Between Fiscal Years**. In addition to the transfer authority provided elsewhere in this Act, the Department of Human Services may transfer appropriations made for fiscal year 2005 to fiscal year 2004, subject to the following conditions provided by this section:

- a. Transfers under this section may be made only:
  - (1) If costs associated with providing Long Term Care Medicaid services exceed the funds appropriated for these services for fiscal year 2004, or
  - (2) for any other emergency expenditure requirements, including expenditures necessitated by public calamity.
- b. Transfers may not exceed \$50,000,000 in general revenue.
- c. A transfer authorized by this section must receive the prior approval of the Governor and the Legislative Budget Board.
- d. The Comptroller of Public Accounts shall cooperate as necessary to assist the completion of a transfer and spending made under this section.
- 21. Enhanced Federal Funding and High Performance Bonus for Administration of the Food Stamp Program. Enhanced federal funding is defined as funding from the federal government which exceeds the normal federal contribution toward administrative costs. High Performance Bonuses are annual incentive payments to state agencies that meet standards for high or most improved performance established by the Secretary of the U.S. Department of Agriculture. The authority to expend enhanced federal funding for administrative costs paid in a prior fiscal year is subject to the following conditions:
  - a. Within 30 days of receiving notice of the state's eligibility for enhanced federal funding or a performance bonus, the Department of Human Services shall notify the Legislative Budget Board and the Governor;
  - b. At least 14 days prior to any meeting of the Board of Human Services to budget enhanced federal funds or a performance bonus, the Department of Human Services shall provide documentation of the proposed use of these funds to the Legislative Budget Board, the Governor, and Health and Human Services Commission. The report shall identify the impact on established performance targets, measures, and full-time equivalent positions, and shall be prepared in a format specified by the Legislative Budget Board.
  - c. In the event that the state receives enhanced federal funds or a performance bonus, the Department of Human Services is appropriated all funds received by the agency subject to all limitations in this rider and to the following:
    - (1) a portion of these funds, in each year of the biennium, shall be used by the Department of Human Services for the development and operation of a nutrition education and outreach program, or for activities that otherwise improve low-income consumers' access to basic nutrition and healthy foods; and
    - (2) a portion of these funds, in each year of the biennium, shall be used by the Department of Human Services to provide bonuses to position classifications whose efforts directly contributed to meeting these performance standards, or to position classifications who meet or exceed customer service performance measures developed by the department, or whose efforts directly contributed to increasing the percentage of eligible persons who receive Food Stamps.
    - (3) Any Enhanced Federal Funds or High Performance bonus received by the Department of Human Services between June 2, 2003 and August 31, 2003 is hereby appropriated to the department.
  - d. Before an employee can be eligible for a bonus, the employee must have been employed in the program for the related twelve months, remains employed in the program, and whose performance meets expectations.

(Continued)

- e. The department has the authority to determine whether employees who have received bonuses under this provision are eligible for merit salary increases during a twelve-month period prior to or after receipt of the bonus.
- f. The department shall prepare quarterly reports summarizing the department's progress in implementing the outreach program required in section (c) and file those reports with the standing committees of the Senate and House of Representatives having primary jurisdiction over health and human services.
- 22. **Reimbursement of Advisory Committees.** Pursuant to Government Code § 2110.004, reimbursement of expenses for advisory committee members, out of funds appropriated above, not to exceed \$8,000 per fiscal year, is limited to the following advisory committee:
  - a. Nursing Facility Administrators Advisory Committee

To the maximum extent possible, the department shall encourage the use of videoconferencing and teleconferencing and shall schedule meetings and locations to facilitate the travel of participants so that they may return the same day and reduce the need to reimburse members for overnight stays.

- 23. Temporary Assistance for Needy Families (TANF) Maintenance of Effort. It is the intent of the Legislature that all general revenue appropriated above for TANF maintenance of effort shall be expended within the appropriate fiscal year for that purpose in order to secure the TANF federal block grant for the state. Out of funds appropriated above in Strategy B.1.1, TANF Grants and Strategy B.1.2, CSS Eligibility and Issuance Services, \$105,108,501 in general revenue is appropriated for TANF maintenance of effort for fiscal year 2004, and \$104,028,853 in general revenue appropriated for TANF maintenance of effort for fiscal year 2005. None of the general revenue appropriated for TANF maintenance of effort in Strategy B.1.1, TANF Grants and Strategy B.1.2, CSS Eligibility and Issuance Services, may be transferred to any other item of appropriation or expended for any purpose other than the specific purpose for which the funds are appropriated. However, general revenue appropriated for TANF maintenance of effort may be transferred to Strategy B.1.2, CSS Eligibility and Issuance Services, subject to the following limitations:
  - a. Declines or shifts in TANF caseloads prevent the Department of Human Services from expending all general revenue appropriated for TANF maintenance of effort in Strategy B.1.1, TANF Grants and Strategy B.1.2, CSS Eligibility and Issuance Services, within the appropriate fiscal year;
  - b. The amount of general revenue transferred from Strategy B.1.1, TANF Grants, shall be expended within Strategy B.1.2, CSS Eligibility and Issuance Services, for TANF program operating costs (object of expense 2000), within the appropriate fiscal year; and
  - c. At least 14 days prior to transferring general revenue funds between Strategy B.1.1, TANF Grants and Strategy B.1.2, CSS Eligibility and Issuance Services, the Department of Human Services shall notify the Legislative Budget Board and the Governor.
- 24. **Earned Income Disregard.** It is the intent of the Legislature that out of amounts appropriated above to Strategy B.1.1, TANF Grants, the Department of Human Services is to maintain the earned income disregard for working TANF families. When determining eligibility and benefits, the department shall exclude \$120 of earnings and 90 percent of the remaining earnings for each of the first four months of employment by a recipient. After the first four months of employment, the department shall exclude \$120 of a recipient's earnings each month.
- 25. **Survey of Nursing Facility Residents.** Out of funds appropriated above in Strategy A.1.6, Nursing Facility and Hospice Payments, the Department of Human Services is allocated

(Continued)

- a. Up to \$360,000 in all funds, of which up to \$180,000 is general revenue, in fiscal year 2004 to conduct a survey of nursing facility residents. The survey shall assess how satisfied residents are with their quality of care and quality of life. Not later than January 15, 2005, the department shall submit a written report on the survey to the Legislature, Governor, and Health and Human Services Commissioner;
- b. Up to \$1,000,000 in all funds, of which up to \$500,000 is general revenue, to perform onsite case reviews of nursing home resident care in specific quality areas. Using measurement tools developed in the Quality Improvement pilot, these reviews will identify preventable occurrences of adverse outcomes. The result of these reviews will be included in the report to the Legislature, Governor and Health and Human Services Commissioner described in (a) above.
- 26. **TANF Grants.** It is the intent of the Legislature that the department shall adjust the TANF grant amount each year to ensure that the maximum monthly grant for a family of three is at least 17 percent of the federal poverty level and provide a one-time per year grant of up to \$30 for each TANF child on August 1 of each year.
- 27. Full-time Equivalent Positions (FTE)–Local and Federal Funds. Only local funds (appropriated receipts) and federal funds may be used to pay salaries, benefits or related costs for the Number of Full-time Equivalent Positions (FTE)–Local and Federal Funds, identified above. The following are included within this cap: 583 worker FTE positions in Strategy B.1.2, CSS Eligibility and Issuance Services, 126 FTE positions in Strategy B.1.3, Nutrition Assistance, 25 FTE positions in Strategy B.1.4, Refugee Assistance, and 16.0 FTE positions in A.1.5, LTC–Eligibility and Service Planning. The Department of Human Services may utilize the FTE authority contained in the Number of Full-time Equivalent Positions (FTE)–Local and Federal Funds only to the extent that local and federal funds are readily available. Under no circumstances may unfilled FTE positions from the Number of Full-time Equivalent Positions (FTE)–Local and Federal Funds be transferred to the Number of Full-time Equivalent Positions (FTE)–State and Federal Funds.
- 28. **Promoting Independence**. It is the intent of the Legislature that as clients relocate from nursing facilities to community care services, funds will be transferred from Nursing Facilities to Community Care Services to cover the cost of the shift in services.
- 29. Nursing Facility Beds for Medicaid Eligible Veterans. Contingent upon a request from the Texas Veterans Land Board, it is the intent of the Legislature that the Department of Human Services maintain a program for Medicaid-eligible veterans that will enable those individuals to be placed in State Veterans Homes. It is further the intent of the Legislature that the department amend its nursing facility bed allocation rules to create sufficient certified beds to accommodate the requirements of such a program.
- 30. **Texas Integrated Eligibility Redesign Systems (TIERS).** Out of funds appropriated above in fiscal years 2004–05 in Strategy B.1.2, CSS Eligibility and Issuance Services, the Department of Human Services is allocated (for the biennium) \$23,367,343 in General Revenue, \$27,000,000 in Telecommunication Infrastructure Funds, \$55,836,840 in Federal Funds, and \$17,014,926 in Revenue Bond Proceeds, totaling \$123,219,109 in All Funds. The department shall make quarterly reports to the Legislative Budget Board and the Governor on the TIERS project as well as quarterly budgeted amounts, actual expenditures, and the status of contracted services, as well as any other information requested. All contracts relating to this project shall include performance measures.

To fund the plan, the department may seek funding from the most cost-effective type of financing, including but not limited to cash acquisition, commercial financing, and financing provided by the Texas Public Finance Authority. The Texas Public Finance Authority may issue revenue bonds or other debt obligations to finance the design, development, acquisition, and implementation of automated data processing systems to support the plan. As provided by Government Code, Chapter 1232, Vernon's Texas Civil Statutes, in recognition that cost

estimates are not final at the time that the project is authorized for financing and that bonds may be issued to fund associated costs, including reasonably required reserve funds, capitalized interest, administrative costs of the authority and debt issuing expenses, the principal amount of any issuance of debt for this purpose may be in an amount not to exceed one and one-half the amount of the expected cost for the project being financed. From the proceeds of the issuance and sale of such bonds or debt obligations, such amounts as may be necessary to fund the associated costs of issuances are hereby appropriated to the Texas Public Finance Authority for the fiscal biennium beginning September 1, 2003. From any funds appropriated to the Department of Human Services for the purpose of implementing the project, an amount not to exceed \$4,186,754 (amounts needed for debt service) for the biennium in all funds may be transferred to the Texas Public Finance Authority for lease payments to the Texas Public Finance Authority to pay debt service on the obligations issued by the Texas Public Finance Authority on behalf of the department for the above-mentioned project.

- 31. Community Care Assessment Tool. Out of funds appropriated above, the Department of Human Services shall develop a new functional needs assessment tool for eligibility for community care programs for aged and disabled clients, which takes into consideration any other evaluation/assessment tools utilized by other state agencies and other states. The tool shall take into consideration innovations in technology with assistive devices. The assessment tool shall be evaluated for validity by an independent third party as an assessment tool for ensuring that clients with the greatest functional needs are identified for services. The assessment tool shall ensure that a client's family resources, monetary, community resources and otherwise, are taken into consideration in calculation of hours of assistance needed. The scoring instrument will be used in conjunction with program services to ensure that clients with scores identifying the greatest needs are prioritized for services. It is the intent of the Legislature that the department provide a status report on progress in developing the tool to the Legislative Budget Board and the Governor by September 1, 2004 and that the tool be fully implemented by January 1, 2005.
- 32. Capital Purchases on Behalf of other Government Entities or Service Providers. Any capital items purchased by the Department of Human Services for use by local governmental entities for which the department is reimbursed do not apply to the department for the purpose of the capital budget rider limitations specified in Article IX, Limitation on Expenditures—Capital Budget, of the General Provisions of this Act.
- 33. **TANF Separate State Program**. It is the intent of the Legislature that out of amounts appropriated in Strategy B.1.1, TANF Grants, the department, shall use funds other than TANF federal funds to provide assistance to tow-parent families, and may use funds other than TANF federal funds to provide assistance to families residing in minimum service counties.
- 34. Motor Vehicle Allowance for Certain Recipients. It is the intent of the Legislature that the Board of the Department of Human Services shall determine the vehicle limit amount in determining eligibility for services. The vehicle limit amount shall be established within available appropriations and a level which will provide adequate, dependable transportation for clients.
- 35. **Centers of Excellence**. It is the intent of the Legislature that out of amounts appropriated above to Strategy A.2.1, Long-term Care Facility Regulation and funds obtained through a grant from a national foundation, the Department of Human Services shall allocate funds for a Centers for Excellence program. The department shall partner with an institution of higher education to promote positive outcomes for the residents of Long Term Care facilities, identify best practices and improve service delivery. Not later than January 15, 2005, the department shall submit to the Legislature and the Governor a report which identifies progress made towards achieving these goals.

(Continued)

- 36. Payment of August 2005 Nursing Home Payment. Funds appropriated above include a reduction of \$142,500,000 in All Funds, including \$56,686,500 in General Revenue Match for Medicaid in Strategy A.1.6, Nursing Facility and Hospice Payments, for the August 2005 nursing home payment. The Department of Human Services is authorized to defer payment of the August 2005 payment until September of 2005.
- 37. **Community Care Waiver Slots**. It is the intent of the Legislature that the Department of Human Services will not expand the base number of appropriated waiver slots through Rider 28 transfers. Clients utilizing Rider 28 shall remain funded separately through transfers from the Nursing Facility strategy, and those slots shall not count against the total appropriated community care slots. Rider 28 funding through the nursing facility strategy shall be maintained for those clients as long as the individual client remains in the transferred slot. When a Rider 28 client leaves a waiver program, any remaining funding for the biennium shall remain in the nursing facility strategy.

If the department determines available revenue within community care strategies requires a reduction in the base number of slots for waiver programs, the department shall utilize attrition to meet appropriated levels.

- 38. **Community Care Services**. It is the intent of the Legislature that the Department of Human Services shall implement a community care assessment tool that focuses primarily on a client's ability to perform functional tasks. Any resulting savings shall be utilized to maintain services to the most vulnerable clients, and also minimize reductions in service levels for all clients.
- 39. Contingency Related to Reduction of TANF-funded Transportation Services. Contingent upon the enactment of House Bill 2292, House Bill 3343, or similar legislation by the Seventy-eighth Legislature, Regular Session, authorizing the coordination of statewide public transportation, the amount of federal funds appropriated above in Strategy B.1.1, TANF Grants, is increased by \$3,568,239 in fiscal year 2004 and \$3,570,798 in fiscal year 2005. The amount of General Revenue appropriated above in Strategy B.1.1, TANF Grants, is reduced by \$3,568,239 in fiscal year 2004 and \$3,570,798 in fiscal year 2005.
- 40. **Maximization of Community Care Services**. The Department of Human Services shall maximize services utilizing the most efficient and effective combination of functional needs score and hours of service to best meet the needs of community care clients. It is the intent of the Legislature that the department utilize all available flexibility to ensure the maximization of community care resources.

This report shall describe both beneficial and detrimental client outcomes and shall be presented in a format to be prescribed by the Legislative Budget Board.
- 18. Community Mental Health and Mental Retardation Centers. If the department determines that a community mental health and mental retardation center is unable or unwilling to fulfill its contractual obligations to provide services or to exercise adequate control over expenditures and assets, the department may take necessary steps, including the appointment of a management team as authorized by Health and Safety Code, §§ 534.038–534.040, to protect the funds appropriated under this Act and ensure the continued provision of services.

2. **Substitute Care Permanency Goal.** In order to comply with 45 CFR 1356.21, it is the intent of the Legislature that the Department of Protective and Regulatory Services actively seek permanent homes for the children who are in the department's substitute care program for long periods. To this end, the department shall seek to limit the number of children under the department's responsibility who are in substitute care for a period longer than 24 months. The

(Continued)

department shall strive to assure that no more than 45 percent of the children in paid placements are in substitute care for more than 24 months for fiscal years 2004 and 2005.

Further, it is the intent of the Legislature that whenever possible, the department shall utilize state and/or federal funds currently being expended for substitute care to cover the cost of assuring permanent homes where appropriate for foster children.

- 3. **Limitation on Expenditures for Conservatorship Suits.** To the extent allowed by federal regulation, federal funds may be used by the department in conjunction with funds provided by counties with which the department has child welfare contracts, to pay for legal representation for children or their parents in suits in which the department is seeking to be named conservator. No general revenue funds appropriated to the department may be used to make such payments.
- 4. **Appropriation of Funds.** All funds received by the department from counties, cities, and other local sources and all balances from such sources as of August 31, 2003, are hereby appropriated for the biennium ending August 31, 2005, for the purpose of carrying out the provisions of this Act. (Estimated to be \$0)
- 5. **Accounting of Support Costs**. The State Comptroller shall establish separate accounts from which certain support costs shall be paid. The Department of Protective and Regulatory Services is hereby authorized to make transfers into separate accounts from line item strategies in order to pay for these expenses in an efficient and effective manner. Only costs not directly attributable to a single program may be budgeted in or paid from these accounts. Items to be budgeted in and paid from these accounts include but are not limited to: postage, occupancy costs, equipment repair, telephones, office printing costs, supplies, freight and transport costs, telephone system costs, and salary and travel costs of staff whose function supports several programs. The department shall be responsible for monthly allocations of these costs to the original strategies.
- 6. **Tertiary Prevention of Child Abuse Programs.** From the amounts appropriated above, the Department of Protective and Regulatory Services shall allocate up to \$120,000 each fiscal year of the biennium for continuation of a statewide network of community-based, volunteer-driven programs for prevention, intervention, and aftercare services of abused children.

### 7. Foster Care Rates.

- a. It is the intent of the Legislature that the Department of Protective and Regulatory Services reimburse foster families at least \$17.12 per day for children under 12 years old and \$17.50 per day for children age 12 and older during the 2004–05 biennium. The department may transfer funds into Strategy A.1.5, Foster Care Payments, for the purpose of maintaining these rates. The department may not transfer funds out of Strategy A.1.5, Foster Care Payments.
- b. The department may also use funds in Strategy A.1.5, Foster Care Payments, to recommend alternate service provision intake and investigation that will consider expansion of contract services, regional planning, service outcomes, and appropriate funding mechanisms to be tested in pilot projects. Such pilot approaches to innovative service delivery shall be designed in conjunction with providers, approved by the Health and Human Services Commission, and funded at no increased cost to the State. The department may include a modification of rates for existing and new pilot approaches implemented in this manner.
- c. The department may utilize up to \$250,000 from funds appropriated above in Strategy A.1.5, Foster Care Payments, to develop and implement a relative placement reimbursement pilot program in one region of the state. The department shall conduct an evaluation of the pilot.

- 9. **Reimbursement of Advisory Committees.** Pursuant to Government Code § 2110.004, reimbursement of expenses for advisory committee members, out of funds appropriated above not to exceed \$6,500 per year, is limited to the Texas Multidisciplinary Task Force on Children's Justice.

To the maximum extent possible, the department shall encourage the use of videoconferencing and teleconferencing and shall schedule meetings and locations to facilitate the travel of participants so that they may return the same day and reduce the need to reimburse members for overnight stays.

### 10. Earned Federal Funds.

- a. The Department of Protective and Regulatory Services shall submit a monthly report to the Legislative Budget Board and the Governor which details revenues, expenditures, and balances for earned federal funds as of the last day of the prior month.   - (3) prior approval is granted by the Legislative Budget Board and the Governor.
- d. The Commissioner of Health and Human Services is authorized to transfer full-time equivalent positions 1) between agencies and 2) from agencies to the Health and Human Services Commission, provided that such approved transfers shall not result in a net increase in the total number of full-time equivalent positions authorized for those agencies in this Act. These transfers are subject to the prior approval of the Legislative Budget Board and the Governor.
- e. Notwithstanding other limitations on transfers contained in the General Provisions of this Act, the Commissioner of Health and Human Services is authorized to make the following transfers, subject to the prior approval of the Legislative Budget Board and the Governor:

It is expressly provided that the Department of Mental Health and Mental Retardation and the Texas Department of Health's State Healthcare Facilities, to the extent permitted by law, may pay FLSA exempt and FLSA non-exempt employees on a straight-time basis for work on a holiday or for regular compensatory time hours when the taking of regular compensatory time off would be disruptive to normal business functions.
- Sec. 18. Limitation on Appropriations for Long-term Care Waiver Slots. None of the funds appropriated above to the Department of Human Services and the Department of Mental Health and Mental Retardation for long-term care waiver slots may be utilized for purposes other than the following unless the alternative purpose was previously authorized by the Legislative Budget Board and the Governor:

- Sec. 21. **Leases.** No funds appropriated under this Act may be expended by Article II agencies for leased office or for building where the agency determines that the leased space is no longer needed due to 1) the implementation of changes that result in a reduction in staff, 2) consolidations of office or building space to achieve cost efficiencies, or 3) a change in client demographics resulting in the need to relocate staff to other locations. Prior to lease cancellation the agency will

The reading improvement plan must establish the performance outcome of complete literacy among its student population and outline specific steps that will be taken to achieve that goal. The plan may include the use of technology to achieve reading goals. A school identified as in need of improvement in reading instruction shall implement only those reading strategies and programs approved by the Commissioner of Education and may expend funds from the Student Success Initiative or federal Reading First for approved strategies and programs.

(Continued)

Funds must be expended on programs that show the most potential to improve high school success and completion and that encourage students toward post-secondary education and training, including basic skills grants to districts implementing special programs for high school students who have not earned sufficient credit to advance to the next grade, after-school programs designed to prevent high school dropouts and middle-college programs that encourage at-risk students and students who wish to accelerate their education undertake courses of study that allow both high school and college level work.

Not less than \$500,000 each year of total program funds shall be allocated to programs that foster academic competition for predominantly high school students.

The Commissioner shall allocate discretionary funds from the federal *No Child Left Behind Act* for allowable activities in support of high school reform projects.

The Commissioner is authorized to receive grants from private sources and foundations for the provision of high school completion and restructuring programs and may use a portion of appropriate state and federal funds as matching funds for such programs. School districts receiving funds may contract with private sector organizations for all or part of the program.

It is the intent of the legislature that funds shall be provided to school districts to match local funds expended for this purpose. Funds allocated are intended for the direct benefit of students and use of the funds is solely the discretion of the classroom teacher. The Texas Education Agency shall establish rules by which matching funds are allocated to individual teachers within the school district. These funds may not be used to supplant local funds being provided for the same purpose.

From the funds appropriated above the Commissioner shall identify state discretionary and administrative funds for classroom supply reimbursement. Funds for this purpose shall also be allocated out of available federal consolidated administrative funds and from funds subject to the federal "Ed-Flex" statute. The agency and local school districts may also use any allowable unexpended balances in federal funds at the end of each fiscal year of the biennium to provide these reimbursements.

Measures may include, but are not limited to, assessment passing rates, the Texas Learning Index or similar measure, dropout/completion rate, attendance rate, alternative education referral rates, and the violence/drug use incident rate. The Commissioner of Education shall assist the Legislative Budget Board and the State Auditor's Office by making available any program, campus and district data needed to successfully complete the evaluation.

(Continued)

Funds appropriated above in Strategy A.1.1, FSP-Equalized Operations, for the Career and Technology Education allotment shall not be used to provide weighted funding for these programs.

Additionally, it is the intent of the Legislature that no more than 10 percent of each school district's Foundation School Program Career and Technology Education allotment under the Texas Education Code § 42.154 may be expended for indirect costs related to the career and technology education programs.

(Continued)

Out of funds appropriated outside of Strategy B.2.1, Instructional Materials, the Commissioner shall identify up to \$15 million for the biennium to implement the provisions of this rider.

It is also the intent of the Legislature that the State Board of Education take whatever possible actions available to reduce the costs of textbooks in the 2004-05 biennium, including decreasing the maximum costs for textbooks identified for purchase in Proclamation 2001.

It is also the intent of the Legislature that the State Board of Education forego the issuance of Proclamation 2003, which would have identified textbooks scheduled for purchase in the 2006-07 school year.

- 76. Contingency for House Bill 2458 Additional Allocation for Textbooks. Contingent upon fund transfers to the Available School Fund due to the enactment of House Bill 2458, or similar legislation related to the collection of motor fuels taxes, by the Seventy-eighth Legislature, Regular Session, causing the Available School Fund to exceed the Comptroller's Biennial Revenue Estimate, the additional amount of Available School Fund revenue generated by the bill's provisions, not to exceed \$75 million for the 2004-05 biennium, is hereby transferred to the Textbook Fund and appropriated for the purchase of textbooks.

For the 2004-05 biennium, the Texas Education Agency is appropriated any royalties and license fees from the sale or use of education products developed through federal and state funded contracts managed by the agency. The Texas Education Agency shall report on a quarterly basis to the Legislative Budget Board and to the Governor on grants or earnings received pursuant to the provisions of this rider, and on the planned use of those funds.

(Continued)

Any grant or royalty balances as of August 31, 2004 are appropriated for the 2005 fiscal year for the same purpose.

- 81. **Federal Grants for State Assessments.** The Commissioner shall allocate all Federal Funds received by the agency in fiscal year 2003 for state assessments under Title VI of the *No Child Left Behind Act*, estimated to be \$19,624,891, to defray the cost of assessment instruments in Strategy B.1.1, Assessment and Accountability System.

- 1. Appropriations Limited to Revenue Collections. It is the intent of the Legislature that fees, fines, and other miscellaneous revenues as authorized and generated by this agency cover, at a minimum, the cost of the appropriations made above, as well as the "other direct and indirect costs" associated with these functions, appropriated elsewhere in this Act. "Other direct and indirect costs" for these functions are estimated to be \$731,800 in fiscal year 2004 and \$719,938 in fiscal year 2005. In the event that actual and/or projected revenue collections are insufficient to offset the cost identified by this provision, the Legislative Budget Board may direct that the Comptroller of Public Accounts reduce the appropriation authority above to be within the amount of revenue expected to be available.
- 2. **Exam Locations**. The State Board for Educator Certification shall continue to ensure that sites in the state of Texas that provide the main certification examination for educators (a.k.a. ExCET or TExES) are located such that there is a site within 50 miles of every Board-approved educator preparation program.
- 3. Integrated Reporting System. The State Board for Educator Certification shall coordinate with the Texas Education Agency and the Higher Education Coordinating Board regarding sharing, integrating, and housing pre-kindergarten through grade 16 (P-16) public education data. The three agencies shall work together to ensure that common and related data held by each agency is maintained in standardized, compatible formats to enable the efficient exchange of information between agencies and for matching of individual student records for longitudinally based studies and analysis. It is the intent of the Legislature that individual initiatives interact seamlessly across agency systems to facilitate efforts to integrate the relevant data from each agency into a longitudinal public education data resource to provide a widely accessible P-16 public education data warehouse.
- 4. **Texas Beginning Educator Support System.** The State Board for Educator Certification shall seek federal funds to continue the Texas Beginning Educator Support System (TxBESS) or any other beginning teacher induction/mentor program. Any federal funds received by the State Board for Educator Certification for this purpose are hereby appropriated to the agency. As part of the beginning educator induction program, the agency shall train districts to develop and operate their own local induction programs, based on the statewide TxBESS model, if funded. The agency shall report on its efforts to obtain federal funds for beginning educator induction/mentoring to the Seventy-ninth Legislature.

5. **Test Development.** The State Board for Educator Certification shall continue to consider the use of standard exams that are not specific to Texas curricula to complement a core of Texas-specific exams and/or replace certain Texas-specific exams planned or under development. The board shall consider the following factors when determining whether a Texas-specific exam is necessary - the number of Texas educators likely to take the exam; the extent to which educators from states that use a standard exam pass similar Texas-specific exams; the similarity of content covered in a standard exam versus the planned Texas-specific exam, understanding that 100 percent of alignment is not necessary; and the relative cost to the state and to examinees of a standard exam versus a Texas-specific exam.

The State Board for Educator Certification is hereby authorized to expend funds appropriated in Strategy A.1.1, Educator Quality/Accountability, for test development for the evaluation and purchase of standard exams, if the Board finds that a standard exam is appropriate.

- 6. **Federal Funds for Test Development.** The State Board for Educator Certification shall seek federal funds to provide for the development of new certification examinations. Any federal funds received by the State Board for Educator Certification for this purpose are hereby appropriated to the agency.
- 7. **Communication of New Rules.** It is the intent of the Legislature that the State Board of Educator Certification communicate the adoption of new rules directly to school districts and institutions of higher education by electronic mail or regular mail in a timely manner. The board will also post newly adopted rules on the Internet for review.
- 8. **Reporting of Teacher Misconduct.** From funds appropriated, the State Board of Educator Certification, the Texas Education Agency, and the University of Texas System shall coordinate to work with school districts to ensure timely and accurate reporting of teacher misconduct as required by statute or rule.
- 9. **Sunset Contingency**. Funds appropriated above for fiscal year 2005 for the State Board for Educator Certificate are made contingent on the continuation of the State Board for Educator Certificate by the Legislature. In the event that the agency is not continued, the funds appropriated for fiscal year 2004 or as much thereof as may be necessary are to be used to provide for the phase out of agency operations.
- 10. **Contingent Revenue**. Of the amounts appropriated above to the State Board for Educator Certification in Strategy A.1.3, Educator Professional Conduct, the amount of \$2,734,000 in fiscal year 2004 and \$2,761,000 in fiscal year 2005 for the purpose of conducting national criminal history background checks is contingent on the State Board for Educator Certification assessing fees sufficient to generate, during the 2004-05 biennium, \$5,495,000 in excess of \$31,756,000 (Object Code 3511), contained in the Comptroller of Public Accounts' Biennial Revenue Estimate for fiscal years 2004 and 2005. The State Board for Educator Certification, upon completion of necessary actions to assess or increase such additional fees, shall furnish copies of the State Board for Educator Certifications' minutes and other information supporting the estimated revenues to be generated for the 2004-2005 biennium under the revised fee structure to the Comptroller of Public Accounts. If the Comptroller finds the information sufficient to support the projection of increased revenues, a finding of fact to that effect shall be issued and the contingent appropriation shall be made available for the intended purpose.
- 11. **Appropriation of Educator Assessment Fees.** Included in the appropriations above to the State Board for Educator Certification in Strategy A.1.1, Educator Quality/Accountability, are \$1,090,433 in fiscal year 2004, and \$1,142,369 in fiscal year 2005, associated with assessment fee revenue necessary for the payment of educator examination-related fees to a contractor, above the amounts indicated in the Comptroller's Biennial Revenue Estimate for certification

and assessment fee revenue (object code 3511). The Comptroller of Public Accounts must issue a finding of fact after the end of each fiscal year indicating that the additional expenditures related to this appropriation were used solely for the purpose of paying examination-related fees to a contractor.

- 2. **Updated Actuarial Valuation**. The Teacher Retirement System shall contract with an actuary to perform a limited actuarial valuation of the assets and liabilities of the Teacher Retirement System as of February 28 in those years when the Legislature meets in regular session. The purpose of the valuation shall be to determine the effect of investment, salary, and payroll experience on the unfunded liability, the amortization period, and the state contribution rate which results in a 30-year amortization period of the retirement system.
- 3. **State Contribution to Teacher Retirement Program**. The amounts specified above in A.1.1, TRS-Public Education Retirement, and A.1.2, TRS-Higher Education Retirement, are based on a state contribution of 6.00 percent of payroll for each fiscal year, estimated.
- 4. **State Contribution to Texas Public School Retired Employees Group Insurance Program.** Of the amounts specified above in A.2.1, Retiree-Health, \$103,473,753 in fiscal year 2004 and \$108,647,441 in fiscal year 2005 are based on a state contribution rate of 0.50 percent of payroll for each fiscal year, estimated. Also included in the appropriation is a sum certain amount of \$364,347,217 in fiscal year 2004 and \$182,173,608 in fiscal year 2005.

(Continued)

The retirement system shall notify the Legislative Budget Board, the Governor, and its membership, prior to establishing premiums, regarding the impact such premiums will have on retiree costs for TRS-Care insurance.

It is the intent of the Legislature that the Teacher Retirement System control the cost of the retiree insurance program by not providing rate increases to health care providers and pharmacy providers during the 2004-2005 biennium without providing 60 days notice to the Legislative Budget Board.

The Teacher Retirement System shall structure the levels of health insurance cost-sharing between the state and retirees such that for fiscal year 2005, the state's cost share is no more than 55 percent of total group insurance costs, and that the total retirees' cost share is at least 30 percent.

The Teacher Retirement System shall establish premiums paid by retirees such that retirees pay nothing for the highest deductible, catastrophic coverage option, and that retirees not participating in Medicare Part A pay a larger proportion of the cost of their coverage than they did in fiscal year 2003.

For the low deductible plan, TRS shall set retiree and dependent premiums based on a percentage of expected claims for the plan and the retiree's participation in Medicare Part A and Medicare Part B; premiums for disability retirees may differ.

Premiums for higher deductible plans shall be set to specifically offer inducements for retirees to enroll in higher deductible plans. TRS shall inform retirees of the financial implications associated with choice of coverage levels.

Retirees who retire at earlier ages significantly increase the long term health insurance costs to the state. In an effort to provide a greater benefit without adding to the costs for the state, TRS shall study ways to equalize long-term costs to the state among participants who retire at different ages, and submit a report to the Legislature summarizing available options by September 1, 2004.

- 5. **Excess Benefit Arrangement Account.** There is hereby appropriated to the Teacher Retirement System all funds transferred or deposited into the Excess Benefit Arrangement Account established in the General Revenue Fund for the purpose of paying benefits as authorized by Government Code § 825.517.
- 6. **Transfer of Other Educational and General Income.** The Comptroller of Public Accounts is hereby authorized to transfer the necessary appropriations made above in A.1.2, TRS-Higher Education Retirement, from Other Educational and General Income to institutions of higher education to meet their obligations and comply with the proportionality policy as expressed in the Article IX provision entitled Salaries to be Proportional by Fund.
- 7. **Exempt Positions**. Notwithstanding the limitations contained in the Article IX provision entitled Scheduled Exempt Positions, the TRS Board of Trustees may determine the salaries of the positions listed above in the Schedule of Exempt Positions without limitation.
- 8. **Travel Expenditures.** Notwithstanding the limitations on travel expenditures contained in Article IX of this Act, the annual out-of-state travel cap for the Teacher Retirement System is hereby set at \$425,000 for each year of the biennium. The additional authority is provided to allow TRS' investment professionals greater personal access to financial centers, investment experts, and investor information.

(Continued)

- 9. **School District Employee Pass-Through**. The amounts appropriated in Strategy A.3.1, Active Health, for active school district employee health benefits are to be used to provide an annual compensation supplement (pass-through) of \$500 for all full-time employees, and \$250 for all part-time employees, except that no contributions shall be provided for the category of employees referred to as "professional staff" by the Teacher Retirement System. An employee is not eligible to receive the pass-through contribution until the 90th day after the date the employee is employed by the entity. The Teacher Retirement System is authorized to allocate the last month's fiscal year 2005 payment of the pass-through in September, 2005. Also, out of the fiscal year 2004 appropriation in Strategy A.3.1, Active Health, no more than \$27,000,000 may be used to provide a minimum effort transition subsidy (referred to as "state assistance for meeting minimum effort" in Article 3.50-9, Texas Insurance Code). No appropriation is provided for this purpose in fiscal year 2005.
- 10. Contingency for Senate Bill 1369. Contingent on the passage of Senate Bill 1369 or similar legislation relating to certain group benefits for retired public school employees (TRS-Care), the following provisions shall be implemented. The annual contribution rate for school districts for fiscal years 2004 and 2005 shall be 0.40 percent of total payroll. The amount contributed for dependents, surviving spouses, and surviving dependent children shall be determined by the TRS board of trustees for each year of the biennium.

To reflect a 1.0 percent state contribution rate, in the provision titled "State Contribution to Texas Public School Retired Employees Group Insurance Program", the state contribution estimated appropriation is increased by \$103,473,753 in fiscal year 2004 and by \$108,647,441 in fiscal year 2005. The sum certain appropriation to TRS-Care is reduced by like amounts each year of the 2004–05 biennium.

- 1. State Contribution to Group Insurance for Higher Education Employees Participating in the Employees Retirement System Group Insurance Program. Funds identified above for group insurance are intended to fund:
  - a. the total cost of the basic life and health coverage for all active and retired employees; and
  - b. fifty percent of the total cost of health coverage for the spouses and dependent children of all active and retired employees who enroll in coverage categories which include a spouse and/or dependent children.

In no event shall the total amount of state contributions allocated to fund coverage in an optional health plan exceed the actuarially determined total amount of state contributions that would be required to fund basic health coverage for those active employees and retirees who have elected to participate in that optional health plan.

General Revenue funds appropriated herein shall be supplemented by funds appropriated elsewhere in this Act for employees enrolled in the State Kids Insurance Program (SKIP) to provide for a premium-sharing structure comparable to the Children's Health Insurance Program (CHIP). Institutions of higher education paying for health insurance costs from non-General Revenue funds shall provide the same levels of premium-sharing for State Kids Insurance Program enrollees as provided for those higher education employees with health insurance paid from General Revenue funds.

Funds appropriated for higher education employees' group insurance contributions may not be used for any other purpose.

It is further provided that institutions shall cooperate so that employees employed by more than one institution may be covered under one group policy and that said policy may be held jointly by two or more institutions and paid from funds appropriated to the institutions for payment of employee insurance premiums as set out above.

2. Actuarial Study. The Employees Retirement System is directed to conduct an actuarial study to determine the costs and actions necessary to merge employees currently insured under group benefit plans offered by the Texas A&M University System into the state employee group benefit plans administered by the Employees Retirement System. The Texas A&M University System and the Employees Retirement System shall cooperate in assessing the costs and actions needed to replace all Texas A&M University System employee group benefit plans with the state employee group benefit plans administered by the Employees Retirement System under Chapter 1551 of the Insurance Code. This study shall be provided to the Legislative Budget Board and the Governor by no later than September 1, 2004. The Texas A&M University System and the Employees Retirement System shall evenly divide the costs of this study using existing resources. The replacement of the Texas A&M University System's benefit plans with the state employee group benefit plans administered by the Employees Retirement System may not take place unless authorized under certain conditions set by general law.

3. The University of Texas System Group Health Insurance Contributions. Funds identified above for group insurance are intended to fund the same portion of the costs of basic health coverage for all active and retired employees and their dependents as is provided above for higher education active and retired employees and dependents participating in the Employees Retirement System's Uniform Group Insurance Program.

In no event shall the total amount of state contributions allocated to fund coverage in an optional health plan exceed the actuarially determined total amount of state contributions that would be required to fund basic health coverage for those active employees and retirees who have elected to participate in that optional health plan.

Funds appropriated for higher education employees' group insurance contributions may not be used for any other purpose.

The University of Texas System shall file a report with the Legislative Budget Board, the Governor and the Comptroller by September 1 of each year, detailing all group health insurance plans offered to system employees and retirees, including the benefit schedule, premium amounts, and employee/retiree contributions.

Active and retired employees of The University of Texas System are authorized to use one-half of the "employee-only" state contribution amount for optional insurance. Optional insurance for the employees participating in the group insurance program shall be defined by The University of Texas System. Active and retired employees participating in these plans may only use one-half of the employee-only state contribution if they sign and submit a document to their employing institution indicating they have health insurance coverage from another source.

4. **Texas A&M System Group Health Insurance Contributions.** Funds identified above for group insurance are intended to fund the same portion of the costs of basic health coverage for all active and retired employees and their dependents as is provided above for higher education active and retired employees and dependents participating in the Employees Retirement System's Uniform Group Insurance Program.

In no event shall the total amount of state contributions allocated to fund coverage in an optional health plan exceed the actuarially determined total amount of state contributions that would be required to fund basic health coverage for those active employees and retirees who have elected to participate in that optional health plan.

Funds appropriated for higher education employees' group insurance contributions may not be used for any other purpose.

The Texas A&M System shall file a report with the Legislative Budget Board, the Governor and the Comptroller by September 1 of each year, detailing all group health insurance plans offered to system employees and retirees, including the benefit schedule, premium amounts, and employee/retiree contributions.

Active and retired employees of the Texas A&M System are authorized to use one-half of the "employee-only" state contribution amount for optional insurance. Optional insurance for the employees participating in the group insurance program shall be defined by the Texas A&M System. Active and retired employees participating in these plans may only use one-half of the employee-only state contribution if they sign and submit a document to their employing institution indicating they have health insurance coverage from another source.

- 5. **Transfer Authority**. Out of the funds appropriated above:
  - a. The Comptroller shall transfer monthly, one-twelfth of the amount appropriated from those institutions participating in the Employees Retirement System's Uniform Group Insurance Program to the Employees Life, Accident, and Health Insurance and Benefits Fund No. 973, for use by the Employees Retirement System for each higher education institution which participates in the group insurance program of the Employees Retirement System.
  - b. The Comptroller shall transfer monthly, one-twelfth of the amount appropriated from state contributions for institutions belonging to the University of Texas and Texas A&M Systems, to The University of Texas System Office and the Texas A&M University System Office, for use by each institution's group insurance program.
- 6. **Specification of Appropriations.** The amount of the appropriation made for Strategy C.1.30, Public Community/Junior Colleges, shall be allocated to each college in accordance with a report, specifying the exact amounts for each college, to be provided by the Legislative Budget Board to the Employees Retirement System.

#### 7. Appropriations Transfers.

- a. Funds appropriated above to institutions other than those belonging to The University of Texas System or the Texas A&M University System, may be transferred from one appropriation item to another at the discretion of the chief administrative officer of the Employees Retirement System for the purpose of applying appropriations in excess of actual general revenue group insurance premium costs at any of the higher education institutions named above to appropriation shortfalls for general revenue group insurance premiums at any of the higher education institutions named above. Funds appropriated above to components of The University of Texas System and the Texas A&M University System may be transferred from one component to another component within the same system at the discretion of the chief administrative officer of each system for the same purposes stated above.
- b. The Employees Retirement System, The University of Texas System, and the Texas A&M University System shall file a report with the Legislative Budget Board, the Governor and the Comptroller by December 1 of each year, detailing any such transfers.
- c. Out of the funds appropriated above in Strategy A.1.11, The University of Texas Medical Branch at Galveston, \$2,755,124 in fiscal year 2004 and \$2,755,124 in fiscal year 2005 is for the purpose of paying general revenue group insurance premiums for correctional managed health care employees participating in the Employees Retirement System Uniform Group Insurance Program. - 2. **Appropriation of Charges and Fees.** There is hereby appropriated to The University of Texas Medical Branch at Galveston all charges and fees collected for the general expenses of the medical branch hospitals, including maintenance, support, and salaries of employees for the fiscal years ending August 31, 2004 and 2005.
- 3. Rates, Donations and Gifts. Any project initiated under this authorization shall not be structured in such a manner that will require future specific appropriation of general revenue. - 4. **Estimated Appropriation and Unexpended Balance**. Included in the amounts appropriated above are: (1) estimated appropriations of amounts available for distribution or investment returns out of the Permanent Endowment Fund for the University of North Texas Health Science Center at Fort Worth and (2) estimated appropriations of the institution's estimated allocation of amounts available for distribution out of the Permanent Health Fund for Higher Education.
  - a. Amounts available for distribution or investment returns in excess of the amounts estimated above are also appropriated to the institution. In the event that amounts available for distribution or investment returns are less than the amounts estimated above, this Act may not be construed as appropriating funds to makeup the difference.
  - b. All balances of estimated appropriations from the Permanent Endowment Fund for the University of North Texas Health Science Center at Fort Worth and of the institution's allocation from the amounts available for distribution out of the Permanent Health Fund for Higher Education, except for any General Revenue, at the close of the fiscal year ending August 31, 2003, and the income to said fund during the fiscal years beginning September 1, 2003, are hereby appropriated. The total amount appropriated to the two-year institutions' contact hour formula shall be redistributed to all institutions funded by the formula based on certified contact hours. The calculation of revised appropriation amounts shall allow each institution an error rate of up to 2 percent of the total contact hour formula appropriations to that institution for the biennium. Adjustments shall be made to appropriated amounts in accordance with adjustments of estimated contact hours to actual certified contact hours, even if the total error rate is less than 2 percent of the total contact hour formula amount appropriated to that institution for the biennium. No college shall have dollar amounts adjusted below \$2,092,187. Institutions where sampling errors are identified may request a comprehensive institutional audit at institutional expense.

Transfers may not be made from medically-related components to academic components or from academic components to medically-related components except that transfers may be made from schools of nursing, pharmacy and allied health in academic components to medically-related components and from medically-related components into the health-related programs listed above in academic components. Transfers may not be made into the informational items setting the salary rate for the president, chancellor, or for any other line-item salary shown. Nothing in this section shall authorize the transfer of appropriations from Texas A&M University Service Agencies to Texas A&M University.
- 2. Health to Academic Intercomponent Transfers with LBB Prior Approval. As an exception to the provisions in Subsection 1, transfers may be made with prior approval of the Governor and Legislative Budget Board from medically-related components to general academics if it does not diminish the academic programs of the medically-related component or result in increased fees to patients at the component. The systems shall furnish whatever documentation may be required by the Governor and Legislative Budget Board to assure these conditions are met.

- 5. Merit Requirement for Faculty and Faculty Equivalent Employees of Institutions and Agencies of Higher Education. Notwithstanding any other provisions of this act, salary increases for faculty or faculty equivalent employees of institutions of higher education shall be awarded on the basis of merit and performance in accepted activities. #### 8. Administrative Accountability.

- a. In each state fiscal year of the biennium, an institution of higher education, including a system office, may not spend funds appropriated to the institution by this Act unless, not later than December 1, the institution submits to the Legislative Budget Board, the chair of the House Appropriations Committee, and the chair of the Senate Finance Committee a report that includes the total number of persons holding high-ranking administrative positions at the institution.
- b. For purposes of subsection (1), "high-ranking administrative position" includes the following positions:
  - (1) chancellor;
  - (2) vice chancellor;
  - (3) associate chancellor;
  - (4) assistant chancellor;
  - (5) president;
  - (6) vice president;
  - (7) associate vice president;

  - (10) associate dean;
  - (11) assistant dean; and
  - (12) any other administrative position having similar responsibilities to the other positions listed in this subsection.
- c. A report submitted under subsection (1) must:
  - (1) be in a form prescribed by the Legislative Budget Board;
  - (2) include the name, salary, and total value of nonsalary benefits for each person holding a high-ranking administrative position at the institution; and
  - (3) include the percentage salary increase for each person holding a high-ranking administrative position at the institution who occupies the same position during the current fiscal year as during the preceding fiscal year.
- d. Not later than the seventh day after the date an institution of higher education submits the report required by subsection (1), the institution shall make a copy of the report available for public inspection in the library of the institution.

Sec. 6. **Expenditure Provisions**. The expenditure of the appropriations made in this Article or authorized in law for institutions of higher education except bequests and gifts specifically designated to be in some manner handled otherwise, shall be subject to the provisions of this section which follow and with exceptions only as specifically noted:

1. Annual Operating Budgets Required. It is expressly provided that the governing board of each of the institutions of higher education named herein shall approve on or before September 1, 2003 and 2004, an itemized budget covering the operation of the ensuing fiscal year, which budget shall be prepared within the limits of the revenue available. Each institution's operating budget shall contain a section(s) which provides budget amounts and the method of finance for each listed informational item of appropriated funds contained in this Act. A copy of each budget, and any subsequent amendments thereto, shall be filed with the Legislative Reference Library and the institution's general library to be available for public

(Continued)

inspection. Copies of each budget shall also be filed with the Legislative Budget Board, the Governor, and the Texas Higher Education Coordinating Board by December 1 of each fiscal year.

2. Clearing Accounts. At their option, the institutions may use their local depository bank account in lieu of the special clearing account, authorized by Education Code, § 51.008(b), provided that the general requirements set out in therein, for deposits and transfers to the state treasury, are complied with.

#### 3. Revolving Funds.

- a. Each institution affected by this section, at its option, is hereby authorized to maintain a revolving fund to facilitate the payment of nominal expenses and to pay bills within cash discount periods. The institutions may use the revolving fund for regular monthly payrolls as well as for weekly and special payrolls. Disbursements from the revolving funds are to be reimbursed from respective items of educational and general appropriation made herein, the Comptroller of Public Accounts being hereby authorized to make such reimbursements on claims filed with her by the institutions under her regularly prescribed procedures except that one voucher and one warrant may cover any number of claims for this purpose. These reimbursement claims shall meet the same requirements as other claims against state appropriations, and each institution shall prepare such a reimbursement claim as at the close of business on the last day of each month and as many times during the month as may be expedient in order to make unnecessary the maintaining of an unreasonably large revolving fund.
- b. The respective governing board shall determine the amounts of the revolving funds to be set up for each institution, and may increase or decrease the amounts if necessary. Such governing board shall designate a depository bank for each revolving fund, and shall specify the officers and/or employees to sign checks drawn on each such fund. The depository bank for each revolving fund shall be required to secure the deposit as provided by law.
- c. Appropriations to all institutions of higher education and systems, except funds identified exclusively for salaries, may be used to reimburse any revolving fund operated for the benefit of one or more parts or component units of an institution or system, such as a motor pool for managing automotive vehicles authorized by this Act, a feed supply center, an office supply or laboratory supply center, a computer center, or any other operations of a similar nature established by authority of the governing board of said institution or system.
- 4. **Local Depositories.** The governing boards of the respective institutions for which appropriations are made in this Article are hereby authorized to select depository banks for the safekeeping of funds which are authorized, by statute, to be maintained outside the state treasury. The boards shall require depository banks to furnish adequate surety bonds or securities to be posted for the assurance of safety of such deposits. The depository bank or banks so selected are hereby authorized to pledge their securities for assurance of safety for such funds. All such local funds shall be deposited in these depositories within seven (7) days from date of collection. The governing boards may require the depository so designated and selected to pay interest on deposits at a rate to be agreed upon by said depositories and said boards.

#### 5. Investment Reports.

a. The governing board of each of the educational institutions named in this Article shall file with the State Auditor, Comptroller of Public Accounts, Legislative Budget Board, and the

(Continued)

Governor an annual report of all investment transactions involving endowment funds, short-term and long-term investment funds, and all other securities transactions, in a method prescribed by the State Auditor's Office. Copies of such reports shall be available for public inspection. In addition to the annual report, each institution shall publish on its website quarterly investment reports in any format it deems appropriate.

b. The governing boards of each educational institution named in this Article must adopt formal investment policies. Each governing board shall submit to the Legislative Budget Board and State Auditor's Office a copy of their investment policy by December 31 of each year.

#### 6. Central Services Accounts.

- Out of funds appropriated in this Article, the governing boards of the university systems and their component units, and institutions of higher education may employ persons to serve two or more parts or component units of the system or institution and may pay their salaries in whole or in part from the informational items of appropriation made herein to any component unit. The governing boards are authorized to establish accounts from which salaries and expenses for the administration and supervision of the units of the system or institution may be paid and to require the units, including any other agency the administration of which it may be charged with by law, to pay into this account from any general revenue, local, or institutional funds their proportionate share as determined by the board for the expense of such administration and supervision. The Comptroller of Public Accounts is authorized to set up an account for each of the systems or institutions and to deposit in the account funds to the amount authorized by the governing boards and executive heads of the respective units, from funds appropriated by the Legislature to the units for noninstructional salaries and general operating expenses. The Comptroller is authorized to draw warrants against such accounts based on vouchers submitted by the systems or institutions in payment of salaries, maintenance, equipment or travel incidental to the administration and supervision of the respective units.
- b. The systems and institutions whose governing boards and component units are subject to the above are authorized to establish the following accounts:

Texas A&M University System Central Services Account The University of Texas System Central Services Account University of Houston System Central Services Account Texas Tech University System Central Services Account University of North Texas System Central Services Account Texas State University System Central Services Account

- c. Travel expense incurred by a person employed by one unit of an above system or institution in connection with service to the other units may be reimbursed by the unit for which such services are performed or proportionately if more than one such unit is involved.
- 7. **Utility Revolving Funds**. The governing boards of Texas Woman's University, West Texas A&M University, all components of the University of Houston System, Texas State University System, Texas Tech University System, University of North Texas System, and The University of Texas System are authorized to use appropriated funds, except funds expressly identified for salaries, to make payments of debt service and other payments in connection with utility plant revenue bonds and utility plant operation and maintenance expenses, and/or to reimburse any revolving fund now or hereafter established in connection with providing utility services to any

(Continued)

building or facility of the college or university, in accordance with the general principles established in Education Code § 55.11, and the creation and maintenance of any such revolving fund is hereby authorized.

#### 8. Appropriation Expenditure Authorization.

- a. The educational and general appropriations made in this Act to the general academic teaching institutions, health related institutions and Texas State Technical College may be expended for the following purposes, including, but not limited to: Instruction; Research; Public Service; Academic Support; Student Services; Institutional Support; Operation and Maintenance of Plant; Scholarships; Staff Benefits; Organized Activities; and Patient Care. Major repairs and rehabilitation of buildings and facilities may be purchased from appropriated funds, but may not be purchased from general revenue funds that are not expressly identified or allocated for such purposes.
- b. No educational and general funds appropriated to any institution or agency named in this article may be expended on auxiliary enterprises, unless specifically authorized in this Act.
- 9. **Tuition Revenue Bonds and Revenue Bonds.** Funds clearly identified in separate informational strategies to the general academic teaching institutions and health sciences centers for revenue or tuition revenue bond retirement may be expended only to reimburse institutions or centers for debt retirement authorized by Education Code § 55.17 through § 55.174 and § 55.19, and any additional authorization enacted by the Seventy-eighth Legislature. Any funds in excess of the amount expended for debt retirement shall be reverted to the General Revenue Fund at the end of each fiscal year.
- Sec. 7. **Recruitment of Students.** No funds appropriated by this Act may be expended for travel expenses incurred outside the boundaries of the State of Texas for the purpose of direct recruitment of students.
- Sec. 8. **Television Stations Prohibited**. None of the educational and general funds appropriated in this Article may be expended for the acquisition, construction or operation of television transmitter stations; provided, however, this prohibition shall not be construed so as to prevent the institutions of higher education named in this Article from using closed-circuit television for purely instructional purposes, or to prevent institutions with existing public broadcasting or transmitter stations to use them for educational purposes, or to prevent the continuance of operating arrangements with existing transmitter stations for purely educational purposes; or to prevent cooperative arrangements with public broadcast stations.
- Sec. 9. Intercollegiate Athletics. The special and general provisions of Articles III and IX of this Act shall not apply to intercollegiate athletics. The governing boards of the respective institutions of higher education shall make such necessary rules and adjustments as may be deemed advisable for the management and operation of such activities; however, no funds under control of intercollegiate athletics may be used to purchase alcoholic beverages; no educational and general funds appropriated may be used for the operation of intercollegiate athletics; such rules and adjustments shall be designed to complement the rules applicable to other departments of the respective institution and finally, such rules and adjustments shall specifically prohibit violation of National Collegiate Athletic Association (NCAA) or other governing body rules with respect to recruitment of athletes.
- Sec. 10. **Prohibition Against Additional Museums**. None of the educational and general funds appropriated in this Article shall be used for establishing additional museums or for the maintenance and operation of museums unless the language of this Act or of other acts and resolutions of the Legislature specifically authorizes such use of educational and general funds. As an exception to this provision, in order to encourage and promote gifts, grants, or donations to institutions of higher

(Continued)

education, it is specifically provided that an institution which receives such gifts, grants or donations for the construction or establishment of a museum, which is added to an institution's building inventory after September 1, 1997, may use education and general funds appropriated by this Article for the maintenance and operation of such a museum. This exception applies only to the authority to spend appropriated funds for these purposes; such museum space shall not be included in formula calculations for purposes of determining the amounts of appropriations due for maintenance or operations of institutional facilities.

### $Sec.\ 11.$ Method of Financing Scholarships.

- 1. Out of the funds identified by this Article in the informational items described as "Other Educational and General Income," the respective governing boards of the general academic teaching institutions and of the health centers, health science centers, or technical colleges may allocate and expend the actual receipts in such informational item for student scholarships pursuant to the provisions of Education Code § 56.031 to § 56.039, cited as the Texas Public Educational Grants Program.
- 2. Copies of such approved allocations together with copies of rules and regulations adopted by the respective governing boards concerning the award of such scholarships, shall be filed with the Coordinating Board and with the Comptroller prior to the disbursement of any moneys for scholarships. Copies of any subsequent changes in such allocations or rules shall be similarly filed with the Coordinating Board and with the Comptroller.
- 3. No educational and general funds appropriated in this Act for scholarships to institutions of higher education may be used to provide athletic scholarships.
- 4. Out of the additional funds appropriated for the 2004–05 biennium for the informational strategy described as "Scholarships," it is the intent of the Legislature that the respective governing boards shall allocate and expend such funds for need-based student scholarships regardless of the race, sex, color or ethnicity of the student recipient.

Sec. 12. Use of Educational and General Funds for Alumni Activities Prohibited. None of the educational and general funds appropriated by this Article may be expended by institutions of higher education for the support or maintenance of alumni organizations or activities.

#### Sec. 13. Limitation of Nonresident Enrollment in Certain State-supported Professional Schools.

1. None of the funds appropriated by this Act may be expended for the establishment, operation, or maintenance, or for the payment of any salaries to the employees in, any wholly or partially state-supported medical, dental, or law school which: (a) imposes a limitation on the number of students that it admits, (b) in an academic semester denies admission to one or more Texas residents who apply for admission and who reasonably demonstrate that they are probably capable of doing the quality of work that is necessary to obtain the usual degree awarded by such school, and (c) in the same academic semester admits, as either class, nonresidents of the State of Texas in a number greater than 10 percent of the class of which such nonresidents are a part. Limitation of nonresident enrollment at The University of Texas Law School, Texas Tech University School of Law, and the University of Houston Law Center may be increased to 20 percent of the class of which nonresidents are a part provided that the admission of such nonresident students is on the basis of academic merit alone. By the provisions of this paragraph it is intended to withhold funds appropriated by this Act from state-supported medical, dental, and law schools which limit their enrollments and which fill more than 10 percent of their classes with non-resident students in the case of medical and dental schools, and 20 percent in the case of The University of Texas Law School, Texas Tech University Law School and the University of Houston Law Center, when the result of admitting a nonresident

(Continued)

denies admission to a qualified Texas applicant. This provision shall not apply to the funds appropriated to the Coordinating Board for the funding of Baylor College of Medicine or to funds appropriated for tuition equalization grants for students attending private colleges.

- 2. In addition, The University of Texas Southwestern Medical Center at Dallas may admit up to 25 competitively recruited medical students in each entering class for a specialized six-year program of clinical and research training designed to lead to the MD and PhD degrees irrespective of whether those students are Texas residents.
- 3. Texas medical schools may enroll up to 6 competitively recruited medical students, who already possess the DDS degree, in each second year medical school class for a specialized six year program in oral and maxillofacial surgery comprised of the last three years of medical school and a three year residency program irrespective of whether those students are Texas residents.

Sec. 14. **Off-campus Instruction**. General academic institutions may teach courses off campus with the following restrictions:

- 1. At the conclusion of each fiscal year, the Coordinating Board shall file a report with the Governor and the Legislative Budget Board on all general academic institutions concerning off-campus semester credit hours for that fiscal year.
- 2. Semester credit hours generated at upper level centers authorized by the Legislature or by the Coordinating Board, as well as at Prairie View A&M University's Houston nursing program and Texas Woman's University nursing programs in Dallas and Houston are not considered to be off-campus.
- 3. All courses taught off campus must be taught by a regular faculty member or administrator who is employed at least half-time on the main campus of the institution. The Commissioner of Higher Education may waive this requirement in special cases where institutions can justify the use of a uniquely qualified individual. Allied health and vocational instructors are exempted from this requirement.

Sec. 15. **Medical School Enrollment**. It is the intent of the Legislature that the first year class enrollment of undergraduate medical students in the fiscal years ending August 31, 2004 and August 31, 2005, shall be no less than 200 students at The University of Texas System medical colleges and 100 students at the University of North Texas Health Science Center at Fort Worth and the Texas Tech University Health Sciences Center College of Medicine. This provision shall not be construed as requiring any school of medicine to accept an unqualified applicant. In the event that a school of medicine falls below the required first year class enrollment of undergraduate medical students by more than 5 percent for fiscal years 2004 and 2005, the school shall report to the Legislative Budget Board the reasons for failing to meet the required enrollment. It is the intent of the Legislature that this information be taken into account when preparing the appropriation recommendations for the Seventy-ninth Legislature.

Sec. 16. Tuition and Other Educational and General Local Fee Collection. On or before the end of the 20th class day for each regular semester and the 15th class day for each summer session, each institution of higher education shall collect from each student whose semester credit hours are to be included in formula funding calculations all tuition and all fees in accordance with the installment tuition and fee payment plan provided for by Education Code, Chapter 54, as amended. Valid contracts with the United States Government for instruction of eligible military personnel, valid contracts with private business and public service—type organizations or institutions such as hospitals, and financial aid awards processed by the financial aid office but not yet issued to the student may be considered as collections thereunder but subject to adjustments after final payment thereof.

(Continued)

Sec. 17. Compliance with Uniform Recruitment and Retention Strategy. It is the intent of the Legislature that institutions of higher education give top priority and consideration to compliance with the spirit and mandates of the Uniform Recruitment and Retention Strategy.

Sec. 18. Formula Variable and Educational and General Income Audits. The Texas Higher Education Coordinating Board in consultation with the State Auditor's Office and the Legislative Budget Board, shall clearly define all variables used by the Seventy-eighth Legislature in arriving at formula appropriations for 2004 and 2005. According to an audit plan developed in consultation with the Coordinating Board and Legislative Budget Board, all variables of selected formulas used in making 2004 and 2005 formula appropriations are subject to audit by the State Auditor. The State Auditor shall report any differences from data submitted by the institutions to the Coordinating Board, the Legislative Budget Board, and the Governor. The Coordinating Board shall then calculate a new appropriations amount for each institution that reported data in conflict with that verified by the Auditor. These calculations shall then be reported to the Legislative Budget Board, Governor, and the Comptroller of Public Accounts and may be used to revise appropriation authority accordingly. The calculation of revised appropriation amounts shall allow each institution an error rate of up to 2 percent of the biennial appropriations related to the variables audited at that institution.

In addition, components of educational and general income reported in the institutional requests for legislative appropriations for fiscal years 2004 and 2005 are subject to audit by the State Auditor.

The State Auditor may request the assistance of an institution's internal auditor in performing the audits described in this section.

- Sec. 19. **System Offices Funding Authorized**. Educational and general funds appropriated to components of The University of Texas, Texas A&M University, University of Houston, Texas Tech University, University of North Texas, Texas State University System and Texas State Technical College Systems may be transferred or contracted to system offices to provide support for coordination, administration, and other related services.
- Sec. 20. Annual Reports of Health Related Institutions Practice Plans. As a limitation and restriction upon appropriations made by this Act, all agencies that have a public health related institution covered under Article III shall not expend funds after a period of 120 days following the close of the fiscal year, unless there has been filed with the Governor, the State Auditor, the Legislative Budget Board, the Legislative Reference Library and the Comptroller of Public Accounts an annual report as of August 31 of the preceding fiscal year, showing the use of practice plan funds. The annual report shall conform to a uniform reporting system developed by the State Auditor's Office for all financial data concerning the health related institutions practice plans.
- Sec. 21. **Self-insurance Funds**. Any funds of an institution of higher education used for or allocated to a self-insurance fund authorized by Government Code § 2259.001 for a risk otherwise insurable by the institution of higher education shall be treated by the Comptroller of Public Accounts as an expenditure of the respective funds. The self-insurance funds so created shall be considered designated funds as that term is used in § 51.008(b) of the Education Code. Any self-insurance fund reserves so created shall not exceed in amount the maximum value determined to be actuarially sound for each such self-insurance program.

### Sec. 22. Elements of Unsponsored Charity Care.

1. **Financially Indigent.** Unsponsored charity care shall include unreimbursed services to the financially indigent. Financially indigent shall mean uninsured or underinsured patients accepted for care with no obligation or a discounted obligation to pay for services rendered based on a teaching hospital's or clinic's formal eligibility system which may include:

(a) income levels and means testing or other criteria for determining a patient's inability to pay;

(Continued)

or (b) other criteria for determining a patient's inability to pay that are consistent with the hospital's or clinic's mission and established policy. The federal poverty level shall serve as an index for the threshold below which patients receiving care at The University of Texas Southwestern Medical Center at Dallas, The University of Texas Medical Branch at Galveston, The University of Texas Health Science Center at Houston, The University of Texas Health Science Center at San Antonio, The University of Texas M.D. Anderson Cancer Center, The University of Texas Health Center at Tyler, Texas A&M University System Health Science Center, The Texas Tech Health Sciences Center, and The University of North Texas Health Science Center are deemed financially indigent. Financially indigent services include both noncovered services and contractual allowances for patients eligible for the Medicaid program and for the Children with Special Health Care Needs (formerly known as CIDC) program, services provided under the Maternal and Infant Health Improvement Act (MIHIA), services provided under county indigent care contracts (Sec. 25), and services provided under other state or local government programs with eligibility indexed to the federal poverty level.

- 2. **Medically Indigent.** Unsponsored charity care shall include unreimbursed services to the medically indigent. Medically indigent shall mean patients who are responsible for their living expenses, but whose medical and hospital bills, after payment by third-party payers, where applicable, exceed: (a) a specified percentage of the patient's annual gross income (i.e., catastrophic medical expenses) in accordance with a teaching hospital or clinic's formal eligibility system in such instances where payment would require liquidation of assets critical to living or earning a living; or (b) the criteria for determining a patient's inability to pay as established by the public health-related institutions listed in Sec. 22, 1. Financially Indigent.
- 3. **Charity Care Determination**. The determination that a patient is financially or medically indigent shall occur within 120 days of the patient's discharge from the hospital or clinic setting or within 120 days of the third party payor settlement.
- 4. **Contractual Adjustments**. The contractual adjustments to commercial contracts, managed care contracts, and Medicare for the public health-related institutions listed in Sec. 22, 1. Financially Indigent, shall not be counted as unsponsored charity care.
- 5. **Bad Debt.** Bad debts shall not be counted as unsponsored charity costs. Bad debts shall include the uncollected billed charges for services rendered to patients who do not qualify under the definition of unsponsored charity care.
- Sec. 23. Unsponsored Charity Care Reporting Requirement. The public health-related institutions listed in Sec. 22, 1. Financially Indigent, shall include in their biennial legislative appropriations request information including the actual amount of unsponsored charity care provided through each institution's respective physician practice plan, and if applicable, hospital or clinic using the definition of unsponsored charity care set forth in the section called "Elements of Unsponsored Charity Care."
- Sec. 24. Patient Income Eligibility Guidelines. The University of Texas Medical Branch at Galveston, The University of Texas M.D. Anderson Cancer Center, and The University of Texas Health Center at Tyler shall use the federal poverty level indexed at an agreed-upon level as the guideline for determining indigent patient status, and those institutions' eligibility guidelines regarding copayment by patients deemed financially or medically indigent shall be the same.

The University of Texas Southwestern Medical Center at Dallas, The University of Texas Health Science Center at Houston, The University of Texas Health Science Center at San Antonio, Texas A&M University System Health Science Center, The Texas Tech Health Sciences Center, and The University of North Texas Health Science Center may use as a basis for reporting indigent care

#### Sec. 25. County Indigent Care Contracts.

- 1. **Contracts Required**. It is the intent of the Legislature that all institutions of higher education providing indigent health care contract with relevant counties in their service area to recover the costs associated with treating those counties' indigent patients.
- 2. County Indigent Care Contracts Reporting. The University of Texas Medical Branch at Galveston, The University of Texas M.D. Anderson Cancer Center, and The University of Texas Health Center at Tyler shall submit to the Legislative Budget Board and the Governor at the end of each fiscal year a list of counties whose indigent residents have been served by each institution; the total amount of reimbursement received by each institution from each county pursuant to the Indigent Health Care and Treatment Act; and the total cost, by county, of services provided by each institution for which counties are liable pursuant to the Indigent Health Care and Treatment Act. In addition, each institution shall report annually to the Legislative Budget Board and Governor on the status of contract agreements or negotiations with each county whose indigent residents have been served by the institution.

## Sec. 26. Ethics Policy.

- 1. None of the funds appropriated by this Act may be expended by an institution of higher education until its governing board has filed with the Texas Higher Education Coordinating Board an ethics policy which has been adopted by the board of regents. The ethics policy shall apply to the board of regents and its staff, the administration, staff, and faculty of the institutions under the board's governance.
- 2. The ethics policy adopted by each board of regents shall include specific provisions regarding sexual harassment.
- Sec. 27. **Driscoll Children's Hospital**. No funds appropriated to a health-related institution of higher education shall be used to replace or duplicate the Driscoll Children's Hospital in caring for children with special health-care needs, including pediatric cardiovascular diseases or in assuming the direct care of those children. It is legislative intent that this rider language not restrict the traditional referral patterns, utilized by physicians to refer patients to health-related institutions.
- Sec. 28. Participation in Drug Development Research Projects. A public university may not expend funds appropriated by this Act, including appropriations of grants or gifts, to conduct a drug development research protocol involving a person who is receiving mental health services under a protective custody order, pursuant to Chapter 574, Health and Safety Code. Sec. 30. **General Academic Funding**. Funding for general academic institutions will consist of four formulas and supplemental items.

1. **Instruction and Operations Formula**. The Instruction and Operations Formula shall provide funding for faculty salaries, including nursing, departmental operating expense, library, instructional administration, research enhancement, student services, and institutional support. These funds are distributed on a weighted semester credit hour basis. The rate per weighted semester credit hour for the 2004–05 biennium is \$51.25.

Weighting is determined by the following matrix:

	Lower Division	Upper Division	Masters	Doctoral	Special Professional
Liberal Arts	1.00	1.96	3.94	12.04

- 2. **Teaching Experience Supplement.** For the 2004–05 biennium, an additional weight of 10 percent is added to lower division and upper division semester credit hours taught by tenured and tenure-track faculty. Furthermore, it is the intent of the Legislature that the weight shall increase by 10 percent per biennium, up to 50 percent.
- 3. **Infrastructure Support**. Funding associated with plant-related formulas and utilities shall be distributed by the infrastructure support formula which is driven by the predicted square feet for universities' educational and general activities produced by the Space Projection Model developed by the Coordinating Board. The portion of the formula related to utilities is adjusted to reflect differences in unit costs for purchased utilities, including electricity, natural gas, water and wastewater and thermal energy. The average rate per square foot is \$5.95.
- 4. **Supplemental Non-formula Items**. Institutions shall receive a direct reimbursement as applicable for staff group insurance (other educational and general income portion), workers' compensation insurance, unemployment compensation insurance, public education grants, 50 percent of indirect research costs recovered on grants, organized activities, scholarships, tuition revenue bond payments, Skiles Act bond payments, and facility lease charges. Institutions may receive an appropriation for special items. Revenue derived from board authorized tuition would still be appropriated to the institutions levying the additional charges.

These formulas and supplemental items shall be reviewed and updated by study committees appointed by the Higher Education Coordinating Board and recommended changes forwarded to the Legislature, Legislative Budget Board, and Governor by June 1, 2004.

Sec. 31. **Health Related Institutions Funding**. Funding for health related institutions shall consist of three formulas plus supplemental non-formula items.

1. **Instruction and Operations Support Formula.** The Instruction and Operations Support Formula shall provide funding on a per student or full time equivalent basis. Funding for each instructional program is based on the following funding weights per student, with a base value per weighted student of \$9,934:

Weight Per Student
1.000
1.018
1.138
1.670
1.721
4.601
4.753

Instructional programs with enrollments of less than 200 students at individual campuses shall receive additional funding to compensate for the diseconomies of scale. The minimum formula shall generate additional funding per student, on a sliding scale, with programs with small enrollments receiving more additional funding per student.

2. Infrastructure Support Formula. Funding to the health-related institutions for plant support and utilities shall be distributed by the infrastructure support formula which is driven by the predicted square feet for the health related institutions produced by the Space Projection Model developed by the Texas Higher Education Coordinating Board. The rate per square foot is \$9.43 for all health related institutions, excluding The University of Texas M. D. Anderson Cancer Center and The University of Texas Health Center at Tyler. For these two institutions, the per square foot rate is \$9.31.

(Continued)

Because the Space Projection Model does not account for hospital space, separate infrastructure funding for hospital space at The University of Texas Medical Branch at Galveston, The University of Texas M. D. Anderson Cancer Center, and The University of Texas Health Center at Tyler shall be included in the total funding for hospital and patient care activities.

- 3. **Research Funding**. The health-related institutions shall retain 100 percent of indirect research costs recovered on grants. Each institution also receives research enhancement funding of \$1,412,500 plus 2.15 percent of its research expenditures as reported to the Texas Higher Education Coordinating Board.
- 4. **Supplemental Non-formula Items**. Institutions shall receive a direct reimbursement as applicable for staff group insurance, workers' compensation insurance, unemployment insurance, public education grants, medical loans, tuition revenue bond payments, and facility lease charges. Institutions may receive an appropriation for special items. Hospital and clinic operations shall be funded through a combination of hospital and clinic revenue and general revenue.
- 5. **Formula Study Committees**. These formulas shall be reviewed and updated by study committees appointed by the Texas Higher Education Coordinating Board and recommended changes forwarded to the Legislature, Legislative Budget Board, and Governor by June 1, 2004.
- 6. **Mission Specific Support**. The University of Texas M.D. Anderson Cancer Center and the University of Texas Health Center at Tyler do not provide formal medical education which qualifies for instruction support under subsection 1 above. Therefore, funding allocated to these institutions shall be based on the following criteria:
  - a. The University of Texas M.D. Anderson Cancer Center has a statutory mission to eliminate cancer through patient care, research, education, and prevention. General Revenue funds appropriated to The University of Texas M.D. Anderson Cancer Center in Strategy B.1.3, Science Park Operations, and Strategy D.1.1, Patient Care Activities, shall be based on the number of new cancer cases each year based upon population estimate projections of the state produced by the Texas State Data Center and California State Center Registry incidence rates used as a methodological source by cancer epidemiologists in Texas and throughout the country. General Revenue appropriations for fiscal year 2004 shall be based on the number of new cancer cases reported in 2001, and General Revenue appropriations for fiscal year 2005 shall be based on the number of new cancer cases reported in 2002. The rate per new cancer case shall be \$59.31 in fiscal year 2004 and \$58.21 in fiscal year 2005 for Strategy B.1.3, Science Park Operations: and \$263.29 in fiscal year 2004 and \$268.16 in fiscal year 2005 for Strategy D.1.1, Patient Care Activities.
  - b. The University of Texas Health Center at Tyler has a statutory mission to conduct research, develop diagnostic and treatment techniques, provide training and teaching programs, and provide diagnosis and treatment of inpatients and outpatients with respiratory diseases. General Revenue funds appropriated to The University of Texas Health Center at Tyler in Strategy A.1.1, Medical Education and Research Items, shall be based on the number of new primary chest disease diagnoses each year in Texas as reported by participating Texas hospitals in the Texas Hospital Association Patient Data System program. General Revenue appropriations for fiscal year 2004 shall be based on the number of new primary chest disease diagnoses reported in 2000, and General Revenue appropriations for fiscal year 2005 shall be based on the number of new primary chest disease diagnoses reported in 2001. The rate per primary chest diagnosis shall be \$7.56 for fiscal year 2004 and \$7.27 for fiscal year 2005.

- c. The University of Texas M.D. Anderson Cancer Center and The University of Texas Health Center at Tyler shall submit to the Legislative Budget Board, Governor, and Texas Higher Education Coordinating Board a copy of the appropriate reports discussed above and supporting documentation which provides the necessary information to calculate the formula allocations in subsections (a) and (b) above.
- Sec. 32. **Optional Retirement Program Differential**. Included in the appropriation to institutions of higher education in this act are general revenue amounts to offset local funds used for the optional retirement program employer contributions between 6 percent and 7.31 percent of salaries for employees who were on the state payroll or who were employed by a Public Community or Junior College as of August 31, 1995. These general revenue amounts are included in the funding formulas for general academic institutions and two-year institutions and in the base funding for other institutions of higher education.
- Sec. 33. Indirect Cost Recovery Earned by Texas A&M Services. The Texas A&M University System Service agencies shall report to the Legislative Budget Board in their Legislative Appropriations Requests for 2006–07 all indirect cost recovery revenue earned on research grants and contracts including amounts collected by the Research Foundation.
- Sec. 34. Fire Safety Projects at Institutions of Higher Education. Because of the urgent nature of these projects, it is the intent of the Legislature that institutions of higher education that have major fire safety projects, identified by the State Fire Marshal's Office as not meeting the requirements of the National Fire Protection Association, *Life Safety Code*, 1994 Edition, remedy the fire safety issues and complete any related construction and renovation projects as soon as practical. Institutions shall consult with the State Fire Marshal's Office and develop a time line for completion of the projects. Institutions shall implement the interim safety precautions recommended by the State Fire Marshal's Office. The State Fire Marshal shall submit periodic reports to the House Appropriations Committee and Senate Finance Committee on the progress of institutions in remedying the fire safety issues.

Institutions of higher education shall notify parents of students living in dormitories identified by the State Fire Marshal's Office. The notice shall contain information about the actions needed to rectify noncompliance and the time frame in which the institution plans to make improvements in order to comply.

- Sec. 35. **Special Items**. It is the intent of the Legislature that actions taken to consolidate certain special items under the Institutional Enhancement strategy shall not in any way be construed to preclude actions to add special item funding for a statewide or broadly based initiative identified by the Legislature to address significant unmet needs.
- Sec. 36. Funding for Physical Education Courses. No funds appropriated under this act shall be used for contact hours or semester credit hours for students who are registered solely for physical education, weight lifting, group exercises, aerobics, or related courses; have registered for the same such course more than once; and are not seeking a degree plan or certificate of completion of a course of study.
- Sec. 37. Faculty Salary Increase Report. The Texas Higher Education Coordinating Board shall report the average salary increase provided to faculty at each general academic institution to the Legislative Budget Board and Governor by January 31 of each fiscal year on a form prescribed by the Texas Higher Education Coordinating Board.
- Sec. 38. **Endowed Chairs**. Out of funds appropriated to the Texas Higher Education Coordinating Board for Baylor College of Medicine, Houston; University of Texas Health Science Center at Houston; University of Texas Medical Branch at Galveston, each may expend up to \$1,000,000 out of

- Sec. 39. Status of Endowed Chairs at General Academic Institutions. Each general academic institution that accepts donations for endowed chairs shall do the following: for each endowed chair that remains unfilled for a period of three consecutive years, provide a report to the donor disclosing the vacant status of the chair, in accordance with the donor agreement.
- Sec. 40. **A&M Service Agencies' Infrastructure.** Except for amounts identified in subsection (1), funds identified as Infrastructure Support for Texas Agricultural Experiment Station, Texas Cooperative Extension, Texas Forest Service, Texas Engineering Experiment Station, Texas Transportation Institute, and Texas Engineering Extension Service are to be applied to each agency's infrastructure needs in Brazos County under the Texas Higher Education Coordinating Board's recommended formula for the A&M service agencies' infrastructure.
  - 1. Each agency shall continue to work with the Texas Higher Education Coordinating Board as part of the ongoing formula advisory committee review process. Included in the Infrastructure Support strategy are funds formerly classified as Capital Equity and Excellence Funding.
  - 2. Included in the appropriations for the A&M Service Agencies, the following biennial amounts shall be used for infrastructure support needs for facilities located outside of Brazos County: \$3,488,802 for the Texas Agricultural Experiment Station, \$660,044 for the Texas Cooperative Extension, \$700,000 for the Texas Forest Service, and \$577,401 for the Texas Veterinary Medical Diagnostic Laboratory.

This provision shall not be construed as requiring any school to accept an unqualified applicant to its professional nursing program. In the event that a school falls below the required number of students enrolled in professional nursing program by more than 5% for the state fiscal year ending August 31, 2004 and the state fiscal year ending August 31, 2005, the school shall report to the Legislative Budget Board and the Texas Higher Education Coordinating Board the reasons for failing to meet the required enrollment.

- Sec. 43. **Endowed Programs**. A state university that, within five years of receiving a donation, diminishes its financial support from local funds for a program created or endowed by the donor, shall notify the donor in accordance with the donor agreement. If the agreement so provides, then upon application by the donor, the university shall return the donation or endowment.
- Sec. 44. **Student Travel Policy**. Each governing board of an institution of higher-education shall adopt a policy regulating travel that is undertaken by one or more students presently enrolled at the institution to reach an activity or event that is located more than 25 miles from the institution that is organized and sponsored by the institution and that is funded by the institution, and the travel is undertaken using a vehicle owned or leased by the institution or required by a student organization registered at the institution.

It is the intent of the legislature that any institution that the Seventy-eighth Legislature authorizes to issue new tuition revenue bonds, other than bonds authorized to respond to damages caused by Tropical Storm Allison, would not be eligible for any new tuition revenue bond authorization by the Seventh-ninth Legislature.
- Sec. 58. Program to Encourage Certification to Teach Bilingual Education, English as a Second Language, or Spanish. Of the funds appropriated by this Act to the Texas Higher Education Coordinating Board, the Coordinating Board may use an amount that is not less than \$150,000 for each year off he 2004–05 biennium to develop and operate a program at the University of North Texas System Center at Dallas, in consultation with the university, to provide financial incentives, such as tuition assistance and loan forgiveness, to encourage students who enroll in an educator preparation program at the university to become certified to teach bilingual education, English as a Second Language, or Spanish.

in fiscal year 2005 are hereby appropriated to the Supreme Court for the same purpose (estimated to be \$0). Any unexpended balances in the Basic Civil Legal Services account at the end of fiscal year 2003 are hereby appropriated to the Supreme Court in fiscal year 2004 for the same purpose (estimated to be \$3,700,000 and included in amounts appropriated above).

The Supreme Court of Texas shall file a report with the Legislative Budget Board and the Governor within 90 days following February 28 and August 31 of each fiscal year showing disbursements from the Basic Civil Legal Services Account of Judicial Fund No. 573, the purpose for each disbursement, and compliance with grant conditions.

- 2. **Equalization**. It is the intent of the Legislature that the Supreme Court equalize the dockets of the fourteen courts of appeals. Equalization shall be considered achieved if the new cases filed each year per justice are equalized by 10 percent or less among all the courts of appeals.
- 3. Baseline for Fiscal Years 2006–07. It is the intent of the Legislature for the Supreme Court to use the balance of local funds collected under Government Code, § 51.006 for appellate court operations during fiscal years 2004–05 (estimated to be \$130,000, a balance held outside the state treasury). Use of these funds will reduce the license fund balance to the minimum required for continued operations authorized under Government Code, § 51.006. It is the intent of the Legislature for the Seventy-ninth Legislature to address this method of finance.
- 4. **Special Masters: State Commission on Judicial Conduct.** The appropriations to the State Commission on Judicial Conduct reflect the intent of the Legislature to encourage the Supreme Court of Texas to appoint active judges rather than retired judges as special masters in formal proceedings initiated by the State Commission on Judicial Conduct under Rule 10 of the *Procedural Rules for the Removal or Retirement of Judges*.
- 5. **Technology Advancement.** Notwithstanding any other provisions of this Act relating to the Telecommunications Infrastructure Board (TIFB), the cash and credits originally due to be received by the TIFB pursuant to the approved settlement of Cause No. 98-07-3003-E in the District Court of Cameron County, 357th Judicial District (estimated to be \$3,000,000 in fiscal year 2004), are appropriated to the Supreme Court of Texas. The availability of these funds is contingent upon the above-mentioned settlement funds becoming available for appropriation. These amounts are to be used for the purpose of administering grants to provide public access to legal information at public libraries, courthouse facilities, and community technology centers. The funds appropriated herein are a one-time appropriation.

- 2. **Restriction, Assistance to the Administrative Judicial Regions.** Funds appropriated in A.1.4. Strategy, Assistance to Administrative Judicial Regions, may be used only for the payment of salaries of administrative assistants employed by the presiding judges of the Administrative Judicial Regions pursuant to Government Code § 74.050, as amended. The salaries paid the administrative assistants may be supplemented from sources other than appropriations provided by this Act.
- 3. Information Regarding Allocation of Full-Time-Equivalent Positions. The following data regarding allocation of the "Number of Full-Time-Equivalent Positions (FTE)" is provided for informational purposes only, and should not be construed as a cap on the number of FTEs in any one strategy: A.1.1. Strategy, Court Administration (29.0 FTEs); A.1.2. Strategy, Information Technology (21.5 FTEs); A.1.4. Strategy, Assistance to Administrative Judicial Regions (9.0 FTEs); A.1.5. Strategy, Indigent Defense (6.0 FTEs); B.1.1. Strategy, Title IV-D Masters and Assistants Program (88.5 FTEs); and B.1.2. Strategy, Foster Care Courts Program (28.0 FTEs).
- 4. Disaster Recovery, Data Operations, Seat Management, and Information Services at the Appellate Courts. It is the intent of the Legislature that contract services for disaster recovery and data operations services, including seat management, at the appellate courts must be performed by the State Data Center (SDC). Further, employees at appellate courts that perform on-site disaster recovery and data operations services, including seat management, must provide the same level of service available from SDC and may not be reimbursed by the Office of Court Administration from the A.1.2. Strategy, Information Technology, in an amount that would exceed the cost of a contract with SDC. It is the intent of the Legislature that the appellate courts may not employ contractors or employees that provide services that duplicate the information services provided by the Office of Court Administration.
- 5. **Information Services for the Trial Courts.** Out of funds appropriated above in Strategy A.1.2, Information Technology, no less than \$1,600,000 shall be dedicated to providing information services for the Trial Courts.
- 6. Information Technology Equipment and Services. It is the intent of the Legislature that the Office of Court Administration provide staff and information technology equipment and services for the Judicial Committee on Information Technology and information technology equipment and services for the State Law Library, Office of the State Prosecuting Attorney, and Court Reporters Certification Board subject to funds available within amounts appropriated above for Information Technology (A.1.2.). The State Law Library will continue to submit a biennial operating plan for internal support of subscription services to online legal research tools and daily library functions.
- 7. **District Court Performance Measures**. It is the intent of the Legislature that the Office of Court Administration report data for the district courts on a countywide basis and that the data measure countywide clearance rates for criminal, civil, and juvenile cases and measure age of cases disposed and the backlog index for criminal and civil cases. Further, the Office of Court Administration should revise its reporting system for the trial courts to simplify reporting, improve data collection and compliance, and streamline its annual report of the Texas judicial system.

## OFFICE OF COURT ADMINISTRATION, TEXAS JUDICIAL COUNCIL

(Continued)

- 8. Appellate Court Performance Measures. It is the intent of the Legislature that the current performance measures for the appellate courts continue to be used for caseload management by each court in accordance with uniform data reporting standards approved by the courts of appeals. Further, the appellate courts should continuously find ways to operate efficiently without sacrificing the quality of justice while remaining true to the rule of law. Finally, the Office of Court Administration should continue to study whether the statistical data currently reported is presented in a clear, understandable format and what, if any, additional data should be collected.
- 9. **Assistance to Presiding Judges of the Nine Administrative Judicial Regions.** The Office of Court Administration shall assist the presiding judges of the nine administrative judicial regions in seeking alternative funding, including federal funding, for payments to visiting judges serving in the nine administrative judicial regions.
- 10. Interagency Contract for Assigned Judges for Foster Care Courts. Out of funds appropriated above to Strategy B.1.2, Foster Care Courts Program, the Office of Court Administration may enter into a contract with the Office of the Comptroller for fiscal years 2004 and 2005, for the purpose of reimbursing the Comptroller for amounts expended for judges assigned under Chapter 74, Government Code to hear cases of the Foster Care Courts established pursuant to Subchapter C, Chapter 201, Family Code. It is the intent of the Legislature that any amounts reimbursed under this contract for judges assigned to the Foster Care Courts are in addition to amounts appropriated for the use of assigned judges in Strategies A.1.2, Visiting Former Judges Regions or A.1.4, Visiting Retired Judges Regions in the Judiciary Section, Comptroller's Department.
- 11. **Appellate Court Transfers**. It is the intent of the Legislature that upon the request of the Chief Justice of the Supreme Court of Texas, the Presiding Judge of the Court of Criminal Appeals, or the Chair of the Council of Chief Justices, the Office of Court Administration shall assist the appellate courts in transferring funds between courts through interagency contract provisions.
- 12. Contingency Appropriation to Increase Fine Collections and Provide Computer Security. Included in the amounts appropriated above in Strategy A.1.1, Court Administration, the Office of Court Administration is appropriated the amounts of \$223,000 in fiscal year 2004 and \$223,000 in fiscal year 2005 from General Revenue contingent upon the Office of Court Administration implementing six model fines collections programs in fiscal year 2004 and six model fines collections programs in fiscal year 2005. Also contingent on the Office of Court Administration meeting the above collections target, the "Number of Full-Time-Equivalent Positions (FTE)" indicated above includes 3.0 FTEs each fiscal year of the biennium.

The appropriation amounts in this provision and the amount identified above in the informational item "Other Direct and Indirect Costs Appropriated Elsewhere in this Act" are also contingent on the Comptroller of Public Accounts issuing a finding of fact, based on sufficient information being provided by the Office of Court Administration to the Comptroller, that increased collections in excess of amounts in the Comptroller's Biennial Revenue Estimate are estimated to be available to fund the increased appropriations and related benefits for increases in FTEs pursuant to this section.

13. Indigent Defense. All court costs deposited into the Fair Defense Account (General Revenue - Dedicated Account) are appropriated in Strategy A.1.5, Indigent Defense. Any court costs deposited in excess of \$11,956,913 in fiscal year 2004 and \$11,956,912 in fiscal year 2005 are hereby appropriated to the Office of Court Administration, Texas Judicial Council for the same purpose. Included above in Strategy A.1.5, Indigent Defense, is \$685,500 in fiscal year 2004 and \$685,500 in fiscal year 2005 for the administration of the Task Force on Indigent Defense. The Task Force on Indigent Defense shall have authority to make grants to counties from the Fair Defense Account, with funds being disbursed by the Comptroller. In no event shall the appropriation made by this section be used to offset the Office of Court Administration's administrative support provided to the Task Force on Indigent Defense.

- 14. **Unexpended Balances: Information Technology.** Any unexpended balances appropriated above for Information Technology (A.1.2.) in fiscal year 2004 are hereby appropriated to the Office of Court Administration for fiscal year 2005 for the same purposes.
- 15. **Unexpended Balances: Equalization of the Dockets.** Any unexpended balances appropriated above for Equalization of the Courts of Appeals Dockets (A.1.3.) in fiscal year 2004 are hereby appropriated to the Office of Court Administration for fiscal year 2005 for the same purpose.

This requirement shall not be waived by the commission unless the juvenile board demonstrates to the satisfaction of the commission that unusual, catastrophic or exceptional circumstances existed during the year in question to adversely affect the level of county fiscal effort. An additional \$500,000 shall be set aside in a reserve fund for each year of the biennium to allow mandated and non-mandated counties to apply for additional funds on a grant basis.

The remaining funds shall be allocated for distribution to the counties mandated by the § 37.011(a) Texas Education Code, at the rate of \$59 per student per day of attendance in the JJAEP for students who are required to be expelled as provided under § 37.007, Texas Education Code, and are intended to cover the full cost of providing education services to such students. Counties are not eligible to receive these funds until the funds initially allocated at the beginning of each fiscal year have been expended at the rate of \$59 per student per day of attendance. Counties in which populations exceed 72,000, but are 125,000 or less, may participate in the JJAEP, and are eligible for state reimbursement at the rate of \$59 per student per day.

The Texas Juvenile Probation Commission may expend any remaining funds for summer school programs in counties with a population over 72,000 which are funded as mandated counties in Chapter 37. Funds may be used for any student assigned to a JJAEP. Summer school expenditures may not exceed \$3.0 million in any year.

The county is eligible to receive funding from the Texas Juvenile Probation Commission at the rate of \$59 per day per student for students who are required to be expelled under § 37.007, Texas Education Code, and who are expelled from a school district in a county that does not operate a JJAEP.
- 11. **Use of JJAEP Funds.** None of the funds appropriated above for the support of JJAEPs shall be used to hire a person or entity to do lobbying.

- 4. **Revolving Funds.** The Texas Youth Commission may establish out of any funds appropriated herein a revolving fund not to exceed \$10,000 in the Central Office, and \$10,000 in each institution, field office, or facility under its direction. Payments from these revolving funds may be made as directed by the commission. Reimbursement to such revolving funds shall be made out of appropriations provided for in this Article.
- 5. **Student Employment.** Subject to the approval of the Texas Youth Commission, students residing in any Texas Youth Commission facility may be assigned necessary duties in the operations of the facility and be paid on a limited basis out of any funds available to the respective institutions or facility not to exceed \$50,000 a year for each institution and \$10,000 a year for any other facility.
- 6. **Support Payment Collections**. The Texas Youth Commission shall annually report to the Governor and to the Legislative Budget Board the number of active accounts, including the amounts owed to the state pursuant to the Texas Family Code, § 54.06(a) court orders, and the total amount of funds collected.

#### 10. Charges to Employees and Guests.

- a. Collections for services rendered Texas Youth Commission employees and guests shall be made by a deduction from the recipient's salary or by cash payment in advance. Such deductions and other receipts for these services from employees and guests are hereby appropriated to the facility. Refunds of excess collections shall be made from the appropriation to which the collection was deposited.
- b. #### 12. Salaries, Education Professionals.

- a. Each principal, supervisor, and classroom teacher employed in an institution operated by the Texas Youth Commission shall receive a monthly salary to be computed as follows: The applicable monthly salary rate specified in § 21.402, Texas Education Code, as amended, shall be multiplied by ten to arrive at a ten month salary rate. Such rate shall be divided by the number of days required in §21.401, Texas Education Code, for 10-month employees, and the resulting daily rate shall be multiplied by the number of on-duty days required of Texas Youth Commission educators, resulting in the adjusted annual salary. The adjusted annual salary is to be divided by 12 to arrive at the monthly rate. Salary rates for educational aides commencing employment before September 1, 1999, shall be calculated in the same manner, using 60 percent of the salary rate specified in § 21.402, Texas Education Code.
- b. The Texas Youth Commission may authorize salary rates at amounts above the adjusted annual salary determined in the preceding formula, but such rates, including longevity for persons commencing employment on September 1, 1983, or thereafter, and excluding hazardous duty pay, shall never exceed the rates of pay for like positions paid in the public schools of the city in which the Texas Youth Commission institution is located. Any authorized local increments will be in addition to adjusted annual salaries.
- c. There is hereby appropriated to the Texas Youth Commission from any unexpended balances on hand as of August 31, 2004, funds necessary to meet the requirements of this section in fiscal year 2005 in the event adjustments are made in the salary rates specified in the Texas Education Code or in salary rates paid by the public schools where Texas Youth Commission facilities are located.
- 13. **State-owned Housing Authorized**. As of September 1, 1998, the chief superintendent, assistant superintendent and the director of security are authorized to live in state-owned housing at a rate determined by the commission. Notwithstanding general provisions of this Act, commission employees first employed at the Sheffield Boot Camp and West Texas State School on or after September 1, 1999, are authorized to live in state-owned housing at the same rate as persons employed prior to September 1, 1999. Other commission employees may live in state-owned housing as set forth in Article IX, § 11.09, State Owned Housing Recover Housing Costs, of this Act. Fees for employee housing are hereby appropriated to be used for maintaining employee housing.

- 14. **Appropriation Transfers Between Fiscal Years**. In addition to the transfer authority provided elsewhere in this Act, the Texas Youth Commission may transfer appropriations in an amount not to exceed \$9.8 million made for fiscal year 2005 to fiscal year 2004 subject to the following conditions provided by this section:
  - a. Transfers under this section may be made only if (1) juvenile correctional populations exceed appropriated areas of daily population targets or (2) for any other emergency expenditure, including expenditures necessitated by public calamity.
  - b. A transfer authorized by this section must receive prior approval from the Governor and the Legislative Budget Board.
  - c. The Comptroller of Public Accounts shall cooperate as necessary to assist the completion of a transfer and spending under this section.
- 15. **Project RIO.** It is the intent of the Legislature that the Texas Workforce Commission, the Texas Department of Criminal Justice, and the Texas Youth Commission together enhance the effectiveness of Project RIO by improving cohesive program delivery among the three agencies. The agencies shall together develop and implement a biennial strategic plan for the implementation of a more cohesive and effective Project RIO program which will emphasize necessary skill development, rehabilitation, and appropriate assessment of the offender prior to release. Not later than March 1, 2004, the biennial strategic plan, jointly prepared by the three agencies, and including specific strategies, measures, timeframes for program improvement, and a methodology for program evaluation, shall be submitted to the Legislative Budget Board and the Governor. With regards to appropriations for Project RIO, while total project funds are appropriated to the Texas Workforce Commission, interagency contracts are to be maintained during the 2004–05 biennium with the Texas Youth Commission at no less than the level maintained as of August 31, 2003.
- 16. **Training for GED and Reading Skills.** It is the intent of the Legislature that the Texas Youth Commission, to the extent possible, use funds appropriated above in Strategy B.1.1, Education and Workforce Programs, to prioritize reading at grade level and preparation for the GED in its educational program. A report containing statistical information regarding student performance on the Test of Adult Basic Education (TABE) shall be submitted to the Legislative Budget Board and the Governor on or before December 1, 2004.
- 17. Salary Adjustment Authorized. Notwithstanding other provisions of this Act, the Texas Youth Commission is authorized to adjust salaries of Juvenile Correctional Officers I, Juvenile Correctional Officers II, Juvenile Correctional Officers IV, Juvenile Correctional Officers V, and Juvenile Correctional Officers VI to rates within the designated salary group for the purpose of recruiting, employing and retaining career juvenile correctional personnel. Merit raises are prohibited for all Juvenile Correctional Officers who are receiving or are eligible to receive step adjustments in the career ladder system.
- 18. **Human Resources Management Plan.** From funds appropriated above, the Texas Youth Commission shall develop a Human Resources Management Plan designed to improve employee morale and retention. The plan must focus on reducing employee turnover through better management. The Texas Youth Commission shall report, by October 1 of each year of the biennium, to the Legislative Budget Board and the Governor the employee turnover rate, by job category, at the agency during the preceding fiscal year. The effectiveness of an agency's plan shall be measured by whether or not there is a reduction in annual employee turnover rates at the agency, specifically by the reduction in the turnover rates for juvenile correctional officers.
- 19. **Psychiatric Services Study.** It is the intent of the Legislature that the Youth Commission shall use a portion of the funds appropriated above to study and make recommendations for possible

(Continued)

cost saving methods related to the current psychiatric services system operated by the Youth Commission. The recommendations at a minimum shall address the increase in psychiatric services costs and possible cost savings methods, including the use of a standard capitation rate incorporated into the current University of Texas Medical Branch at Galveston (UTMB) and Texas Tech University Health Sciences Center (TTUHSC) managed care contracts. The Youth Commission shall submit a report on the recommendations to the Governor and the Legislative Budget Board no later than January 1, 2004.

20. Unexpended Balances. Unobligated balances (estimated to be \$8,985,387 in General Obligation Bonds and included in the amounts appropriated above) as of August 31, 2003, in appropriations made by Senate Bill 1, Acts of the Seventy-seventh Legislature, Regular Session, 2001, as identified in Article V, § 1, Capital Budget, and House Bill 1, Acts of the Seventy-sixth Legislature, Regular Session, 1999, as identified in Article V, § 1, Capital Budget, are appropriated for the identical purposes for the biennium beginning September 1, 2003.

# SPECIAL PROVISIONS RELATING TO PUBLIC SAFETY AND CRIMINAL JUSTICE AGENCIES

- Sec. 2. Authorization to Receive, Administer, and Disburse Federal Crime Funds. Out of funds appropriated above, the Texas Department of Criminal Justice, the Texas Juvenile Probation Commission, and the Texas Youth Commission, may allocate matching funds in order to secure federal grants for the construction, expansion, renovation, and operation of correctional facilities and services, as authorized by federal legislation. These agencies are authorized to receive and disburse, in accordance with plans acceptable to the responsible federal agency, all federal monies that are made available to the state for programs, projects, or services that otherwise could not be funded or undertaken without the receipt of such funding. Such federal funds are hereby appropriated to the specific purpose or purposes for which they are granted or otherwise made available. At least 14 days prior to any expenditure of such federal funds, documentation of the proposed use of the funds shall be provided to the Legislative Budget Board and the Governor.
- Sec. 3. **Purchase of TDCJ Products**. It is the intent of the Legislature that state public safety and criminal justice agencies use products produced by the Texas Department of Criminal Justice to the greatest extent possible when either renovating existing facilities or constructing new facilities.
- Sec. 4. **Prioritization of DNA Samples**. It is the intent of the Legislature that the Texas Department of Criminal Justice (TDCJ) prioritize the drawing of blood samples from inmates for the purpose of having these samples processed for DNA information needed for entry into the Department of Public Safety's (DPS) DNA database. The factors to be weighed by TDCJ shall include the severity of the offense, and the proximity to the time of release for the offender. It is also the intent of the Legislature that DPS prioritize any samples received prior to this Act taking effect with assistance from TDCJ using the above mentioned factors. At any time, DPS may request that TDCJ prioritize any particular sample for drawing and shipping to DPS, if DPS has information to the effect that the sample may provide evidence vital to a criminal investigation or judicial proceeding.

- 2. Contingency Cash Flow. If the Legislative Budget Board and Governor determine after review of relevant information that cash flow difficulties will occur as a result of the appropriations made above, the board and Governor may authorize the Texas Commission on Environmental Quality (TCEQ) to temporarily expend general revenue funds for the purpose of meeting the temporary cash flow needs of the TCEQ, limited to the amounts appropriated above. The transfer of funds shall be repaid to the General Revenue Fund by the end of the fiscal year in which the funds were transferred under procedures and standards established by the Comptroller of Public Accounts.
- 3. **Authorization: Aircraft Chartering.** Notwithstanding any other provision of this Act, the Texas Commission on Environmental Quality is authorized to spend appropriated funds for the chartering of aircraft for the purposes of monitoring environmental quality, and the enforcement of environmental and water rights laws of the State.
- 4. **Waste Facility Application Fees.** Amounts appropriated above, out of the Waste Management Account No. 549, include and shall not exceed \$75,000 in each fiscal year of the biennium from permit application fees assessed by the agency for industrial solid waste and hazardous waste facilities as authorized by Health and Safety Code, § 361.137.
- 5. Local Air Pollution Grants Allocation. Out of the amounts appropriated above out of the Clean Air Account No. 151 in Strategy A.1.4, Air Quality Assessment and Planning, an amount not less than \$2,800,000 in each year of the biennium shall be utilized to fund grants or cooperative agreements with eligible local air pollution programs under Health and Safety Code, § 382.0622. It is provided, however, that the combined federal and state share of the funding for any such local air pollution programs shall not exceed 67 percent of the total allocation to the programs, with the local share being based on the local dollars allocated pursuant to maintenance-of-effort requirements for federal air pollution grants.
- 6. Fee Revenue: Pollution Control Equipment Exemptions. Pursuant to Tax Code, § 11.31, included in amounts appropriated above out of the General Revenue Fund in Strategy A.1.7, Pollution Prevention and Recycling, is \$133,600 each fiscal year from fee revenue collected beginning with the effective date of this Act for the purpose of determining whether pollution control equipment is exempt from taxation.
  - In addition to amounts appropriated above, any amounts collected by the Texas Commission on Environmental Quality pursuant to Tax Code, § 11.31 on or after September 1, 2003, in excess of \$133,600 in each fiscal year of the biennium are hereby appropriated to the agency.
- 7. Authorization: Operating Fund. The Texas Commission on Environmental Quality (TCEQ) is hereby authorized to make transfers from any appropriation made to TCEQ into a single account in the General Revenue Fund known as the "Texas Commission on Environmental Quality Operating Fund" for the purpose of making expenditures for which appropriations were made in this Act. After the expenditures have been made from the fund and as soon as the proper strategies have been identified, TCEQ shall process adjustments to the Comptroller in summary accounts to facilitate accurate cost allocations; provided, however, that each special account and fund shall be used for the purposes as now described by law and nothing shall be done to jeopardize or divert the special accounts and funds or any portion thereof including federal aid.
- 8. **Appropriation:** Near Non-Attainment Area Air Quality Planning. Included in amounts appropriated above out of the Clean Air Account No. 151 in Strategy A.1.4, Air Quality Assessment and Planning, is \$5,075,000 for the biennium for air quality planning activities in areas considered to be near non-attainment for the ozone standard under the Federal Clean Air Act Amendments of 1990, which include Austin, Corpus Christi, Longview-Tyler-Marshall, San Antonio, and Victoria, and may include additional areas as designated by the US

(Continued)

Environmental Protection Agency. These activities may include identifying, inventorying, and monitoring of current pollution levels; modeling future pollution levels; and the identification and quantification of potential pollution reduction through voluntary controls. The areas receiving funds shall coordinate with the Texas Commission on Environmental Quality (TCEQ) to ensure that these activities are consistent with agency monitoring, inventory and modeling approaches and infrastructure.

Any unexpended balances from this appropriation as of August 31, 2004, are hereby appropriated for the same purpose for the fiscal year beginning September 1, 2004.

For cash flow purposes, the TCEQ may utilize General Revenue Funds in an amount not to exceed \$2 million for the 2004–05 biennium, pending repayment through receipts and balances to the Clean Air Account No. 151. The General Revenue amounts shall be utilized to conduct air quality planning activities in areas considered to be near non-attainment for the ozone standard. Any unencumbered balances remaining in the Clean air Account No. 151 on August 31, 2005, shall be used to repay amounts transferred from the General Revenue Fund. Any transfers or repayments shall be made in accordance with procedures established by the Comptroller.

- 9. Appropriations Limited to Revenue Collections: Occupational Licensing. It is the intent of the Legislature that fees, fines and other miscellaneous revenues deposited to the Occupational Licensing Account No. 468 as authorized and generated by the agency cover, at a minimum, the cost of the appropriations made above for strategy item B.1.3, Occupational Licensing, as well as the "Other direct and indirect costs" associated with this strategy, appropriated elsewhere in this Act. "Other direct and indirect costs" for strategy item B.1.3, Occupational Licensing, are estimated to be \$449,985 for fiscal year 2004 and \$449,568 for fiscal year 2005. In the event that actual and/or projected revenue collections are insufficient to offset the costs identified by this provision, the Legislative Budget Board may direct that the Comptroller of Public Accounts reduce the appropriation authority provided above to be within the amount of revenue expected to be available.
- 10. Contract with the State Office of Administrative Hearings. Included in the amounts appropriated above is \$938,860 in fiscal year 2004 and \$938,860 in fiscal year 2005 to cover the cost of contracting with the State Office of Administrative Hearings for funding the Natural Resources Division for the purpose of conducting administrative hearings and for related expenses. The Texas Commission on Environmental Quality (TCEQ) and the State Office of Administrative Hearings may not enter into a contract for an amount less than the amounts specified herein. If the State Office of Administrative Hearings determines, at the end of each fiscal year, that the amount paid under the contract exceeds the necessary funding, it shall refund the difference to TCEQ. If the State Office of Administrative Hearings determines that the amounts are insufficient to fund the Natural Resources Division, the State Office of Administrative Hearings may enter into negotiations with TCEQ in order to renegotiate the interagency contract to provide additional funds for administrative hearings. The State Office of Administrative Hearings is not appropriated any state funds from such renegotiated contracts until it gives written notice to the Legislative Budget Board and the Governor, together with written permission of the agency.
- 11. **Agency Coordination**. The Texas Department of Transportation and the Texas Commission on Environmental Quality shall coordinate their efforts on the acquisition and potential uses of crumb rubber and shredded tire pieces in the various phases of highway construction. The Texas Department of Transportation and the TCEQ shall provide to the appropriate Legislative Committees a report on their progress by January 1 of each fiscal year.
- 12. **Petroleum Storage Tank Administration**. Out of funds appropriated above in Strategy C.1.1, Storage Tank Administration and Cleanup, not more than \$11,535,642 in fiscal year 2004 and

(Continued)

not more than \$9,996,028 in fiscal year 2005 in gross receipts to the Petroleum Storage Tank Remediation (PSTR) Account No. 655 may be transferred to the Waste Management Account No. 549 for necessary expenses associated with the PSTR Account and the groundwater protection cleanup program, in accordance with Water Code, § 26.3573 (d)-(e). Furthermore, the Texas Commission on Environmental Quality (TCEQ) shall not transfer funds, from the PSTR Account No. 655 from Strategy C.1.1, Storage Tank Administration and Cleanup, to any other strategy.

For the purposes of implementing activities supported in Strategy C.1.1, Storage Tank Administration and Cleanup, the TCEQ is exempt from provisions of Article IX relating to the inclusion of temporary or contract workers in the calculation of the number of Full-Time Equivalent (FTE) positions by a state agency.

- 13. **Certification of Section 404 Permits.** Except for the review of a federal permit or license by the state that is required in order to maintain delegation of a federal program or to comply with a requirement of federal law, none of the funds appropriated above may be expended by the commission for the purpose of certification of a federal permit issued by the US Army Corps of Engineers under § 404 of the Federal Clean Water Act.
- 14. **Texas Parks and Wildlife Environmental Special Investigations Unit.** Included in amounts appropriated above in Strategy B.1.2, Enforcement and Compliance Support, is \$250,000 out of Waste Management Account No. 549 for each fiscal year of the biennium for the purpose of supporting the Texas Parks and Wildlife Department's Environmental Special Investigations Unit to enforce state and federal laws on illegal dumping. This appropriation is contingent on a memorandum of understanding and an interagency transfer of the funds between the Texas Parks and Wildlife Department and the Texas Commission on Environmental Quality to jointly administer the program. Any unexpended balance of this appropriation from fiscal year 2004 is appropriated for the same purpose for fiscal year 2005.
- 15. Air Pollution/Haze Study. Out of amounts appropriated above, the Texas Commission on Environmental Quality shall conduct a study of the air pollution/haze problem along the Texas/Mexico border, with particular emphasis on the air pollution/haze in Big Bend National Park. The study should include the causes of pollution/haze, the effects of such pollution/haze, as well as any potential short-term and long-term remedies. The study should be concluded and the commission shall begin implementation of the study prior to January 1, 2005.
- 16. Federal Funds and Capital Budget Expenditures. - 1. Appropriations Limited to Revenue Collections. It is the intent of the Legislature that fees collected from the sale of Texas Aerospace Commission license plates as authorized by Transportation Code § 502.271, and generated by the agency, cover \$35,000 of the cost of the General Revenue appropriations made above for the strategy items in Goal A., Expand Aerospace Industry. In the event that actual and/or projected revenue collections are insufficient to offset the costs identified by this provision, the Legislative Budget Board may direct that the Comptroller of Public Accounts reduce the appropriation authority provided above to be within the amount of revenue expected to be available. All license plate fees deposited in excess of \$35,000 per year are hereby appropriated for the 2004–05 biennium for the economic development of the aerospace industry consistent with the provision of Government Code § 482.003.
- 2. Coordination of Spaceport Initiatives. It is the intent of the Legislature that the Texas Aerospace Commission, the Texas Department of Economic Development, and the Texas Department of Transportation, or their successor agencies, coordinate efforts and spending related to developing a reusable launch facility or Spaceport. These agencies shall maintain and adhere to a memorandum of understanding that is established January 1, 2004, that details the specific responsibilities of each agency and continues to provide interagency coordination and support to achieve the objective of establishing a Spaceport and developing Texas' low cost launch capabilities.

Should federal economic development block grant funds be available, \$975,000 of such funds shall be used by the Texas Aerospace Commission or its successor agencies for the purpose of awarding grants or assisting with other proposal development costs to selected local Texas communities which may compete for the location of such a facility. A portion of certain geographically dedicated funds provided for economic development under the community development block grant program shall be used to proportionately reduce the amount of Spaceport funding provided to any site, if such funds are available and eligible for that purpose. Expenditure of these funds is conditioned upon the participation by the Comptroller of Public Accounts in the development of guidelines for the grant application process and contract awards as a means of assuring that all applicable state procurement laws and other processes are followed. The Comptroller shall provide assistance in the final grant or contract review and recommendation process and shall recommend other participants as may be required. All such grants or contracts shall be subject to approval by the Comptroller and awarded based upon individual site progress toward Spaceport development as determined by the Texas Aerospace Commission or its successor agencies, and the Comptroller.

3. **Sunset Contingency.** Funds appropriated above for fiscal year 2005 for the Texas Aerospace Commission are made contingent on the continuation of the Texas Aerospace Commission by the Seventy-eighth Legislature. - 2. **Reporting Requirements.** Within 90 days following the conclusion of a contract issued by the Department of Housing and Community Affairs or, at the option of the contracting party, within 90 days following the conclusion of the contracting party's fiscal year during which a contract was in force, the contracting party shall provide to the Executive Director a full accounting of state funds expended under the terms of the contract. This requirement shall be a part of any contract entered into by the department and contracting entities. Failure of a contracting party to provide full accounting of state funds expended under the terms of any contract under the conditions stated above shall be sufficient reason to terminate that contract and for the department to deny any future contracts to that contracting party.
- 3. **Housing Assistance**. The housing finance division shall adopt an annual goal to apply no less than \$30,000,000 of the division's total housing funds toward housing assistance for individuals and families in which the annual family income does not exceed the following amounts based on the number of persons in the family:

Maximum Annual Income
\$13,000
\$16,000
\$17,000
\$19,000
\$21,000

For each additional person add \$1,500. No less than 20 percent of the division's total housing funds shall be spent for individuals and families earning between 31 percent and 60 percent of median family income. In those counties where the median family income is lower than the state average median family income, the department shall use the average state median income in interpreting this rider. The department shall provide a quarterly report to the Legislative Budget Board documenting its expenditures in each income category.

- 4. **Local Site Visits.** From monies appropriated above, when the Department of Housing and Community Affairs receives a letter from the mayor or county judge of an affected city or county opposing an application for a federal tax incentive to develop rental housing, a site visit by an employee of the Department of Housing and Community Affairs with the mayor or county judge or their designated representative shall take place within 30 days following notification. The site visit must occur before the incentive can be approved. The Department of Housing and Community Affairs is authorized to obtain reimbursement from the applicant for a federal tax incentive for necessary travel and expenses at a rate not to exceed the federally authorized rate.
- 5. **Low/Moderate Income Housing Construction.** Out of the funds appropriated above, not less than \$500,000 each year of the biennium shall be expended on low/moderate income housing construction in enterprise zone areas.
- 6. Low Income Assistance: Scoring Criteria. It is the intent of the Legislature that the department add to its contract award scoring criteria for the construction, acquisition, or rehabilitation of single and multi-family housing, and for the operation of multi-family housing, a system that gives increased points for comprehensive services to low-income citizens, such as case management, home-buyer assistance, and family budgeting. The department is also encouraged to develop a sliding scale fee schedule for the low-income tax credit program and the 501c(3) bond program to encourage increased participation by non-profit entities such as community development housing organizations.
- 7. **Limitation on Expenditure.** Under Strategy A.1.4, Federal Tax Credits, no funds shall be used for processing or approving applications for allocations unless the department adopts or amends administrative rules containing the following:
  - a. All representations made by an applicant for an allocation are enforceable by the department, including enforcement by administrative penalties for failure to perform as stated in the representations and enforcement by inclusion in deed restrictions to which the department is a party.
  - b. The department will require inspections of all construction for quality during the construction process while defects can reasonably be corrected.
  - c. A general contractor hired by an applicant or an applicant, if the applicant serves as general contractor, must demonstrate a history of constructing similar types of housing without the use of federal tax credits.
  - d. The department shall give notice of a proposed project to the state representative and senator representing the area where a project would be located. The state representative or senator may hold a community meeting at which the department shall provide appropriate representation.
  - e. The department shall allocate credits among as many different entities as practicable without diminishing the quality of the housing that is built.
- 8. **Appropriations Limited to Revenue Collections.** It is the intent of the Legislature that fees, fines, and other miscellaneous revenues as authorized and generated by the agency cover, at a minimum, the cost of the appropriations made above for the strategy items in Goal E, Manufactured Housing, the cost of the appropriations required for manufactured housing consumer claims payments according to the Occupations Code § 1201, Manufactured Housing Standards Act, as well as the "other direct and indirect costs" associated with this goal, appropriated elsewhere in this Act. "Other direct and indirect costs" for Goal E, Manufactured Housing, are estimated to be \$914,539 for fiscal year 2004 and \$978,830 for fiscal year 2005. In

(Continued)

the event that actual and/or projected revenue collections are insufficient to offset the costs identified by this provision, the Legislative Budget Board may direct that the Comptroller of Public Accounts reduce the appropriation authority provided above to be within the amount of revenue expected to be available.

- 9. Mortgage Revenue Bond Program. The Department of Housing and Community Affairs shall operate the First-Time Homebuyer Mortgage Revenue Bond Program in a manner that maximizes the creation of very low-income single family housing by ensuring that at least 30 percent of the lendable bond proceeds are set aside for a period of one year for individuals and families at 60 percent and below the area median family income (AMFI), while assuring the highest reasonable bond rating. In an effort to facilitate the origination of single family mortgage loans to individuals and families at 60 percent and below the AMFI, the department shall utilize down payment and closing cost assistance or other assistance methods.
- 10. **Conversions of Executory Contracts.** Out of the funds appropriated above, the department shall spend not less than \$4,000,000 for the biennium for the sole purpose of contract for deed conversions for families that reside in a colonia and earn 60 percent or less of the applicable area median family income. It is the intent of the Legislature that the department complete at least 400 contract for deed conversions by August 31, 2005.
- 11. **Colonia Annual Assessment**. The department shall collect information on the demand for contract for deed conversion, self-help housing, consumer education, and other colonia resident services in counties within 150 miles of the Texas-Mexico border. The department shall include the assessment of colonias needs in its annual state low income housing plan and report listing policy goals for its colonia programs, the strategies to meet the goals, and the expected outcomes.
- 12. **Bond Refinancing.** The department shall transfer any funds acquired through refinancing of bonds to the Housing Trust Fund. The first \$3 million each fiscal year in savings from the refinancing of any bonds shall be used to fund mortgage loans under the Bootstrap Self-Help Housing Loan Program.
- 13. **Colonia Set-Aside Program Allocation**. The Office of Rural Community Affairs shall allocate 2.5 percent of the yearly allocation of Community Development Block Grant (CDBG) monies to support the operation of the Colonia Self-Help Centers and shall transfer such funds to the Department of Housing and Community Affairs on September 1 each year of the biennium.

Consistent with federal rules and regulations, the funds provided from ORCA to the Colonia Self-Help Center in El Paso county shall be used to provide Internet access and training for parents and their children attending elementary schools in Colonias, to establish Technology Centers within those elementary school libraries, to purchase wireless devices and laptop computers to loan out from the Technology Centers, and improve Internet access for students and parents.

In operating the Colonia Self-Help Centers, the Department of Housing and Community Affairs shall provide \$2.5 million each year except CDBG funds to fund the administration and operations of the Colonia Self-Help Centers.

- 14. Appropriation: Housing Trust Fund Interest Earnings and Loan Repayments. Interest earnings and loan repayments received from loans made through the Housing Trust Fund program from the General Revenue Fund are included above in Strategy A.1.1, Housing Trust Fund, estimated to be \$350,000 each year.
- 15. **Unexpended Balances, Grants, and Contracts**. Unexpended general revenue balances remaining in Strategy A.1.1, Housing Trust Fund, as of August 31, 2003, are included above in

(Continued)

the same strategy for the fiscal year beginning September 1, 2003 (estimated to be \$6,000,000). Any general revenue balances remaining in Strategy A.1.1, Housing Trust Fund, as of August 31, 2004, are appropriated to the same strategy beginning on September 1, 2004.

- 16. Emergency Nutrition and Temporary Relief Program (ENTERP). Out of the amounts appropriated above, \$342,860 in fiscal year 2004 and \$350,160 in fiscal year 2005 in Federal Funds shall be used for the Emergency Nutrition and Temporary Relief Program (ENTERP) to provide relief to needy low-income Texans if allowed under federal regulations.
- 17. **Sunset Contingency**. Funds appropriated above for fiscal year 2005 for the Department of Housing and Community Affairs are made contingent on the continuation of the Department of Housing and Community Affairs by the Seventy-eighth Legislature. In the event the agency is not continued, the funds appropriated for fiscal year 2004 or as much thereof as may be necessary are to be used to provide for the phaseout of agency operations.
- 18. Appropriation: Manufactured Homeowner Consumer Claims. Included above in Goal E, Manufactured Housing, the Manufactured Housing Division of the Department of Housing and Community Affairs is appropriated an amount, not to exceed \$100,000 per year for the biennium, required for the purpose of paying manufactured housing consumer claims according to the Occupations Code § 1201, Manufactured Housing Standards Act, from title transaction fees involving manufactured housing collected and deposited in the General Revenue Fund during the 2004–05 biennium.

Director of the Texas Lottery Commission shall transfer all pooled reserve fund revenues and balances that exceed \$5 million to the Foundation School Fund No. 193 quarterly.

- 7. Limitation: Out-of-Country, Out-of-State and In-State Travel. Notwithstanding any other provisions included in this Act, it is the intent of the Legislature that the Texas Lottery Commission shall not be allowed to travel out-of-country, with the exception of travel to Mexico or Canada which is reimbursable by a third party. In addition, the Texas Lottery Commission shall not exceed amounts expended on out-of-state or in-state travel, for each fiscal year of the biennium, by an amount equal to 80 percent of travel expenditure amounts for fiscal year 1998.
- 8. **Appropriation, Limited to Revenue Collections.** It is the intent of the Legislature that fees, fines, and other miscellaneous revenues as authorized and generated by the operation of charity bingo cover, at a minimum, the cost of the appropriations made above for the strategy items in Goal B, Enforce Bingo Laws, as well as the "other direct and indirect costs" associated with this goal, appropriated elsewhere in this Act. "Other direct and indirect costs" for Goal B, Enforce Bingo Laws, are estimated to be \$424,652 for fiscal year 2004 and \$429,274 for fiscal year 2005. In the event that actual and/or projected revenue collections are insufficient to offset the costs identified by this provision, the Legislative Budget Board may direct that the Comptroller of Public Accounts reduce the appropriation authority provided above to be within the amount of revenue expected to be available.
- 9. **Petty Cash Fund Authorized.** The Texas Lottery Commission is authorized to establish a petty cash fund to be used by Commission employees for the purchase of evidence and/or information and other expenses deemed necessary for agency security and enforcement activities, including audits and expenses, incurred by auditing. The petty cash fund, not to exceed \$1,500, may be maintained in cash or at a local bank and shall be subject to such rules and regulations as the executive director may recommend and the commission may adopt.
- 10. **Sunset Contingency**. Funds appropriated above for fiscal year 2005 for the Lottery Commission are made contingent on the continuation of the Lottery Commission by the Seventy-eighth Legislature. In the event that the agency is not continued, the funds appropriated for fiscal year 2004 or as much thereof as may be necessary are to be used to provide for the phase out of agency operations.
- 11. **Contingent Appropriation**. Out of the amounts appropriated above from General Revenue Dedicated Lottery Account No. 5025, \$7,700,049 in 2004 and \$10,469,703 in 2005 is contingent on Comptroller certification of increased lottery deposits to the Foundation School Fund Account of \$56,426,420 over \$840,401,000 in fiscal year 2004 and \$68,838,106 over \$781,544,000 in fiscal year 2005. The Lottery Commission, upon completion of necessary actions to increase such Lottery sales, shall furnish copies of the Lottery Commission's minutes and other information supporting the estimated increase in sales to be generated for the 2004-05 biennium under the revised lottery structure to the Comptroller of Public Accounts. If the Comptroller finds the information sufficient to support the projection of increased sales, a finding of fact to that effect shall be issued and the contingent appropriation shall be made available for the intended purposes.
- 12. **Local Bingo Prize Fees.** The amounts appropriated above in B.1.4. Strategy: Bingo Prize Fee Allocation & Accounting, include an estimated \$9,853,500 in 2004 and \$9,739,500 in 2005 from bingo prize fees collected pursuant to the Texas Occupations Code, Chapter 2001, § 2001.504, for allocation to counties and municipalities as required by the Texas Occupations Code, Chapter 2001, § 2001.503.

- 2. Reporting Requirements. Within 90 days following the conclusion of a contract issued by the Office of Rural Community Affairs (ORCA) or, at the option of the contracting party, within 90 days following the conclusion of the contracting party's fiscal year during which a contract was in force, the contracting party shall provide to the Executive Director a full accounting of state funds expended under the terms of the contract. This requirement shall be a part of any contract entered into by ORCA and contracting entities. Failure of a contracting party to provide full accounting of state funds expended under the terms of any contract under the conditions stated above shall be sufficient reason to terminate that contract and for ORCA to deny any future contracts to that contracting party.
- 3. Coordination with Texas Water Development Board. The Office of Rural Community Affairs (ORCA) and the Texas Water Development Board (TWDB) shall continue to coordinate funds as outlined in a Memorandum of Understanding (MOU) so as to assure that none of the funds appropriated above are expended in a manner that aids the proliferation of colonias or are otherwise used in a manner inconsistent with the intent of the Economically Distressed Areas Program (EDAP) operated by the Texas Water Development Board (TWDB); and maximize delivery of the funds and minimize administrative delay in their expenditure. The MOU shall be amended, if necessary, prior to the distribution of the Colonia Fund in fiscal years 2004 and 2005. In distributing funds out of the Colonia Fund, ORCA shall provide top funding priority to those projects that are in EDAP-funded areas and which assist colonia residents who cannot afford the cost of service lines, hook-ups, and plumbing improvements associated with being connected to an EDAP-funded system. None of the funds appropriated above for Strategy A.1.1, Provide Grants, may be expended in EDAP-eligible counties that have not adopted, or not enforcing, the Model Subdivision Rules established pursuant to § 16.343 of the Water Code. No later than September 15, 2004, ORCA and the TWDB shall submit a joint report to the Legislative Budget Board that describes and analyzes the effectiveness of projects funded as a result of coordinated Colonia Fund/EDAP efforts including an estimate of the amount each agency has saved by reduced duplication of efforts. If there is an insufficient number of TWDB EDAP projects ready for Colonia Economically Distressed Areas Program (CEDAP) connection funding within 12 months after ORCA receives the federal letter of credit, the CEDAP funds may be transferred at ORCA's discretion as stated within the current Community Development Block Grant action plan.
- 4. Administrative Allocation: Councils of Governments. From the federal administrative monies made available to the Office of Rural Community Affairs under the Community Development Block Grant Program, an amount up to 19 percent of such monies shall be allocated for the councils of government, based upon agreements between the Office of Rural Community Affairs and each council of government, to continue staff support to the 24 Regional Review Committees of local elected officials appointed by the Governor and/or for other technical assistance services so long as the staff support activities comply with the rules, policies, and standards established by the US Department of Housing and Urban Development.
- 5. Colonia Set-Aside Program Allocation. The Office of Rural Community Affairs (ORCA) shall continue the Community Development Block Grant (CDBG) Colonia Set-Aside Program by allocating not less than 10 percent of the yearly allocation of CDBG funds for eligible activities to assist in providing for the housing, planning, and infrastructure needs in colonias. From this 10 percent yearly allocation, \$2,000,000 shall be reserved to provide financial assistance to units of general local government located in economically distressed areas as defined by § 17.921, Water Code, to pay for residential service lines, hookups, and plumbing improvements associated with being connected to a water supply or sewer service system, any part of which is financed under the economically distressed areas program established under Subchapter J, Chapter 16, Water Code and Subchapter K, Chapter 17, Water Code. ORCA by rule shall provide that an application for assistance under the program hereby authorized may be submitted after construction of the water supply or sewer service system begins. ORCA shall approve or disapprove a timely application before construction of the water supply or sewer

service is completed in order to eliminate delay in connection once construction is completed. ORCA shall coordinate the application process with the Texas Water Development Board to avoid duplication of effort and the necessity for applicants to submit dual applications.

In addition, ORCA shall allocate 2.5 percent of the CDBG monies to support the operation of the Colonia Self-Help Centers and shall transfer such funds to the Department of Housing and Community Affairs on September 1 of each year of the biennium.

Consistent with federal rules and regulations, the funds provided from ORCA to the Colonia Self-Help Center in El Paso county shall be used to provide Internet access and training for parents and their children attending elementary schools in Colonias, to establish technology Centers within those elementary school libraries, to purchase wireless devices and laptop computers to loan out from the Technology Centers, and improve internet access for students and parents.

In operating the Colonia Self-Help Centers, the Department of Housing and Community Affairs shall provide the \$2.5 million each year except CDBG funds to fund the administration and operations of the Colonia Self-Help Centers.

## 6. Estimated Appropriation and Unexpended Balance.

- a. The estimated amounts appropriated above out of the Permanent Endowment Fund for Rural Communities Healthcare Investment Program, are out of the amounts available for distribution or investment returns of the funds. Amounts available for distribution or investment returns in excess of the amounts estimated above are also appropriated to the Office of Rural Community Affairs. In the event that amounts available for distribution or investment returns are less than the amounts estimated above, this Act may not be construed as appropriating funds to make up the difference. Any unexpended appropriations made above as of August 31, 2004, are hereby appropriated for the same purposes for fiscal year 2005.
- b. The estimated amounts appropriated above out of the Permanent Fund for Rural Health Facility Capital Improvement are out of the available earnings of the fund. Available earnings in excess of the amounts estimated above are appropriated to the Office of Rural Community Affairs. In the event that amounts available for distribution or investment returns are less than the amounts estimated above, this Act may not be construed as appropriating funds to make up the difference. Any unexpended appropriations made above as of August 31, 2004, are hereby appropriated for the same purposes for fiscal year 2005.

#### 7. Limitation on Use of Funds.

- a. State agencies that are appropriated funds from the receipts collected pursuant to the Comprehensive Tobacco Settlement Agreement and Release, including distributions from funds, shall submit a budget by November 1 of each year of the biennium to the Legislative Budget Board and the Governor. This budget shall describe the purposes and amounts for which such funds will be expended by the state agency. No funds described in this budget may be expended by the state agency or institution of higher education until the Legislative Budget Board and the Governor receive the budget.
- b. Authorized managers of permanent funds and endowments whose earnings are appropriated to the Office of Rural Community Affairs shall provide a copy of year end financial reports to the Legislative Budget Board and the Governor by November 1 of each year of the biennium. These reports should include, at a minimum, an income statement and balance sheet for each fund, and a summary of the investment return of the fund during the preceding fiscal year.

2. Appropriation: Federal Funds. All moneys granted to Texas by the federal government for the administration of the Texas Unemployment Compensation Act or which are now on deposit to the credit of any funds maintained by the comptroller for the Texas Workforce Commission (TWC), and any moneys received for the credit of such funds are hereby appropriated for the purposes authorized by the provisions of the Texas Unemployment Compensation Act and for the purposes for which such moneys were granted. TWC shall notify the Legislative Budget Board and Governor of any funds and associated staffing received above the amounts appropriated above for the biennium.

## 3. Section 903, Social Security Act Funds.

- a. Out of amounts credited to Texas' account in the Federal Unemployment Trust Fund under § 903 of the Social Security Act, there is included in the appropriation above \$4,960,503 in fiscal year 2004 and \$5,036,568 in fiscal year 2005 for withdrawal and use by the Texas Workforce Commission (TWC) for the administration of the Texas Unemployment Compensation Act and its Public Employment Offices and telecenters. Said funds may be used to provide necessary office facilities and automated equipment, to include the purchase of land and construction of buildings, and the construction of improvements on property owned by TWC, including the cost of repairs and alterations to such property and the purchase of computers and related peripheral equipment.
- b. Any amounts initially allocated by the federal government to TWC during fiscal year 2000, 2001, or 2002, except amounts transferred pursuant to Subsection 903(d), shall be used only to pay expenses incurred for the administration of the Texas Unemployment Compensation Act. These funds shall not be used by TWC for the payment of Unemployment Compensation benefits, or the administration of its Public Employment Offices.
- c. No part of any amounts based on an initial transfer from the federal government that occurred prior to fiscal year 2000 or after fiscal year 2002, herein appropriated out of amounts credited to Texas' account in the Federal Unemployment Trust Fund under § 903

(Continued)

of the Social Security Act, shall be expended after the close of the period covered by this act and any unused portion of such amounts shall, at such close, revert to Texas' said account in the Federal Unemployment Trust Fund. The amount obligated pursuant to this act shall not exceed at any time the amount by which (a) the aggregate of the amounts transferred to the account of this state pursuant to § 903 of the Social Security Act exceeds (b) the aggregate of the amounts obligated for administration and paid out for benefits and required by law to be charged against the amounts transferred to the account of this State.

- d. Should federal requirements concerning amounts made available under Section 903 of the Social Security Act change after passage of this Act, the appropriation made in this rider shall be subject to such conditions and limitations as required by the changed federal law.
- 4. Authorization: Sale of Agency-owned Buildings and Land. In order to ensure effective facility management in coordination with the local workforce development boards, the Texas Workforce Commission (TWC) is hereby authorized to sell agency-owned buildings and land. Any such sale must be based on a finding by the commission that no other economically viable alternative exists, and specifically that operation within agency-owned or leased buildings would not be feasible. Furthermore, in order to accommodate sudden and unexpected fluctuations in federal funding, TWC is hereby authorized to sell agency-owned buildings and land as it deems necessary. The authority granted in this provision is contingent upon the filing of a written notice with the Governor and the Legislative Budget Board at least 90 days prior to the planned date of sale and is subject to the disapproval of either office within 90 days after notification.
- 5. Payment of Unemployment Benefits State Agencies. It is the intent of the Legislature that the Texas Workforce Commission charge the Comptroller of Public Accounts only for unemployment benefits paid based on wages earned from agencies appropriated funds under the General Appropriations Act, and that agencies outside the General Appropriations Act be maintained as individual reimbursing employers. For the purposes of this rider, 'agency' includes a state agency as defined under § 2151.002, Government Code, which includes an institution of higher education (except a public junior college) as defined under § 61.003, Education Code.
- 6. **Federal Funds Appropriated.** The appropriations herein made may be used to match federal funds granted to the state for the payment of personal services, travel and other necessary expenses in connection with the administration and operation of a state program of public welfare services. The Texas Workforce Commission (TWC) is hereby authorized to receive and disburse in accordance with plans acceptable to the responsible federal agency, all federal moneys that are made available (including grants, allotments, and reimbursements) to the state and retain their character as federal funds for such purposes and all fees authorized by federal law, and to receive, administer, and disburse federal funds for federal programs in accordance with plans agreed upon by the TWC and the responsible federal agency, and such other activities as come under the authority of the TWC, and such moneys are appropriated to the specific purpose or purposes for which they are granted or otherwise made available. Earned federal funds are not considered to be federal funds for the purpose of this section.
- 7. **Reappropriation of Federal and Local Funds.** All funds received by the Texas Workforce Commission from counties, cities, federal agencies, and from any other local source during the 2004–05 biennium, and all balances from such sources as of August 31, 2003, are hereby appropriated for the biennium ending August 31, 2005, for the purpose of carrying out the provisions of this Act.
- 8. **Unexpended Balances for Child Care Funds.** It is the intent of the Legislature that any additional federal funds received as a result of current efforts to obtain child care funds, be used for child care. Except as otherwise provided, all unexpended and unobligated balances in the

(Continued)

area of child care remaining from appropriations for the first year of the biennium to the Texas Workforce Commission (TWC) are appropriated to the commission for the purpose of drawing down all available federal funds for child care. The TWC may transfer unexpended and unobligated balances of General Revenue appropriations to Strategy A.1.1, Child Care Services, in order to match available federal child care funds, which are appropriated to TWC. TWC is not subject to the requirements of the Additional Federals Funds rider in this agency's bill pattern for federal child care funds matched with available General Revenue, although TWC should notify the Legislative Budget Board and the Governor of the amounts of additional General Revenue used as match and the federal child care funds matched in each year of the 2004–05 biennium.

- 9. **Donated Purchase Agreements.** In order to maximize the availability of state matching funds for federal child care funds and to encourage local child care planning and match participation, the commission shall use donated purchase agreements and other funding mechanisms, to the extent allowed by federal law and regulations.
- 10. Maximization of Child Care and Development Funds. It is the intent of the Legislature that the Texas Workforce Commission cooperate with cities, non-profit organizations, the Texas Education Agency and local school districts to obtain local match necessary to maximize federal funds for child care. Necessary system and accounting system changes to effect this intent are authorized.
- 11. **Project RIO.** It is the intent of the Legislature that the Texas Workforce Commission (TWC), the Texas Department of Criminal Justice, and the Texas Youth Commission together enhance the effectiveness of Project RIO by improving cohesive program delivery among the three agencies. The agencies shall together develop and implement a biennial strategic plan for the implementation of a more cohesive and effective Project RIO program which will emphasize necessary skill development, rehabilitation and appropriate assessment of the offender prior to inmate release. Not later than March 1, 2004, the biennial strategic plan, jointly prepared by the three agencies, and including specific strategies, measures, timeframes for program improvement, and a methodology for program evaluation, shall be submitted to the Legislative Budget Board and the Governor. For performance measures included in the biennial strategic plan, TWC will set targets for local work force development boards and collect reports on actual performance. With regards to appropriations for Project RIO, while total project funds are appropriated to the Texas Workforce Commission, interagency contracts are to be maintained during the 2004-05 biennium with the Texas Department of Criminal Justice and the Texas Youth Commission at no less than the funding and performance levels maintained as of August 31, 2003.
- 12. **Earned Income Tax Credit Assistance**. Out of funds appropriated above, the Texas Workforce Commission shall assist recipients of Temporary Assistance for Needy Families who become employed, and other low-income workers who may qualify for the credit under federal income and other requirements, to apply for the federal Earned Income Tax Credit.
- 13. **Employment and Child Care Programs in Rural Areas**. It is the intent of the Legislature that the Texas Workforce Commission and local workforce development boards cost-effectively continue to expand the availability of employment and child care programs into rural areas.
- 14. **Continuing Education**. Recipients of child care service benefits who are 17 years of age or older with a high school diploma or GED and who wish to acquire an Associate Degree shall continue to be eligible for child care service benefits for a period not to exceed four years for an educational program if that program will prepare the recipient for a job in a high demand occupation with an upward career path as determined by a local workforce development board.

(Continued)

The local workforce development board may determine the duration of child care assistance for a recipient in an educational program based on that individual's progress toward completing the program.

- 15. **Priority for TANF Recipients**. To the extent allowed under federal law, the Texas Workforce Commission (TWC) and local workforce development boards shall give priority to recipients of Temporary Assistance for Needy Families (TANF) for training, employment services and child care funded by the Workforce Investment Act (WIA). TWC shall report annually to the Legislative Budget Board and the Governor expenditures used for TANF recipients, the number of TANF recipients served with WIA funds, and their outcomes.
- 16. **Job Training Courses**. It is the intent of the Legislature that the primary objective of job training courses offered by the Texas Workforce Commission and local workforce development boards is to prepare individuals for high-skill, high-wage jobs with health benefits that result in long-term employability. Whenever possible, strategies should focus on incorporating industry sectors and/or regional industry clusters in order to promote high quality jobs. While English as a Second Language (ESL) may provide additional benefit to trainees, it may not be substituted for job training classes.
- 17. **Core Measures Report.** The Texas Workforce Commission shall submit a quarterly report to the Legislative Budget Board and the Governor on agency performance on Core Measures prescribed by the Texas Council on Workforce and Economic Competitiveness. Each report shall be submitted with the agency's quarterly performance report and must be accompanied by supporting documentation as specified by the Legislative Budget Board and the Governor.
- 18. **Budget and Performance Report.** The Texas Workforce Commission shall submit a monthly report to the Legislative Budget Board and the Governor on budgeted, expended, and encumbered funds by strategy (and substrategy as appropriate) along with full-time equivalent and method of finance information. The report shall also include program performance information for performance measures included in this Act.
- 19. **Skills Development and Self-Sufficiency Fund Report.** The Texas Workforce Commission shall submit a quarterly report to the Legislative Budget Board and the Governor on contracts executed by the commission, expenditures, program participants, and closed contracts for each Skills Development Fund and Self-Sufficiency Fund contract. Each report shall be submitted with the agency's quarterly ABEST/USAS reconciliation and must be accompanied by supporting documentation as specified by the Legislative Budget Board and the Governor.
- 20. **Contracts for Purchase of Client Services.** No funds appropriated to the Texas Workforce Commission may be utilized for contracts for the purchase of program-related client services unless:
  - a. such contracts include clearly defined goals, outputs, and measurable outcomes which directly relate to program objectives;
  - b. such contracts include clearly defined sanctions or penalties for noncompliance with contract terms and conditions;
  - c. such contracts specify the accounting, reporting, and auditing requirements applicable to funds received under the contract;
  - d. the agency has implemented a formal program using a risk assessment methodology to monitor compliance with financial and performance requirements under the contract, including a determination of whether performance objectives have been achieved; and

(Continued)

- e. the agency has implemented a formal program to obtain and evaluate program costs information to ensure that all costs, including administrative costs, are reasonable to achieve program objectives.
- 21. **Additional Federal Funds.** No appropriation of federal funds in addition to the estimated amounts above may be expended by the Texas Workforce Commission (TWC) unless:
  - a. TWC files a finding of fact along with a written plan outlining the use and projected impact of the funds on performance measures with the Legislative Budget Board and the Governor and indicating that additional appropriations are required to maintain adequate levels of program performance; and,
  - b. neither the Legislative Budget Board nor the Governor issues a written disapproval within 15 days of the receipt of the finding of fact and the written plan, which should not prohibit the agency from responding in an emergency.
- 22. **Sunset Contingency**. Funds appropriated above for fiscal year 2005 for the Texas Workforce Commission are made contingent on the continuation of the agency by the Seventy-eighth Legislature. In the event that the agency is not continued, the funds appropriated for fiscal year 2004 or as much thereof as may be necessary are to be used to provide for the phase out of agency operations.
- 23. **Night and Weekend Shift Differential.** The Texas Workforce Commission is hereby authorized to pay an additional night shift salary differential not to exceed fifteen percent (15%) of the monthly pay rate to personnel who work the 3:00 p.m. to 11:00 p.m. shift or 11:00 p.m. to 7:00 a.m. shift, or their equivalents. A weekend shift differential not to exceed five percent (5%) of the monthly pay rate may be paid to persons who work weekend shifts. The evening or night shift salary differential may be paid in addition to the weekend shift salary differential for persons working weekend, evening, or night shifts.
- 24. **TANF Transfers to Title XX**. Out of the funds appropriated above in Strategy A.2.2, TANF Choices, the Texas Workforce Commission may request approval from the Legislative Budget Board and the Governor to transfer federal Temporary Assistance for Needy Families funds to the Social Services Block Grant to be used for transportation services to families residing in minimum service counties.
- 25. Work-at-Home Hearing Officers. It is provided that the Texas Workforce Commission is hereby authorized to grant compensatory time to hearing officers and reviewing attorneys for overtime work performed at the employee's personal residence and for work performed at the employees' personal residence on state skeleton holidays. Work performed under this authority shall be approved in advance by the Director of the Appeals Office and must be verified by automated records, which includes audiotapes, and computer and telephone logs. Compensatory time is only granted when corresponding additional work is assigned.
- 26. Contingency for Reduction of Transportation Services. Contingent upon the enactment of House Bill 2292, House Bill 3343, or similar legislation by the Seventy-eighth Legislature, Regular Session, authorizing the coordination of statewide public transportation, the Texas Workforce Commission shall enter into a memorandum of understanding with the Texas Department of Transportation for the provision of transportation services provided to clients of the TANF Choices and Food Stamp Employment and Training programs during the 2004-2005 biennium.

The amount of federal funds appropriated above in Strategy A.2.2, TANF Choices, is reduced by \$3,568,239 in fiscal year 2004 and \$3,570,798 in fiscal year 2005. The amount of General

The amounts shown below shall be expended only for the purposes shown and are not available for expenditure for other purposes. Amounts appropriated above and identified in this provision as appropriations either for "Lease payments to the Master Lease Purchase Program" or for items with an "(MLPP)" notation shall be expended only for the purpose of making lease-purchase payments to the Texas Public Finance Authority pursuant to the provisions of Government Code § 1232.103. Upon approval from the Legislative Budget Board, capital budgeted funds listed below under "Acquisition of Information resources hardware and/or software versus the purchase of information resources hardware and/or software, if determined by agency management to be in the best interest of the State of Texas.

- 2. **Interagency Contracts**. In executing interagency contracts with state agencies under its jurisdiction, the State Office of Administrative Hearings shall establish procedures which will allow agencies to establish a limitation on the aggregate billable amount for a fiscal year.
- 3. Renegotiation of Lump Sum Contract. Appropriations made above to Strategy A.1.1, Conduct Hearings, include \$938,860 in fiscal year 2004 and \$938,860 in fiscal year 2005 to fund the Natural Resources Division for the purpose of conducting hearings for the Texas Commission on Environmental Quality (TCEQ). The State Office of Administrative Hearings (SOAH) and TCEQ may not enter into a contract for an amount less than the specified amounts herein above. If SOAH determines, at the end of each fiscal year, that the amount paid under the contract exceeds the funding necessary for the Natural Resources Division, it shall refund the difference. If SOAH determines that these amounts are insufficient to fund the Natural Resources Division it may enter into negotiations with the TCEQ in order to renegotiate an interagency contract in a manner which will provide it with additional funds, provided that SOAH shall not be appropriated any state funds from such renegotiated interagency contract until it gives prior written notice to the Legislative Budget Board and the Governor, accompanied by written permission of the TCEQ.

- 4. **Benefit Collection**. Agencies that enter into contracts with the State Office of Administrative Hearings (SOAH), for the purpose of performing the hearings function, and make payments to SOAH from funding sources other than General Revenue, must reimburse SOAH for employee benefit costs for salaries and wages. These reimbursements to SOAH will then be paid to the General Revenue Fund in proportion to the source of funds from which the respective salary or wage is paid.
- 5. Contingency Appropriation for Expanded Jurisdiction. Contingent on the enactment of legislation by the Seventy-eighth Legislature transferring the hearings functions of other state agencies to the State Office of Administrative Hearings (SOAH), or otherwise expanding the jurisdiction of the office, SOAH is hereby authorized to expend funds transferred to the office from those agencies or funds appropriated for the purpose of handling the expanded jurisdiction, pursuant to provisions elsewhere in this Act. Appropriations authorized pursuant to this provision may be expended only to implement the transferred functions or expanded jurisdiction. All funds collected by SOAH as payment for, or reimbursement of, the office's costs of providing services to other state agencies or governmental entities, or others as directed by the Legislature, are appropriated to SOAH for its use during the biennium.
- 6. **Hearings Activity Report.** By May 1st and November 1st of each fiscal year, the State Office of Administrative Hearings (SOAH) shall submit to the Legislative Budget Board and the Governor a report detailing hearings activity conducted during the prior two fiscal year quarters. The report shall indicate, for each agency served, the person hours allocated to the agency's cases and the cost, both direct and indirect, of conducting the hearings. The report shall also indicate, for each agency served, the number of cases received, the number of cases disposed of, the number of administrative fine cases disposed of and the median number of days between the date a case is received by SOAH and the date the case is finally disposed of, during the reporting period.
- 7. Interagency Contract for Administrative Law Judge Training. Out of funds appropriated above, the State Office of Administrative Hearings shall enter into a contract in the amount of \$25,000 with the Texas Center for the Judiciary for training of Administrative Law Judges. Any amounts not expended as of August 31, 2004, are appropriated for the fiscal year beginning September 1, 2004.
- 8. **Billing Rate for Excess Workload**. Contingent on the referral of unanticipated levels of work by any agency for which the State Office of Administrative Hearings (SOAH) provided service during the 2002–03 biennium, SOAH is authorized to bill that agency at a rate of \$90 per hour for each hour of work performed during each fiscal year of the biennium that exceeds by ten percent that agency's annual base allowance (hours) for 2002-03. This rider applies only to agencies that have hearing costs paid through an appropriation of General Revenue to SOAH based upon hearing costs from previous fiscal years. The following agencies are not subject to this rider:
  - (1) Board of Public Accountancy
  - (2) Appraisal Certification and Licensing Board

- 10. Sunset Contingency. Funds appropriated above for fiscal year 2005 for the State Office of Administrative Hearings are made contingent on the continuation of the State Office of Administrative Hearings by the Seventy-eighth Legislature. In the event that the agency is not continued, the funds appropriated for fiscal year 2004 or as much thereof as may be necessary are to be used to provide for the phase out of agency operations.

#### 3. Contingency Appropriation: State Regulatory Response.

- a. Contingent upon a finding of fact by the Finance Commission that the number of exams required for the state-chartered commercial banking industry under the jurisdiction of the Department of Banking, determined either as a function of assets, number of institutions, or relative proportion of problem banks or problem bank assets in the state system, increases to a point where additional appropriations are required to maintain adequate regulation of the industry, the Department of Banking is hereby appropriated out of fee revenues collected by the department an amount not to exceed \$1,673,243 for fiscal year 2004 and \$1,673,243 for fiscal year 2005 and the "Number of Full-time Equivalent Positions (FTE)" figure indicated above is hereby increased by no more than 21.5 for fiscal year 2004 and 21.5 for fiscal year 2005.
- b. Contingent upon a reduction of federal regulatory resources applied to the Texas state-chartered commercial banking industry, determined as a function of assets, the Department of Banking is hereby appropriated out of fee revenues collected by the department an amount not to exceed \$2,677,189 for fiscal year 2004 and \$2,677,189 for fiscal year 2005 and the "Number of Full-time Equivalent Positions (FTE)" figure indicated above is hereby increased by no more than 35 for fiscal year 2004 and 35 for fiscal year 2005.
- c. Contingent upon an inability to maintain adequate supervision of the industry and an inability to meet its examination frequency performance measures by the Department of Banking due to reductions in the quality or quantity of its examination staff, resulting either from examiner turnover or an inability to recruit adequately qualified examiners because of salary levels, The Department of Banking is hereby appropriated out of fee revenues collected by the Department an amount not to exceed \$1,200,000 for fiscal year 2004 and \$1,200,000 for fiscal year 2005.
- d. - e. The appropriations in items 3(a) and 3(b) are also contingent upon the Department of Banking generating sufficient additional fee revenues to cover these contingency appropriations and related employee benefits, and providing such information as may be deemed necessary by the Comptroller of Public Accounts to issue a finding of fact that the increased revenues will be available to fund the increased appropriation. These increased revenues much exceed \$10,557,722 for fiscal year 2004 and \$10,509,905 for fiscal year 2005 (Object Code 3172) contained in the Comptroller of Public Accounts' Biennial Revenue Estimate.

- (c) For the fiscal year beginning September 1, 2004, the salary of a classified employee shall be converted to the applicable salary schedule for fiscal year 2005 in this Act at the same salary rate in the same salary group in which paid in August 2004.
- (d) There is no authority to grant salary increases as part of the conversion of employees to Salary Schedules A, B, and C, except in the cases of:

An employee hired by the State on or after September 1, 2003, including interagency transfers, must be paid at a salary rate that falls within the salary range of the applicable salary group.
- (f) Notwithstanding other provisions in this Act, the Department of Public Safety of the State of Texas may pay its employees classified as Corporal I, II, III, IV, or V, Traffic Law Enforcement, at rates that exceed the maximum rates designated in Salary Schedule C by up to \$600 per fiscal year.

# PART 4. EMPLOYMENT POLICIES AND PROVISIONS

- Sec. 4.01. **Method of Salary Payments**. All annual salaries appropriated by this Act are for full-time employment unless specifically designated as part-time. This section may not be construed to prevent the chief administrator of an agency from paying less than the maximum salary rate specified in this Act for a position, or the employment of a part-time employee to fill a regular position provided for in this Act, so long as the salary rate for such part-time employee is proportional to the regular rate for full-time employment.
- Sec. 4.02. **Exception Contracts Less Than 12 Months.** Facilities of the Texas Youth Commission in Article V or institutions of higher education or the schools for the blind or deaf in Article III of this Act that make contracts for less than a twelve-month period may pay salaries in equal monthly payments for the period of the contract.
- Sec. 4.03. **Matching Retirement and Certain Insurance**. In each instance in which an operating fund or account is created and named by statute, the responsible officials of the state may transfer into the operating fund or account sufficient moneys from treasury funds, local, institutional, or federal funds to pay proportionally the costs of matching state employees' retirement contributions and the state's share of Old Age and Survivors Insurance.

#### $Sec.\ 4.04.$ Per Diem of Board or Commission Members.

(a) As authorized by § 659.032, Government Code, the per diem of state board and commission members consists of:

# **EMPLOYMENT POLICIES AND PROVISIONS**

- (1) compensatory per diem, if specifically authorized by law, at \$30 per day;
- (2) reimbursement of actual expenses for meals and lodging not to exceed \$110 per day when traveling within this state and reimbursement of actual expenses for meals and lodging when traveling outside of this state in an amount not to exceed the rates specified for a state employee under this Act; and
- (3) reimbursement of transportation and incidental expenses at the rates specified in this Act for state employees.
- (b) If a law enacted after former Article 6813f, VTCS, (September 1, 1983), authorizes per diem for members of a particular state board or commission, but does not specify the amount of the per diem, then the amount of the per diem is the amount provided by Subsection (a).
- (c) The funds appropriated by this Act may not be expended to reimburse members of a state agency advisory committee for expenses associated with conducting committee business, including travel expenses, unless the expenditures for an advisory committee are within the limits provided by subsection (f) below, and are:
  - (1) specifically authorized by this Act; or
  - (2) approved by the Governor and the Legislative Budget Board subsequent to the effective date of this Act.
  - (3) For the purpose of this subsection, the term "advisory committee" has the meaning assigned by § 2110.001, Government Code.
  - (4) This subsection does not apply to an advisory committee established by the governing board of a retirement system trust fund.
  - (5) This subsection applies only to an advisory committee that is subject to Chapter 2110, Government Code.
- (d) An agency that has a "Schedule of Exempt Positions and Per Diem of Board (or Commission) Members" following the agency's appropriations may expend appropriations for board or commission member compensatory per diem in an amount not to exceed the amount specified in the schedule for each respective fiscal year.
- (e) A full time employee paid from funds appropriated by this Act may not be paid both a salary and compensatory per diem for concurrent service as a state employee and as a board or commission member.
- (f) Reimbursement of Advisory Committee Members
  - (1) Unless otherwise specifically provided for in this Act, and pursuant to Government Code, § 2110.004, total amounts expended in each fiscal year of the biennium for reimbursement of expenses for an advisory committee authorized to be reimbursed elsewhere in this Act by agencies and institutions, out of funds appropriated to those entities, may not exceed ninety percent (90%) of total expenditures for reimbursement of the same advisory committee by the agency or institution in fiscal year 2003, unless otherwise authorized in writing by the Legislative Budget Board and Governor.

# **EMPLOYMENT POLICIES AND PROVISIONS**

(Continued)

- (2) Unless otherwise provided for in this Act, to the maximum extent possible, agencies and institutions shall encourage the use of videoconferencing and teleconferencing and shall schedule meetings and locations to facilitate the travel of participants so that they may return the same day and reduce the need to reimburse members for overnight stays.
- Sec. 4.05. **Political Aid and Legislative Influence Prohibited.** The funds appropriated by this Act, regardless of source or character, may not be expended except in compliance with Chapter 556, Government Code.
- Sec. 4.06. **Limitations on Use of Appropriated Funds**. Funds appropriated by this Act, other than those appropriated to an institution of higher education, may be expended only for items set out in the expenditure classifications of the Comptroller's Manual of Accounts insofar that an agency expending the appropriated funds has existing statutory authority for making the expenditures and the expenditures are not otherwise limited or prohibited in this Act.

#### Sec. 4.07. Contract Workforce.

- (a) In this section, contract workers are defined as independent contractors, temporary workers supplied by staffing companies, contract company workers, and consultants.
- (b) No appropriated funds may be expended for payment of a contract workforce in which the contract is executed, amended, or renewed on or after September 1, 2003, until an agency or institution:
  - (1) develops and documents comprehensive policies and procedures for its contract workforce;
  - (2) examines and documents the legal and personnel issues related to the use of a contract workforce;
  - (3) conducts and documents a cost benefit analysis of its current contract workforce prior to hiring additional contract workers or amending or renewing existing contracts; and
  - (4) documents why and how the use of contract workers fit into agency staffing strategies, including consideration of agency mission, goals and objectives, existing and future employee skills needed, compensation costs, productivity, nature of services to be provided, and workload.

Agencies shall consult the *Best Practices and Guidelines for Effectively Using a Contract Workforce* (SAO Report No. 99-326) when planning for and implementing the requirements of this section.

- (c) No later than December 1 of each year of the biennium, an agency shall file with the Legislative Budget Board, the Governor, and the State Auditor a report on the agency's use of a contract workforce in the preceding fiscal year. The report shall be prepared according to a format prescribed by the State Auditor and shall include:
  - (1) a description of how the agency has complied with provisions of this rider; and

# **EMPLOYMENT POLICIES AND PROVISIONS**

(Continued)

- (2) an evaluation of the work performed by a contract workforce, including an assessment of whether work was completed on time, within budget, and according to contract specifications.
- (d) The State Auditor shall notify the Comptroller and the Legislative Audit Committee if an agency fails to comply with this section.
- (e) The State Auditor may require an agency to provide interim reports or additional information as necessary to ensure compliance with this section. The State Auditor may review each agency's report and follow up based on identified risks.

#### PART 5.

#### TRAVEL REGULATIONS

#### Sec. 5.01. Travel Definitions.

The definitions established by § 660.002, Government Code, apply to Part 5 of this Article, unless another meaning is clearly provided. In Part 5 of this Article:

- (1) "Council of governments" includes:
  - (A) a council of governments created under Chapter 391, Local Government Code;
  - (B) a regional planning commission created under Chapter 391, Local Government Code; or
  - (C) a regional planning agency created under Chapter 391, Local Government Code.
- (2) "State agency" includes the entities within the definition of § 660.002(19) Government Code, and also includes a council of governments, a local workforce development board, or a MHMR community center, that uses funds appropriated by this Act to pay for the transportation, meals, lodging, or other travel expenses of its employees.
- Sec. 5.02. **General Travel Provisions.** The funds appropriated by this Act to a state agency for the payment of transportation, meals, lodging, or incidental expenses is the maximum amount that may be expended by the agency. The funds appropriated by this Act may not be expended for those expenses unless the travel and the resulting requests for payment or reimbursement comply with the conditions and limitations in this Act, Chapter 660, Government Code, and the Comptroller's Rules.

# Sec. 5.03. Failure to Comply.

(a) If the State Auditor determines that the travel for which payment was made out of appropriated funds is not in compliance with Chapter 660, Government Code, the State Auditor shall so certify to the Comptroller. The Comptroller shall reduce the appropriation of the state agency that paid the travel expenses by an amount equal to the entire amount paid by the state agency for that individual for that travel occurrence.

(Continued)

(b) The Comptroller shall prepare an annual report indicating the appropriation reductions, by state agency, made pursuant to this section for the previous fiscal year. The Comptroller shall submit the report to the Legislative Budget Board not later than December 1.

#### Sec. 5.04. Transportation Expenses.

- (a) For a state employee's use of a personally owned or leased motor vehicle, the mileage reimbursement rate, for travel occurring during a fiscal year, equals the maximum fixed mileage allowance specified in the revenue rulings issued by the Internal Revenue Service under the federal income tax regulations as of August 1 preceding the start of the fiscal year. The mileage reimbursement rate may not be less than 25 cents per mile or more than 35 cents per mile. The Comptroller shall announce the mileage reimbursement rate for a fiscal year as soon as possible after August 1 of the preceding year.
- (b) The Comptroller working with the review of the Office of the State Auditor shall perform a biennial study of the actual expenses associated with a state employee's use of a personally owned or leased motor vehicle. The Comptroller shall report the results of the study to the Legislature before the end of each even-numbered fiscal year. The study must report expense information in a manner useful to the Legislature for the establishment of the mileage reimbursement rates provided by Subsection (a) of this section.

#### Sec. 5.05. Transportation in Personally Owned or Leased Aircraft.

- (a) The rate of reimbursement to be paid to a key official, member of a board, commission, or a member of the Legislature for travel in the person's personally owned or leased aircraft, either within or without the boundaries of this state, is:
  - (1) 40 cents per highway mile when traveling in single-engine aircraft;
  - (2) 55 cents per highway mile when traveling in twin-engine aircraft; and
  - (3) one dollar per highway mile when traveling in turbine-powered or other aircraft.
- (b) The rate of reimbursement for a state employee when the employee travels in the employee's personally owned or leased aircraft, either within or without the boundaries of this state, is:
  - (1) 40 cents per highway mile when traveling in single-engine aircraft; or
  - (2) 55 cents per highway mile when traveling in twin-engine, turbine-powered, or other aircraft.

#### Sec. 5.06. Travel Meals and Lodging Expenses.

- (a) A state employee who travels within this state shall be reimbursed for the actual cost of lodging and meals. However, the reimbursements may not exceed \$80 per day per location for lodging and \$30 per day for meals.
- (b) At the discretion of each chief administrator of a state agency, a state employee whose duties require the employee to travel outside the employee's designated headquarters without an overnight stay away from the employee's headquarters may be reimbursed for the actual cost of the employee's meals not to exceed \$25 per day.

(Continued)

- (c) A state employee who travels outside of this state but within the continental United States shall be reimbursed for the employee's actual expenses for lodging and meals. However, the reimbursement may not exceed the maximum out-of-state meals and lodging rates, based on the federal travel regulations, issued by the Comptroller unless the Comptroller determines, in advance of travel, that local conditions necessitate a change in the lodging rate for a particular location. If an employee travels to a location where an allowance has not been set by the Comptroller, the Comptroller shall establish a rate for that location.
- (d) A state employee may receive reimbursements for the employee's actual expenses for meals and lodging when traveling outside the continental United States.
- (e) A state agency or institution may reimburse a state employee for a meal expense the employee incurs while traveling outside the employee's designated headquarters for less than six consecutive hours if the reimbursement:
  - (1) receives the written approval by the chief administrator of the state agency or institution;
  - (2) meets the rules adopted by the Comptroller regarding reimbursement for traveling outside the employee's designated headquarters for less than six consecutive hours; and
  - (3) complies with § 660.206, Government Code.
- Sec. 5.07. **Special Provisions Regarding Travel Expenses**. Reimbursement for meals and lodging as authorized by Subchapter H, Chapter 660, Government Code, on an "actual expenses" or "actual amount of" basis may not exceed twice the maximum rates specified in § 5.06 of this Article.

#### Sec. 5.08. Aircraft.

- (a) Notwithstanding any other provision of this Act, the purchase of aircraft may not be made from appropriated funds except as authorized in this section.
- (b) Agencies authorized to expend appropriated funds for the maintenance and operation of state-owned aircraft or replacements authorized by Subsection (d) are:
  - (1) Texas A&M University System;
  - (2) Texas Department of Criminal Justice;
  - (3) Texas Department of Transportation;
  - (4) Parks and Wildlife Department;
  - (5) Department of Public Safety of the State of Texas;
  - (6) University of Texas System;
  - (7) Texas State Technical College;
  - (8) Texas Forest Service; and
  - (9) State Aircraft Pooling Board.
- (c) Notwithstanding any other provision of this Act, all state-owned aircraft (including aircraft forfeited to or seized by a particular agency) are subject to the authority of the State Aircraft Pooling Board under Chapter 2205, Government Code.

(Continued)

- (d) Expenditure of appropriated funds for replacement of aircraft with aircraft of comparable quality may be made contingent upon approval of the State Aircraft Pooling Board and a finding of fact by the Governor that a report has been filed with the Governor showing that:
  - (1) the aircraft to be replaced has been destroyed or has deteriorated to an extent that continued operation presents a serious hazard or that the aircraft to be replaced can no longer meet the mission requirements of the principal user state agency; and
  - (2) other state-owned aircraft cannot be effectively utilized in lieu of a replacement aircraft
- (e) Expenditures necessary to purchase liability insurance pursuant to § 2205.045(a), Government Code, shall be made on a pro rata basis, as determined by the State Aircraft Pooling Board, from appropriations authorized to each agency operating a state-owned aircraft. The Comptroller shall transfer such necessary amounts from agencies operating aircraft to the State Aircraft Pooling Board for the purchase of liability insurance and expenditure of such funds by the Board is hereby authorized.
- (f) Any reimbursements received by a state agency for authorized aircraft services rendered to another state agency are hereby appropriated to the agency receiving the reimbursements, and shall be credited to the agency's appropriation item from which the cost of aircraft operation is paid.

# Sec. 5.09. Limitation on Travel Expenditures.

- (a) In this section "travel" refers only to travel outside the state of Texas, except as set forth in subsection (k) of this section.
- (b) (1) None of the funds appropriated by this Act may be expended, without the prior approval of the Legislative Budget Board, for travel purposes if such expenditure would cause the agency's or institution's travel expenditures for that fiscal year to exceed an amount equal to 100 percent of that agency's or institution's fiscal year 2000 amount of travel expenditures including any excess travel expenditure amounts approved by waiver.
  - (2) The general limitations provided by this subsection apply in addition to the limits of any additional agency specific limitation.
  - (3) In the event that a state agency or institution had, as determined by the Comptroller, no expenditures for travel outside the state of Texas during fiscal year 2000, the general limitations provided by subsection (b)(1) shall not apply, but out-of-state travel spending may not exceed in either year of the biennium the amount spent for that purpose in the last state fiscal year in which out-of-state travel occurred.
- (c) The Legislative Budget Board may consider requests from agencies which demonstrate circumstances which would make such reductions in actual travel impractical or inefficient in accomplishing the goals and strategies contained in their appropriations pattern. Such circumstances may include: new or expanded programs, law enforcement, tax collection activities, statutorily mandated travel, or other pressing public purposes.
- (d) The Comptroller shall prescribe accounting procedures and reporting requirements to administer this section and to ensure that expenditures for travel by all state agencies and institutions of higher education are properly reported and monitored.

- (e) (1) Upon notification by the Comptroller that a state agency or institution of higher education has exceeded the travel cap limit as specified in Subsection (b) of this Section for two consecutive fiscal years without the written approval of the Legislative Budget Board, the state agency or institution of higher education may not pay or reimburse with funds appropriated by this Act, a travel expense for travel to conventions, conferences, or seminars except as provided by this Subsection (e).
  - (2) The Comptroller may allow a state agency or institution of higher education to reimburse or pay a travel expense incurred by an employee on or after the date the agency or institution receives notice of its exceeding the limits if:
    - (A) the expense is incurred while the employee is returning to the employee's designated headquarters;
    - (B) the reimbursement or payment is necessary to prevent unreasonable hardship to the employee; or
    - (C) the expense is incurred while the employee is completing official state business that the agency or institution deems critical to fulfillment of the agency's or institution's constitutional or statutory duties.
  - (3) The Comptroller shall notify the Legislative Budget Board if the Comptroller allows such a payment or reimbursement. The notification must include the reason that the payment or reimbursement is allowed. The Legislative Budget Board may then direct the Comptroller to reduce the agency's or institution's appropriation by the amount of the payment or reimbursement if in the Legislative Budget Board's opinion the payment was the result of an agency failing to comply with the notification by the Comptroller.
- (f) All documents filed by an appointed officer under this section are public information. In this section, the term "public information" has the meaning provided by Chapter 552, Government Code.
- (g) In this section "appointed officer" includes all persons included under the definition provided by Chapter 572, Government Code, except that for the purposes of the definition of "appointed officer," the term "state agency" also includes a council of governments, a local workforce development board, or a mental health mental retardation community center that uses funds appropriated by this Act to pay for the transportation, meals, lodging, or other travel expenses of its employees or officials. For the purpose of this provision, the term "council of governments" shall include a council of governments, a regional planning commission, or similar regional planning agency created under Chapter 391, Local Government Code.
- (h) An appointed officer may not receive reimbursement from funds appropriated by this Act for expenses related to travel before filing with the Texas Ethics Commission copies of all documents that will be submitted to the Comptroller and Legislative Budget Board in support of the travel expense claim.
- (i) Funds appropriated by this Act may not be used to pay expenses for a trip to foreign countries, except for Canada or Mexico, unless the board or commission of each state agency and institution of higher education has approved the travel before departure. A copy

(Continued)

of the approval must be attached to each travel voucher submitted to the Comptroller. By October 1 of each year, each agency and institution of higher education must submit a report on all foreign travel with required approvals to the Governor and the Legislative Budget Board.

- (j) In implementing this rider, state agencies shall review their travel policies in order to ensure that travel which is critical to the delivery of services consistent with the mission of the agency is not affected.
- (k) Travel expenses incurred within the Washington, D.C. area by the Office of State-Federal Relations (OSFR) and by state agencies and institutions of higher education that are represented by their employees in the Washington, D.C. office of OSFR shall be considered in-state travel for the purpose of calculating the agencies' compliance with out-of-state travel limitation provisions.

#### PART 6. GENERAL LIMITATIONS ON EXPENDITURES

Sec. 6.01. Definitions.

In this Act:

- (a) "Earned federal funds" means all moneys received in connection with each entitlement period of a federally funded contract, grant, or program, excluding reimbursements under § 8.02(c), which are not required by the governing agreement to be disbursed thereon. Typically, earned federal funds arise from recoveries of costs previously paid from a nonfederal fund source, indirect cost allocations, interest earned on federal funds, and minor sources such as the sale of fixed assets purchased with federal funds. Except for state agencies of higher education and their affiliated agencies, the expenditure of funds received or earned by a state agency is limited to the appropriation authority granted to the agency. Any such excess funds remaining at the end of the 2002–03 biennium for an agency shall be returned to the General Revenue Fund. A state agency or institution participating in federally funded or other programs, where indirect cost reimbursements are an allowable part of charges to the program, shall establish procedures to maximize the recovery of such costs.
- (b) "Unexpended balance" or the abbreviation "UB" means the unobligated balance remaining in an appropriation, i.e., only that part of an appropriation, if any, that has not been set apart by the incurring of an obligation, commitment, or indebtedness by the state agency authorized to spend the appropriation. A reference in this Act to "unexpended balance" or "UB" is a reference to the unobligated balance of an amount appropriated by this Act for the fiscal year ending August 31, 2004, unless another meaning is clearly indicated.
- Sec. 6.02. **Interpretation of Estimates**. In the event the amounts of federal funds, local funds, or funds other than appropriations from the General Revenue Fund, have been estimated in this Act in sums greater than are actually received by the respective agencies of the state, this Act may not be construed as appropriating additional funds from General Revenue to make up such differences. Wherever the language of this Act appropriates all receipts or balances from a specified source but uses an estimated amount to inform the Legislature and the public, the estimated figure is not to be construed as a limitation on the amount appropriated.

(Continued)

Sec. 6.03. Emergency and Deficiency Grants Out of Special Funds. For the purposes of § § 401.061 and 403.075, Government Code, appropriations to the Office of the Governor from "special funds" include excess revenues from General Revenue Fund-Dedicated accounts that were previously special funds above those estimated by the Comptroller in certifying this Act.

#### Sec. 6.04. Excess Obligations Prohibited.

- (a) An agency specified in this Act may not incur an obligation in excess of the amounts appropriated to it for the respective objects or purposes named.
- (b) As a specific exception to Subsection (a) the Texas Building and Procurement Commission may determine that a proposed installment purchase arrangement is cost effective and certify this finding in response to an agency request.
- (c) A determination made by the Texas Building and Procurement Commission under Subsection (b) may be made for obligations incurred for the purchase or lease of automated information system equipment only if the agency has on file with the Legislative Budget Board a Biennial Operating Plan, including any amendments to the Biennial Operating Plan, and the plan has been approved by the Legislative Budget Board.
- (d) If this section is violated, the State Auditor shall certify the fact of the violation and the amount of over-obligation to the Comptroller, and the Comptroller shall deduct an amount equivalent to the over-obligation from the salary or other compensation due the responsible disbursing or requisitioning officer or employee, and apply the amount to the payment of the obligation.
- (e) This provision is specified pursuant to § 10, Article XVI, Texas Constitution.
- Sec. 6.05. **Interpretation of Legislative Intent.** Funds appropriated by this Act shall be expended, as nearly as practicable, for the purposes for which appropriated. In the event an agency cannot determine legislative purpose from the pattern of appropriations, the agency shall seek to determine that purpose from the proceedings of the legislative committees responsible for proposing appropriations for this state.
- Sec. 6.06. **Comptroller's Duty to Pay**. The Comptroller may not refuse to pass for payment a legal claim, factually justified, for which a valid appropriation has been made.

# Sec. 6.07. Last Quarter Expenditures.

- (a) A state agency or other governmental unit using funds appropriated by this Act may not expend during the last quarter of a fiscal year more than one-third of the funds appropriated for that fiscal year.
- (b) Specifically exempted from Subsection (a) are:
  - (1) expenditures contracted for in previous quarters;
  - (2) funds required by statute, rule or regulation to be expended on a different time frame;
  - (3) seasonal employment of personnel;
  - (4) construction contracts;

(Continued)

- (5) contracts dealing with purchases of food, medicines, or drugs;
- (6) expenditures related to the Children with Special Health Care Needs (formerly known as "CIDC") program operated by the Texas Department of Health; and
- (7) expenditures occasioned by disaster or other Act of God.
- (c) The funds exempted, under Subsection (b) may not be considered in the computation of the total funds appropriated in a fiscal year for the purpose of applying Subsection (a).

#### Sec. 6.08. Appropriation Transfers.

- (a) Subject to any specific restriction in another provision of this Act, an appropriation contained in this Act may be transferred from one appropriation item to another appropriation item in an amount not to exceed 25 percent of the appropriation item from which the transfer is made for the fiscal year, at the discretion of the chief administrative officer of the state agency or institution.
- (b) As a specific exception to Subsection (a), funds appropriated for capital budget items are subject to restrictions contained elsewhere in this Act.
- (c) Funds appropriated by this Act in items of appropriation that are part of a Goal for "Indirect Administrative and Support Costs" or "Indirect Administration" may also be transferred from one appropriation item to another appropriation item within that same Goal without limitation as to the amount of such a transfer.
- (d) Appropriations made by this Act to each state agency or institution of higher education are not subject to transfer between agencies or institutions except under the provisions of interagency contract, budget execution statutes, or specific rider or statutory authorization.
- Sec. 6.09. **Transfers for Contract Services**. Funds appropriated in the various Articles of this Act for "Employees Retirement System," "Social Security State Match," and "Benefit Replacement Pay" may be transferred between Articles for similar appropriation items for the purpose of paying employee benefits costs incurred by higher education institutions when those institutions have contracted to provide services to state agencies.

# $Sec.\ 6.10.\;$ Employee Benefit and Debt Service Items.

- (a) Funds appropriated in the various Articles of this Act for "Employees Retirement System," "Social Security State Match," "Benefit Replacement Pay," "Texas Public Finance Authority-G.O. Bond Debt Service Payments," and "Lease-Payments to the Texas Public Finance Authority" may be transferred between Articles to a like appropriation item without limitation as to the amount of such transfer.
- (b) An agency to which an appropriation listed under Subsection (a) is made may pool such appropriations, made in the various Articles for a common purpose, into a single cost pool for the purpose of administering the appropriation.

(Continued)

# $Sec.\ 6.11.$ Salaries to Be Proportional by Fund.

- (a) Unless otherwise provided, payment for salaries, wages, and benefits paid from appropriated funds, including "local funds" and "education and general funds" as defined in § 51.009 (a) and (c), Education Code, shall be proportional to the source of funds.
- (b) Unless otherwise specifically authorized by this Act, the funds appropriated by this Act out of the General Revenue Fund may not be expended for employee benefit costs, or other indirect costs, associated with the payment of salaries or wages, if the salaries or wages are paid from a source other than the General Revenue Fund. Payments for employee benefit costs for salaries and wages paid from sources, including payments received pursuant to interagency agreements or as contract receipts, other than the General Revenue Fund shall be made in proportion to the source of funds from which the respective salary or wage is paid or, if the Comptroller determines that achieving proportionality at the time the payment is made would be impractical or inefficient, then the General Revenue Fund shall be reimbursed for any such payment made out of the General Revenue Fund.
- (c) The Comptroller shall develop rules to provide for the administration of this section.
- (d) Each agency or institution of higher education having General Revenue Fund appropriations and other sources of financing shall file with the Comptroller and the State Auditor a schedule demonstrating proportionality. The schedule shall be filed before November 20th following the close of the fiscal year for the salaries, wages, and benefits of the preceding year ended August 31. The schedule shall be in a format prescribed by the Comptroller. The State Auditor shall review the agencies' compliance with this section. The Comptroller, on receipt of notification from the State Auditor of amounts disproportionally paid from General Revenue Fund appropriations, shall reduce current year General Revenue Fund appropriations of the agency or institution until such time as such amounts are repaid from sources other than the General Revenue Fund.
- Sec. 6.12. **Appropriations from Special Funds.** Notwithstanding other provisions of this Act, appropriation amounts from special funds or special accounts in the General Revenue Fund are specifically limited to amounts not to exceed the actual balances and revenues available to each such fund or account.

#### Sec. 6.13. Limitation on Grants to Units of Local Government.

- (a) The funds appropriated by this Act may not be expended in the form of a grant to, or a contract with, a unit of local government unless the terms of the grant or contract require that the funds received under the grant or contract will be expended subject to limitations and reporting requirements similar to those provided by:
  - (1) Parts 2 and 3 of this Article (except there is no requirement for increased salaries for local government employees);
  - (2) § § 556.004, 556.005, and 556.006, Government Code;
  - (3) § § 2113.012 and 2113.101, Government Code;
  - (4) § 6.28 of this Article (Performance Rewards and Penalties);
  - (5) § 7.01 of this Article (Budgeting and Reporting);

(Continued)

- (6) § 7.02 of this Article (Annual Reports and Inventories); and
- (7) § 2102.0091, Government Code.
- (b) In this section, "unit of local government" means:
  - (1) a council of governments, a regional planning commission, or a similar regional planning agency created under Chapter 391, Local Government Code;
  - (2) a local workforce development board; or
  - (3) a MHMR community center.

# $Sec.\ 6.14.\ \ \textbf{Limitation on State Employment Levels}.$

- (a) Without the written approval of the Governor and the Legislative Budget Board, a state agency or institution of higher education may not use funds appropriated by this Act to pay the salaries of a number of employees which would cause the number of full-time equivalent employees (FTEs) paid from funds appropriated by this Act by the state agency or institution of higher education for a fiscal quarter to exceed the figure indicated by this Act for that state agency or institution.
- (b) A request to exceed the FTE limitation established by this section must be submitted by the governing board of the state agency or institution of higher education and must include at a minimum:
  - (1) the date on which the board approved the request;
  - (2) a statement justifying the need to exceed the limitation;
  - (3) the source of funds to be used to pay the salaries; and
  - (4) an explanation as to why the functions of the proposed additional FTEs cannot be performed within current staffing levels.
- (c) For the purpose of Subsection (a), the number of FTEs employed by a state agency (not including an institution of higher education or an affiliated entity, the State Preservation Board, Parks and Wildlife Department, Texas School for the Blind and Visually Impaired, Texas School for the Deaf, and Texas Commission on Environmental Quality) for a fiscal quarter:
  - (1) shall be determined in accordance with the report filed pursuant to § 2052.103, Government Code;
  - (2) shall only include employees paid with funds appropriated through this Act;
  - (3) shall not include overtime hours; and
  - (4) shall include a position filled by temporary or contract workers for more than half of the work days of the year preceding the final day of the reporting period. Temporary or contract workers shall include workers employed under contract to fill specific

(Continued)

positions customarily filled by state employees. The State Auditor is authorized to provide interpretations of this provision.

- (d) For the purpose of Subsection (a), the number of FTEs employed by the State Preservation Board, Texas Commission on Environmental Quality, the Parks and Wildlife Department, the Texas School for the Blind and Visually Impaired, the Texas School for the Deaf, or an institution of higher education or an affiliated entity, for a fiscal year:

  - (2) shall be an average of the four reports filed for that fiscal year;
  - (3) shall include employees paid with funds appropriated through this Act;
  - (4) shall not include overtime hours; and
  - (5) shall include a position filled by temporary or contract workers for more than half of the work days of the year preceding the final day of the reporting period. Temporary or contract workers shall include workers employed under contract to fill specific positions customarily filled by state employees. The State Auditor is authorized to provide interpretations of this provision.
- (e) This section shall not apply to appropriations made by this Act to the:
  - (1) Office of the Governor; or
  - (2) Comptroller when that agency has determined by a cost/benefit analysis that an outsourcing or contracting arrangement provides savings to this State.
- (f) The limitations on FTEs under this section do not apply to a state agency or institution in instances of employment, including employment of temporary or contract workers, directly associated with events declared disasters by the Governor. Each state agency or institution shall annually notify the State Auditor, Comptroller, Legislative Budget Board, and Governor of FTEs exempted under this section.
- (g) The limitations on FTEs under this section do not apply to a state agency or institution in an instance of employment, including employment of a temporary or contract worker, associated with implementation of a project that is 100 percent federally funded. With regard to the exemption from the FTE limitations provided by this subsection, the state agency or institution is exempt from the FTE limitations only for the duration of the federal funding for the employment related to the project and all salaries, benefits, and other expenses incurred related to employment must be paid from federal funds. Each state agency or institution shall notify the State Auditor, Comptroller, Legislative Budget Board, and Governor of FTEs exempted under this subsection.

#### Sec. 6.15. Purchases of Postage.

(a) If the expenditures for postage by an agency, other than the Legislature or an institution of higher education, exceed \$4,000 for a fiscal year, the agency shall purchase postage only in accordance with § 2113.103(c), Government Code.

(Continued)

(b) The amount received by an agency as a refund of postage used by the agency shall be deposited in the fund to the credit of the appropriation from which postage for the agency is paid and is hereby appropriated to the agency for postage use.

# $Sec.\ 6.16.$ Publication or Sale of Printed, Recorded, or Electronically Produced Matter or Records.

- (a) Funds appropriated by this Act may not be used for the publication, recording, production, or distribution of any item or matter, including lists, notices, pamphlets, video tapes, audio tapes, microfiche, films or other electronically produced information or records unless such publication, recording, or production is:
  - (1) essential to accomplish or achieve a strategy or outcome target established by this Act; or
  - (2) required by law.
- (b) Any funds received and collected from any charges specifically authorized by statute for the productions, publications, or records are hereby appropriated to the agency issuing the productions, publications, or records for use during the year in which the receipts are collected. The Comptroller shall credit such receipts to the like appropriation item from which the original costs are paid.

#### Sec. 6.17. Limitation on Expenditures - Capital Budget.

- (a) Contained in appropriations made to certain agencies by this Act are amounts identified as the "Capital Budget." Except as provided under this Section, none of the funds appropriated by this Act, in excess of amounts restricted to capital budget purposes, may be expended for capital budget purposes without the prior approval of the Governor and Legislative Budget Board.
- (b) A request for approval to exceed the transfer limitation on capital budget expenditures under Subsection (i) must be submitted by the agency's governing board and must include at a minimum:
  - (1) the date on which the board approved the request;
  - (2) a statement justifying the need to exceed the limitation;
  - (3) the source of funds to be used to make the purchases; and
  - (4) an explanation as to why such expenditures cannot be deferred.
- (c) This restriction does not apply to:
  - (1) expenditures for capital outlay items or projects that are not included in the definition of "Capital Budget" under Subsection (d); or

- (f) In implementing this section, the Comptroller should refer to the detailed instructions for preparing and submitting requests for legislative appropriations for the biennium beginning September 1, 2003, and the definitions therein, and to the official request for legislative appropriations submitted by the affected agency.
- (g) Appropriations restricted to capital budget purposes and not identified in a "Capital Budget" as being for lease payments to the master lease purchase program (MLPP) or for other lease-purchase payments may be utilized to make lease payments under MLPP or for other lease or installment payments only if the agency to which the appropriation is made provides a report to the Comptroller specifying the sum of the lease payments to be made during the biennium for the Capital Budget item being acquired. The Comptroller shall reduce the appropriation made by this Act for the Capital Budget item in an amount equal to the difference between the appropriated amount and the sum of the lease payments for the biennium and deposit that amount into the unappropriated balance of the original funding source. In the event that the Comptroller cannot determine the amount appropriated for a specific Capital Budget item, the amount shall be determined by the Legislative Budget Board.
- (h) Funds restricted to "Acquisition of Information Resource Technologies" may also be used to purchase or contract for computer time, facility resources, maintenance, and training.
- (i) (1) An agency may transfer appropriations:
  - (A) from a non-capital budget item to a capital budget item;
  - (B) from a capital budget item to another capital budget item; or
  - (C) from a capital budget item to an additional capital budget item not presented in the agency's bill pattern.

- (2) Without the approval of the Governor and the Legislative Budget Board:
  - (A) the amounts transferred during a fiscal year as provided by Subdivision (1) of this Subsection (i) may not exceed 25 percent of either:
    - (i) the amount of the capital budget item, as presented in the agency's bill pattern from which funds are being transferred; or
    - (ii) the amount of the capital budget item, if presented in the agency's bill pattern, to which funds are being transferred;
  - (B) appropriations may not be transferred directly from a non-capital budget item to an additional capital budget item not presented in the agency's bill pattern;
  - (C) appropriations may not be transferred to an additional capital budget item that is not presented in the agency's bill pattern if that additional capital budget item was presented to a committee, subcommittee, or working group of the Seventy-eighth Legislature but was not adopted by the Seventy-eighth Legislature; and
  - (D) an agency that does not have a capital budget provision following its items of appropriation in this Act may not use funds appropriated by this Act for capital budget purposes.
- (j) Any unexpended balances remaining in appropriations made by this Act for capital budget purposes for fiscal year 2004 are hereby appropriated for fiscal year 2005 for the same purpose.
- (k) (1) Notwithstanding limitations on capital expenditures provided elsewhere, appropriations made by this Act that may be used for the payment of utility bills are hereby authorized to be used to pay for energy and water conservation-related projects, including lease payments under state's Master Lease Purchase Program, entered into in accordance with energy and water conservation statutes.
  - (2) Capital expenditures for items that could be financed through the utility savings made possible by a comprehensive energy and water conservation contract authorized by § 2166.406, Government Code, are prohibited unless part of a comprehensive energy and/or water conservation contract authorized under § 2166.406, Government Code.
  - (3) Before authorizing expenditures for capital items that consume energy or water or are related to the energy and/or water consumption of an agency's facilities, the Comptroller must verify that the items could not be part of a cost-effective contract for energy and water conservation measures authorized by § 2166.406, Government Code.
- Sec. 6.18. **Construction Policy.** A state entity receiving an appropriation under this Act may not establish a rule or policy that is inconsistent with the legislative intent that funds appropriated by this Act for construction projects be expended only pursuant to state entity policies that provide the greatest competitive advantage to the state allowable under Chapter 2258, Government Code.

  - (1) (A) required by court order;
    - (B) will result in increased safety, significant net cost savings, or prevention of substantial waste; or
    - (C) are specifically identified in a Capital Budget in this Act; and
  - (2) the Governor and Legislative Budget Board have approved the expenditure under authority granted pursuant to Article XVI, § 69, Texas Constitution.
- (b) In the event of an emergency or if the Legislative Budget Board fails to meet before the 30th day following the date of the request, the Director of the Legislative Budget Board, after consultation with the Board members, may take action in conjunction with the Governor on the request.
- (c) The Texas Building and Procurement Commission shall report all expenditures exceeding an aggregate amount of \$25,000 for the biennium for purchasing, remodeling, or repairing a personal residence or living quarters to the Legislative Budget Board.
- Sec. 6.20. **Grant Restriction.** Funds appropriated by this Act may not be expended for a grant to a law enforcement agency regulated by Chapter 1701, Occupations Code, unless:

#### Sec. 6.21. Expenditures for State-Federal Relations.

- (a) Funds appropriated by this Act may not be spent by a state agency to carry on functions for which funds have been appropriated to the Office of State-Federal Relations to perform except when an interagency contract has been executed between the Office of State-Federal Relations and the state agency.
- (b) Prior to travel to Washington, D.C., state agency personnel shall inform the Office of State-Federal Relations regarding:
  - (1) the timing of the trip;

# Sec. 6.22. Research Policy.

- (a) An agency may not expend any funds appropriated by this Act for research projects of any type until the agency has adopted and filed with the Legislative Budget Board a policy that clearly establishes and protects the property rights of the state with regard to any patentable product, process, or idea that might result from such research.
- (b) In order to avoid duplication, a state agency, excluding an institution of higher education, may not expend funds appropriated by this Act to conduct or support policy research on a subject within the statutory jurisdiction of another agency without providing prior written notification, to the agency that has the statutory jurisdiction, concerning a work plan and the coordination of resources.

# Sec. 6.23. Court Representation and Outside Legal Counsel.

- (a) Except as otherwise provided by the Constitution or general or special statutes, the Attorney General shall have the primary duty of representing the State in the trial of civil cases. Prior to expenditure of funds for retaining outside legal counsel, agencies or departments (other than those included in Article X of this Act) shall request the Attorney General to perform such services. If the Attorney General determines that outside counsel is in the best interest of the State, the Attorney General shall so certify to the Comptroller and to the requesting agency which may then utilize appropriated funds to retain outside counsel. However, funds appropriated by this Act may not be used to contract with an attorney who represents clients before the agency or who has, during a six month period preceding the initiative of the contract and a six month period following the termination of the contract, represented clients before the agency. An agency may not initiate the process of selecting outside legal counsel prior to receiving the approval of the Attorney General to retain outside counsel.
- (b) Funds appropriated in this Act may not be expended by any agency of the state government (other than those included in Article X of this Act) to initiate a civil suit or defend itself against a legal action without the consent of the Attorney General. Absent this consent, the agency shall be represented in that particular action by the Attorney General.
- (c) On receipt of a request for outside counsel, the Attorney General shall make a determination on the request as expeditiously as possible, but in no event later than 10 working days after receiving such request.
- (d) Where the Attorney General, district attorney, criminal district attorney, county attorney, or other lawyer is required by constitutional or statutory provision to represent a state agency, state official, state board, or state department, compensation may not be paid from any appropriation made in this Act to any other attorney for representing the State in the trial of a civil suit except in those cases where the Attorney General consents to such representation or the district attorney, criminal district attorney, county attorney, or other lawyer has requested that the attorneys employed by the particular state agency, state official, state department, or state board assist with the trial of the particular civil suit.
- (e) This section does not restrict a state agency, state official, state department, or state board in the investigation and assembling of evidence in connection with a pending or prospective civil suit. This section does not prohibit the foregoing state officials, state agencies, state boards, or state departments and their employees from investigating, filing, or presenting to any person a claim, owing to the State.

- (f) This section does not restrict the Attorney General from employing special assistants to assist in the trial of civil suits to be paid from the appropriations therefore made to the Attorney General.
- (g) If a state agency requests the Attorney General to take legal action in court against another state agency, the Attorney General shall give special consideration to permitting one of the agencies to employ, from the permitted agency's funds, outside counsel to represent that agency in that action, in order to avoid a conflict of interest by the Attorney General in the representation of both agencies.
- (h) If the Attorney General initiates legal action against another state agency on behalf of the Attorney General rather than another agency, the Legislature determines that a conflict of interest exists and the agency against which the Attorney General takes action may expend appropriated funds for outside legal counsel to represent that agency without the prior approval or consent of the Attorney General.
- (i) Subsections (a) (h) do not apply to funds appropriated to:
  - (1) the Office of the Governor;
  - (2) Comptroller;
  - (3) Department of Agriculture;
  - (4) General Land Office and Veteran's Land Board; or
  - (5) the Railroad Commission of Texas.
- (j) The funds appropriated by this Act may not be expended to pay the legal fees or expenses of a lawyer or law firm that represents the State or any of its agencies in a contested matter if the lawyer or law firm is representing a plaintiff in a proceeding seeking monetary damages from the State or any of its agencies.
- (k) (1) None of the money appropriated by this Act may be expended by a state governmental entity for payment of legal fees or expenses under a contingent fee contract for legal services without the prior approval of the Legislative Budget Board in accordance with Article XVI, § 69, Texas Constitution.
  - (2) For purposes of this section, "state governmental entity" means a board, commission, department, office, or other agency in the executive branch of state government created under the constitution or a statute, including an institution of higher education.
  - (3) This section applies to all contingent fee contracts for legal services entered into by a state governmental entity, including legal services related to a parens patriae action or proceeding brought by a state governmental entity in the name of the state, except that this section does not apply to a contingent fee contract:
    - (A) for legal services performed for a state governmental entity in relation to the entity's actions as a receiver, special deputy receiver, liquidator, or liquidating agent in connection with the administration of the assets of an insolvent entity, including actions under Article 21.28, Insurance Code, or Chapters 36, 66, 96, or 126, Finance Code; or

(Continued)

- (B) under which recoveries from more than one entity are contemplated and the expected amount of each recovery and the actual amount of each recovery do not exceed \$100,000.
- (1) Any litigation that results in settlement, court order or other arrangement providing revenues or financial benefits to the State of Texas shall be structured to require the entire amount due to be paid to the treasury.
- (m) (1) None of the money paid to a state governmental entity (as a result of a settlement of litigation, or other arrangement providing revenues or financial benefits as a result of litigation) may be expended by any person unless the Legislative Budget Board is notified in writing regarding the terms of the settlement or other arrangement and the state governmental entity's plans for the use of the money. The written notice must be delivered to the Legislative Budget Board by or on behalf of the state governmental entity 12 or more days before the date of authorization, execution, or other creation of evidence of the approval of the settlement or other arrangement by the state governmental entity.
  - (2) This subsection does not apply to a settlement of litigation, court order resulting from litigation, or other arrangement providing revenues or financial benefits as a result of litigation:
    - (A) for a state governmental entity in relation to the entity's actions as a receiver, special deputy receiver, liquidator, or liquidating agent in connection with the administration of the assets of an insolvent entity, including actions under Article 21.28, Insurance Code, or Chapters 36, 66, 96, or 126, Finance Code; or
    - (B) under which recovery to the state governmental entity does not exceed \$500,000.

#### Sec. 6.24. Judgments and Settlements.

- (a) The funds appropriated by this Act, including appropriations made in Article X of the Act, may not be expended for payment of a judgment or settlement prosecuted by or defended by the Attorney General and obtained against the State or a state agency, except:
  - (1) pursuant to this section; or
  - (2) where it is specifically provided in an item of appropriation that the funds thereby appropriated or expenditures therein authorized may be used for the payment of such judgments.
- (b) The authorization provided by this subsection does not apply in those cases where the judgment order of the trial court was entered, or a settlement agreement was executed, prior to September 1, 1995. State agencies appropriated funds by this Act may expend funds appropriated elsewhere in this Act for the purposes of paying settlements and judgments against the state for causes brought in a federal court or a court in this state under specific statutory authority. Payments made pursuant to this subsection are subject to the following processes and limitations:

- (1) such funds are to be paid out by the Comptroller on vouchers drawn by the agency settling the lawsuit or paying the judgment, subject to the approval of the Governor and of the Attorney General according to Subsection (d);
- (2) for purposes of this subsection, "judgment" means a judgment order rendered in a federal court or a court in this state for which an appeal or rehearing, or application therefore, is not pending and for which the time limitations for appeal or rehearing have expired;
- (3) the payment of a settlement or judgment may not exceed \$250,000;
- (4) the payment of the settlement or judgment would not cause the total amount of payments made by the payer agency for that fiscal year to exceed 10 percent of the total amount of funds available for expenditure by that agency for that fiscal year; and
- (5) the payment of a settlement or judgment may be made only with a complete release from any and all related claims and causes against the State, and in the case of a judgment, the payment may be made only in full satisfaction of that judgment.
- (c) A state agency shall report a claim for property damage to the Attorney General not later than the second working day after the date the agency receives the claim. A state agency shall prepare a voucher for payment of a claim not later than the 10th working day after the date an agreement to settle the claim has been reached.
- (d) Payment of all judgments and settlements prosecuted by or defended by the Attorney General is subject to approval of the Attorney General as to form, content, and amount, and certification by the Attorney General that payment of the judgment or settlement is a legally enforceable obligation of the State. This subsection applies equally to funds appropriated for expenditure through the state treasury, as well as funds appropriated for expenditure from funds held in local banks.
- (e) The Attorney General shall report to the Legislative Budget Board and the Governor not less than monthly, a listing of all settlements and judgments of more than \$5,000 submitted to the Comptroller for payment. The document for publication shall contain at least the following information unless all or part of the information is exempt by court order or Chapter 552, Government Code, (the Open Records Act):
  - (1) a summary of the cause of action;
  - (2) a summary of the terms of the settlement;
  - (3) the style of the case;

- (10) other information as the Legislative Budget Board may request and in the form requested by the Legislative Budget Board.
- (f) The State Auditor may verify compliance with this section for all funds appropriated in this Act, including funds that are retained and expended from accounts held outside the state treasury and that are not subject to reimbursement through funds held in the state treasury. On verification that an agency has not obtained the Attorney General's approval prior to payment of a judgment or settlement, the State Auditor may certify such fact to the Comptroller. The Comptroller may withhold all appropriations for administrative expenses for the involved agency, until the Legislative Audit Committee notifies the Comptroller that the agency's non-compliance has been reviewed and necessary recommendations or changes have been made.

#### $Sec.\ 6.25.\ Expenditures\ for\ Representatives\ of\ Grievants\ Prohibited.$

A state agency, including an institution of higher education, that is required to meet the percentage requirements for vehicles capable of using alternative fuels under Chapter 2158, Government Code, may expend funds appropriated by this Act for the purpose of meeting the percentage requirements only if the agency purchases or converts a vehicle that uses the most cost-effective, fuel efficient and mechanically efficient alternative fuel source.

# Sec. 6.28. Performance Rewards and Penalties.

- (a) It is the intent of the Legislature that appropriations made by this Act be utilized in the most efficient and effective manner possible to achieve the intended mission of each state agency and institution. In order to achieve the objectives and service standards established by this Act, agencies and institutions shall make every effort to attain the designated key performance target levels associated with each item of appropriation.
- (b) To support and encourage the achievement and maintenance of these appropriated annual performance levels, continued expenditure of any appropriations in this Act shall be contingent upon compliance with the following provisions:

- (1) Agencies and institutions, in coordination with the Legislative Budget Board, shall establish performance milestones for achieving targets within each annual budget and performance period; time frames for these milestones and the related performance reporting schedule shall be under guidelines developed by the Legislative Budget Board.
- (2) Agencies and institutions shall provide testimony as to the reasons for any performance variances to the Senate Finance Committee and the House Appropriations Committee, as determined to be necessary by those committees; assessments of agency and institution performance shall be provided to the committees under guidelines and procedures developed by the Legislative Budget Board.
- (c) Upon a finding that an agency or institution has successfully met or exceeded performance expectations, or has failed to achieve expected performance levels, the Legislative Budget Board, and the Governor, may adopt a budget execution order, which may include but is not limited to, one or more of the following:
  - (1) Positive Incentives/Rewards Increased funding, exemption from reporting requirements, increased funding transferability, formalized recognition or accolade, awards or bonuses, expanded responsibility, or expanded contracting authority; or

- (d) To further foster, support, and reward outstanding performance, ongoing productivity improvements and innovative improvement programs, and to retain key high performing employees, qualified state agencies and institutions may expend amounts necessary from funds appropriated in this Act for the purposes of enhancing compensation for employees who directly contributed to such improvements. Only classified employees (including classified employees of institutions of higher education) are eligible for enhanced compensation, and this award shall not exceed 6.8 percent of an employee's annual base pay. To be eligible for this provision, an agency or institution must:
  - (1) Achieve or exceed targets for 80 percent of the established key performance measures:
    - (A) For fiscal year 2004, eligibility shall be determined by the Legislative Budget Board based on performance reported to the Automated Budgeting and Evaluation System of Texas (ABEST) for fiscal year 2003;

(Continued)

- (B) For fiscal year 2005, eligibility shall be determined by the Legislative Budget Board based on performance reported to ABEST for fiscal year 2004; and

The information shall be recorded and maintained systematically in the state accounting system in a manner that provides for the integration of the state's budget data and the state's accounting data and to facilitate the state's budget development process.

- (b) Funds appropriated by this Act for grants to be made by a state agency for a particular fiscal year may be distributed in subsequent fiscal years so long as the grant has been awarded and treated as a binding encumbrance by the grantor agency prior to the end of the appropriation year of the funds appropriated for grant purposes. Distribution of the grant funds is subject to § 403.071, Government Code.

(Continued)

Sec. 6.32. **Fee Increase Notification.** None of the funds appropriated by this Act may be expended by an agency which increases the rate of a fee assessed by that agency unless the agency provides a notice to the payer of the fee that the fee rate was set by the agency or its governing board and not mandated by the Legislature.

The Comptroller shall pay by warrant or transfer out of funds appropriated from the Unemployment Compensation Special Administration Account No. 165 such amount to the Unemployment Compensation Benefit Account No. 937 to reimburse it for such payments.
- (c) The Unemployment Compensation Special Administration Account No. 165 shall be reimbursed, as Interagency Transfers to the Unemployment Compensation Special Administration Account No. 165, for one-half of the unemployment benefits paid, from appropriations made in this Act to the agency that previously employed each respective former state employee whose payroll warrants were originally issued in whole or part from the General Revenue Fund or dedicated General Revenue Fund accounts, or Other Funds, such as Fund No. 006.
- (d) From information related to unemployment benefits paid on behalf of previously employed former state employees provided by the Texas Workforce Commission, the Comptroller shall determine the proportionate amount of the reimbursement or payment due from the General Revenue Fund, any General Revenue-Dedicated accounts, Federal Funds or Other Fund appropriations made elsewhere in this Act to agencies. The Comptroller shall transfer such amounts to the Unemployment Compensation Special Administration Account No. 165. The amounts reimbursed pursuant to this subsection are hereby appropriated to the Unemployment Compensation Special Administration Account No. 165 for the purpose of reimbursing the Unemployment Compensation Benefit Account No. 937, as Interagency Transfers to the Unemployment Compensation Special Administration Account No. 165. The reimbursement requirements established by this subsection may be waived, either in whole or in part, by the Legislative Budget Board.
- (e) In addition to other reimbursement provided by this section, the Unemployment Compensation Special Administration Account No. 165 shall be reimbursed, for one-half of the unemployment benefits paid, from amounts appropriated to the Reimbursements to the Unemployment Compensation Benefit Account item in this Act out of dedicated General Revenue Fund accounts or Other Funds and shall be fully reimbursed from funds held in local bank accounts, for all former state employees whose payroll warrants were originally issued in whole or part from dedicated General Revenue Fund accounts, Other Funds or local bank accounts, respectively. (Continued)

- (h) Amounts not to exceed 2 percent in total of workers' compensation annual expenditures may be awarded to agencies by SORM for the purposes of risk management and loss prevention. In the event that Strategy A.1.1., Workers' Compensation Payments, funded by the annual assessments to agencies, exceeds 110 percent of the expected annual payments, the excess over 110 percent will be returned to the General Revenue Fund. An excess of 10 percent or less will be used to lower the cumulative assessments to agencies the following year.
- (i) In the event the total assessments in any year prove insufficient to fund expenditures, SORM may, with the approval of the Legislative Budget Board, temporarily utilize additional general revenue in an amount not to exceed 20 percent of the cumulative assessments for that fiscal year. Any additional general revenue funds will be utilized only for the purpose of temporary cash flow and must be repaid upon receipt of the following year's assessments in accordance with procedures established by the Comptroller. All transfers from and repayments to the General Revenue Fund shall be reported by SORM to the Legislative Budget Board.

- (e) The Higher Education Coordinating Board and the Bond Review Board shall eliminate redundant reporting by consolidating this report and the Higher Education Coordinating Board's Master Plan report, to the greatest extent possible.
- Sec. 6.36. **Consolidated Funds**. Contingent on the enactment of legislation relating to the dedication of funds, the Comptroller, on approval of the Legislative Budget Board, may change an applicable agency's method of financing source name as provided in this Act to reflect changes made by the other legislation that affects the status of the funding source. No change in the amount of the appropriation would be affected by this change.
- Sec. 6.37. **Demographic and Statistical Studies**. Before expending funds appropriated by the Act for the purpose of contracting for a consultant or other private assistance in performing a study required by the Legislature that includes statistical or demographic analysis of data, the agency conducting the study shall determine if the resources of the Texas Legislative Council are available to assist the agency in designing or conducting that component of the study. None of the funds appropriated by the Act may be granted to or expended by any entity which performs political polling. This prohibition regarding political polling does not apply to a poll conducted by an academic institution as a part of the institution's academic mission that is not conducted for the benefit of a particular candidate or party.
- Sec. 6.38. **Cost Allocations**. For the purpose of more effective and efficient identification and allocation of costs, and to effect timely payments to employees and vendors, agencies may temporarily charge salary and/or operating costs to appropriations most applicable for the expense being incurred. Upon receipt of more specific information such as personnel-time allocation information for payrolls, or allocation of office supplies or other goods and services, agencies may reimburse the original paying appropriations by transfer from the appropriation to which the expenditure should have been charged. Such transfers must be accomplished within twelve months in a manner which records appropriate expenditures to the borrowing appropriation and negative expenditures to the lending appropriation. These transfers may be in summary amounts in a manner approved by the Comptroller. Each agency must maintain adequate detailed records to support summary transfer amounts.

  - (B) approve the definitions of measures reported; and
  - (C) establish standards for and the reporting of variances between actual and targeted performance levels.
- (4) The Legislative Budget Board (in consultation with the Governor) may adjust projected performance target levels, develop new measures, modify or omit existing measures and measure definitions, and/or transfer measures between agencies, goals or strategies to reflect appropriation changes made by riders or other legislation subsequent to passage of this Act, invocation of budget execution authority by the Governor and the Legislative Budget Board, or as unforeseen circumstances may warrant during the biennium.
- (5) To ensure that the Program and Cost Accounting functions of the Uniform Statewide Accounting System (USAS) are maximized, it is the intent of the Legislature that the Legislative Budget Board and the Governor:

  - (C) determine the frequency of reporting cost accounting data needed; and
  - (D) provide for the integration of cost accounting data into the budget development and oversight process.
- (6) The determinations to be made should be based upon due consideration of the relative benefits and cost-effectiveness of applying cost accounting requirements to a given state operation.

- (g) In order to maximize the amount of federal alcohol and drug abuse funds that might become available to the Texas Commission on Alcohol and Drug Abuse, state funds used by a state agency to provide alcohol and drug abuse services may be counted towards any required state matching contribution for such federal funds.

(Continued)

- (h) In the event that federal programs that authorize federal funds included in this Act are eliminated, consolidated, or replaced with new federal programs and funding authorization or block grants, or the federal funds appropriated to agencies are reduced, any reduction or reallocation of federal funds will be distributed across affected agencies and programs to pattern the strategies and programs included in this Act to the extent possible without restricting the state's ability to receive federal funds, in accordance with a plan adopted by the designated single state agency or otherwise by each affected agency. An agency shall provide a copy of the plan to the Legislative Budget Board and the Governor.
- (i) In the event that an agency or institution of higher education receives at least \$5 million in Federal Funds from new programs not anticipated in this Act, or at least \$5 million in additional Federal Funds not estimated elsewhere in this Act, and these Federal Funds are not emergency funds such as disaster assistance, the agency or institution of higher education may not expend such funds unless:

#### Sec. 8.05. Refunds of Deposits.

- (a) Any money deposited into the state treasury which is subject to refund as provided by law shall be refunded from the fund into which the money was deposited, transferred, or otherwise credited, and so much as is necessary for said refunds is hereby appropriated.
- (b) Unless another law, or section of this Act, provides a period within which a particular refund claim must be made, funds appropriated by this Act may not be used to pay a refund claim made under this section after four years from the latest date on which the amount collected or received by the state was due, if the amount was required to be paid on or before a particular date. If the amount was not required to be paid on or before a particular date, a refund claim may not be made after four years from the date the amount was collected or received. A person who fails to make a refund claim within the period provided by law, or this provision, may not receive payment of a refund under this section.
- (c) As a specific limitation to the amount of refunds paid from funds appropriated by this Act during the 2004–05 biennium, the Comptroller may not approve claims or issue warrants for refunds in excess of the amount of revenue estimated to be available from the tax, fee, or other revenue source during the biennium according to the Biennial Revenue Estimate of the Comptroller used for certification of this Act. Any claim or portion of a claim that is in excess of this limitation shall be presented to the next Legislature for a specific appropriation in order for payment to be made. The limit provided by this subsection does not apply to any taxes or fees paid under protest.

  - (2) "Quality Assurance Team" and "QAT" means the representatives of the Legislative Budget Board and the State Auditor.
- (b) A state agency may not request appropriations for information technology unless the information technology is in a plan approved by the Legislative Budget Board.
- (c) Prior to amending a contract for development of a major information technology project, when the amendment constitutes a 10 percent or greater change, the agency shall notify the Governor, Lieutenant Governor, Speaker of the House, Senate Finance Committee, House Appropriations Committee, Department of Information Resources and the QAT. For contracts having a total value in excess of \$1.0 million an amendment to the contract that changes the total value of the contract or any element of the contract by more than 10 percent of the total value of the contract is not valid without QAT approval.

# **INFORMATION RESOURCES PROVISIONS**

(Continued)

### Sec. 9.02. Quality Assurance Review of Major Information Resources Projects.

- (a) In this section:
  - (1) "Major information resources project" has the meaning provided by § 2054.003, Government Code.
  - (2) "Quality Assurance Team" or "QAT" means the representatives of the Legislative Budget Board and the State Auditor who execute duties as provided by this section.
- (b) A state agency may not expend appropriated funds for a major information resources project unless the project has been reviewed and approved by the QAT. The QAT shall determine approval based on an analysis of the project's risk. The QAT may request any information necessary to determine a project's potential risk. The QAT may waive the project review requirements for a project.
- (c) The QAT may require independent project monitoring, project status reporting, project expenditure reporting, or any additional information necessary to assess a project's on-going potential for success. After a project has been completed, the QAT may also require an agency to submit a project post-implementation evaluation report to determine if the project met its planned objectives.
- (d) The State Auditor's Office shall provide audit and review of the projects and the information provided by the agencies.
- (e) The QAT may request the assistance of the Comptroller in regard to the accuracy of project expenditures and compliance with this Act.
- (f) The QAT shall provide an annual report to the Governor, Lieutenant Governor, Speaker of the House, the House Appropriations Committee, and Senate Finance Committee on the status of projects under its review by December 1.
- (g) The State Auditor's Office may:
  - (1) provide an independent evaluation of the post implementation evaluation review process to ensure the validity of its results; and
  - (2) send the evaluation to the Legislative Audit Committee.
- (h) The Legislative Budget Board may issue guidelines for software development, quality assurance, and the review of major information resources projects.
- (i) Unless waived by the Legislative Budget Board the QAT shall require each affected agency to:
  - (1) quantitatively define the expected outcomes and outputs for each major information resource project at the outset;
  - (2) monitor cost; and
  - (3) evaluate the final results to determine whether expectations have been met.

#### Sec. 9.03. State Data Center.

- (a) In this section:
  - (1) "DIR" means the Department of Information Resources.
  - (2) "Center" means the State Data Center.

### **INFORMATION RESOURCES PROVISIONS**

(Continued)

- (3) "Best value" has the meaning assigned under Section 2157.003, Government Code.
- (b) The DIR shall operate, or through cooperative agreement, manage operations of the State Data Center on the campus of Angelo State University. It is the intent of the Legislature that all state agencies and institutions of higher education utilize the Center for data center operations, testing disaster recovery plans, and for disaster recovery services. None of the funds appropriated by this Act may be expended for entering into or renewing contracts or issuing purchase orders for data center operations, disaster recovery plan testing services, or disaster recovery services from other state agencies or other providers of these services without first obtaining a waiver from the Legislative Budget Board certifying that the requested service requirements cannot be provided at reasonable costs through the Center. Waiver requests will be evaluated by the Legislative Budget Board, based on best value to the State, rather than best value to the state agency or institution of higher education requesting the waiver. Prior to requesting a waiver from the Legislative Budget Board, agencies and institutions of higher education must first provide the operational vendor of the Center with a comprehensive statement of work sufficient for the operational vendor to provide an accurate cost estimate for cost comparison purposes. Prior to initiating the waiver process, state agencies and institutions of higher education must also coordinate with the DIR regarding appropriate time frames for preparation of the statement of work, pricing, cost comparison and transition.

Agencies and institutions of higher education shall use the State Auditor's Report 95-139 in evaluating cost comparison. The Legislative Budget Board may request assistance from the State Auditor's Office in validating cost evaluations. Waivers may be granted for specific periods of time and any contracts for services obtained under waiver may not extend beyond the expiration date of the waiver. Once a waiver has been granted, state agencies and institutions of higher education must provide a comparison of actual costs versus the projected costs used to obtain the waiver on an annual basis to the Legislative Budget Board.

(c) State agencies and institutions of higher education that use the Center shall do so under contract with the DIR. The DIR may collect fees for these services in amounts that offset the direct and indirect costs of providing the services. The DIR may request assistance from the State Auditor's Office regarding the billing system formula for offsetting service costs. In order for the State to realize maximum cost savings and operational efficiencies, the DIR shall work with the Legislative Budget Board, the State Auditor's Office and the Center's operational vendor to develop a comprehensive information technology consolidation plan and provide information relating to the use of the Center as a location for one of the state's consolidated data centers. The DIR shall file a written report of the plan with the Governor, the Lieutenant Governor, and the Speaker of the House of Representatives not later than May 31, 2004.

Information Technology items identified in the Capital Budget Rider must be included and approved in the Biennial Operating Plan or a subsequently approved amendment of the Biennial Operating Plan. The Legislative Budget Board may direct the Comptroller to deny the agency or institution of higher education access to information technology appropriations for non-compliance.

# **INFORMATION RESOURCES PROVISIONS**

(Continued)

Sec. 9.05. Information Technology Replacement. It is the intent of the Legislature that agencies and institutions of higher education receiving appropriated funds for the acquisition of information technology, including seat management, perform a cost-benefit analysis of leasing vs. purchasing information technology and develop a personal computer replacement schedule. Agencies and institutions of higher education should use the Department of Information Resources' (DIR) Guidelines for Lease versus Purchase of Information Technologies to evaluate costs and DIR's PC Life Cycles: Guidelines for Establishing Life Cycles for Personal Computers to prepare a replacement schedule. The use of West Texas Disaster Recovery and Operations Center for seat management should also be evaluated.

Sec. 9.06. **Training Programs Using the Internet.** To reduce costs, maximize efficiency, and minimize travel costs and other budget expense, it is the intent of the Legislature that state agencies and institutions of higher education use Internet-based training for state-mandated human resources training and other training programs if Internet-based training is available and appropriate. Not later than January 1, 2004, the Department of Information Resources shall report to the Legislature regarding the amount of training conducted by state agencies and institutions of higher education and on the use of Internet-based training by the agencies and institutions. The agencies and institutions shall timely provide the Department of Information Resources with information necessary to make the report.

# PART 10 HEALTH-RELATED PROVISIONS

Sec. 10.01. **Purchasing of Pharmaceuticals**. An agency appropriated funds for the purpose of the purchase of pharmaceutical products may establish a preference for the purchase of those pharmaceutical products from a manufacturer that voluntarily participates in the Texas Department of Health's Vendor Drug Rebate Program for the Children with Special Health Care Needs (formerly known as "CIDC") Program and the Kidney Health Care Program.

Sec. 10.02. **Full Application for Health Coverage.** To the fullest extent permitted by federal law and regulations, all state agencies that have children in their custody must apply for enrollment of all children in the Medicaid or the Childrens' Health Insurance Program, unless the children have otherwise been provided health insurance.

 $Sec.\ 10.03.$  State Agency Communication with Employees Regarding the State Kids Insurance Program (SKIP).

- (a) A state agency shall provide each employee with information regarding the State Kids Insurance Program (SKIP) and Medicaid. The outreach shall be performed at least annually during open enrollment and with any new state employee at the time of hiring.
- (b) The Health and Human Services Commission shall maintain an application and a brochure for state employees about SKIP and for Children's Medicaid. These documents shall be maintained with collaboration from the Employee Retirement System, the Health and Human Services Commission's internal Medicaid division, and the Health and Human Services Commission's Children's Health Insurance Program department. The brochure should include an eligibility chart, pricing information, and a telephone number to call the Health and Human Services Commission or the Employees Retirement System to answer questions. All of the aforementioned documents shall be easily reproduced by other state agencies, and shall be made available on each agency's website to download from the Internet. The information contained within these documents shall be updated annually.

Sec. 10.04. Completion of Memorandum of Understanding Regarding Transition Services for Students with Disabilities. The Texas Education Agency, the Texas Department of Mental Health and Mental Retardation, and the Texas Rehabilitation Commission, with other appropriate agencies as requested by the above agencies, shall develop, agree to, and by rule adopt an updated memorandum of understanding that establishes the respective responsibilities of each agency for the provision of services necessary to prepare students enrolled in special education programs for a successful transition to life outside of the public school system. The memorandum of understanding shall include clear designation of the respective responsibility of each participating agency to provide or pay for specific services, establish a uniform system across participating agencies for resolution of disputes regarding transition services, and establish a point of responsibility within each participating agency for implementation by that agency of the requirements of the memorandum of understanding. The updated memorandum of understanding must be completed by December 31, 2003.

 $Sec.\ 10.05$ . Authorization to Transfer Appropriations, Personnel, and Capital Budget Authority Related to the Council on Developmental Disabilities.

- (a) If the Governor designates an agency other than the Texas Rehabilitation Commission to provide fiscal and administrative services for the Council on Developmental Disabilities, all appropriations, full-time equivalent positions, and capital budget authority relating to the Council for the 2004–05 state fiscal biennium are transferred from the Texas Rehabilitation Commission to the agency designated by the Governor on the date of the designation.
- (b) The amount of federal funds to be transferred under this provision is the funds available to the state under the Catalog of Federal Domestic Assistance No. 93.603. The number of full-time equivalents to be transferred under this provision is 17 for each year of the biennium. Transfers under this rider may be made from the appropriate Texas Rehabilitation Commission strategy to another appropriate strategy designated by the Governor.
- (c) If the Governor designates an agency other than the Texas Rehabilitation Commission to provide fiscal and administrative services for the Council on Developmental Disabilities, all powers, duties, obligations, rights, contracts, records, employees, property, and unspent and unobligated appropriations and other funds relating to the council are transferred to the agency designated by the Governor on the date of the designation.
- (d) The Health and Human Services Commission shall make a final determination of the amount of funding and the number of full-time equivalents to be transferred under this rider. The Health and Human Services Commission shall submit a report regarding the amount of funds and the number of full-time equivalents transferred to the Governor and the Legislative Budget Board not later than 30 days prior to the final transfer.

Sec. 10.06. Health Insurance Portability and Accountability Act (HIPAA). It is the intent of the Legislature that the Health and Human Services Commission's National Data Interchange Standards (NDIS) Task Force maintain, with the help of the Comptroller, the Texas Higher Education Coordinating Board and affected institutions, and the Texas Office of the Attorney General, a plan to integrate the provisions established by HIPAA for the following agencies which handle health related information: Texas Department of Criminal Justice, Employees Retirement System of Texas, Texas Department of Health, Texas Health Care Information Council, Texas Health and Human Services Commission, Texas Department of Human Services, Texas Higher Education Coordinating Board, Texas Department of Information Resources, Texas Department of Insurance, Texas Department of Mental Health and Mental Retardation, Teacher Retirement System of Texas, Texas State Office of Risk Management, Texas Workers' Compensation Commission and any other agencies that the Health and Human Services Commission determines to be affected by HIPAA. Pursuant to Article 3.50-2, § 14A, Insurance Code, VTCA, relating to the state's contribution for dependent children of certain state employees, a portion of funds appropriated to the Health and Human Services Commission elsewhere in this Act for the Children's Health Insurance Program shall be transferred to the Employees Retirement System to implement the provisions of that Section. Such funds are only to be used for General Revenue (GR) and GR-Dedicated costs of the program, in accordance with § 6.11, Article IX of this Act, Salaries and Benefits to be Proportional by Fund. Non-GR and non-GR-Dedicated costs may only be paid from funds appropriated elsewhere in this Act for group insurance.

#### **PART 11.**

#### **OTHER PROVISIONS**

- Sec. 11.01. **Employee Meal Authorization**. State agencies providing institution-based services, including the Texas Department of Criminal Justice, the Texas Department of Mental Health and Mental Retardation, the Texas Youth Commission, the Texas School for the Blind and Visually Impaired, and the Texas School for the Deaf, may provide meals to employees working in institutional settings and may charge a fee at costs established by the agencies that does not exceed the direct and indirect costs of preparation.
- Sec. 11.02. **Bank Fees and Charges.** From interest income appropriated by this Act, amounts may be used for the purpose of paying bank fees and charges as necessary.
- Sec. 11.03. **Lost Property.** A state agency or institution of higher education must annually report to the Legislative Budget Board and the Comptroller the value of property lost or missing from the possession of the agency or institution of higher education. The Legislative Budget Board and the Comptroller may prescribe forms and dates for reporting. The Comptroller shall withhold from the General Revenue Funds appropriated to the state agency or institution of higher education by this Act an amount equal to 50 percent of the value of the lost property provided that the loss falls outside the standards promulgated by the American Society for Testing and Materials. If a state agency or institution of higher education subsequently recovers or accounts for lost property to the satisfaction of the Comptroller, the Comptroller shall release to the state agency or institution of higher education a proportional amount of previously withheld General Revenue Funds.
- Sec. 11.04. In-kind Gas Program. The General Land Office shall, on a monthly basis, inform the Comptroller of the savings being achieved by an agency under the in-kind gas program of § 31.401, Natural Resources Code and the Comptroller shall reduce the agency's utility appropriation authority accordingly. The Comptroller shall transfer the savings realized into the General Revenue Fund.
- Sec. 11.05. Limitation on Expenditures for Leased Space. Funds appropriated by this Act may not be expended for leased office or building space for operations that are moved into newly constructed, purchased, expanded, or renovated state owned facilities funded from Texas Public Finance Authority Revenue Bonds.
- $Sec. \ 11.06. \ \textbf{ Efficient Use of State Owned and Leased Space}.$ 
  - (a) In the event that an agency moves from leased space to state owned space subsequent to the passage of this Act, the Comptroller shall reduce funds appropriated to each affected agency, by an amount equal to the lease costs that would have been incurred for the remainder of the biennium had the agency remained in leased space, less the costs the agency incurs for moving and the agency's tenant finish-out expenses as defined by the Texas Building and Procurement Commission. Required moving and tenant finish-out costs incurred by an

(Continued)

agency moving from leased space to state owned space in fiscal year 2003 may be paid from 2004 fiscal year appropriations and costs incurred in 2004 may be paid from 2005 fiscal year appropriations as necessary to facilitate the move. The Comptroller shall transfer to the Texas Building and Procurement Commission from the special funds or accounts, including dedicated General Revenue Fund accounts, of those agencies that move into a state facility funded from Texas Public Finance Authority revenue bond proceeds, each agency's proportional share of the lease payments made for the facility as determined by the Texas Building and Procurement Commission. The Comptroller shall reduce the amounts appropriated to the Texas Building and Procurement Commission out of the General Revenue Fund for Lease Payments, in the appropriate Article of this Act, by an amount equal to the sum of the transfers from the special funds or accounts. The funds so transferred are hereby appropriated to the Texas Building and Procurement Commission for the purposes of making lease payments to the Texas Public Finance Authority.

(b) In the event that an agency obtains a lease at a rate lower than existing lease amounts, subsequent to the passage of the Act, the Comptroller shall reduce funds appropriated to each affected agency by an amount equal to the lease costs that would have been incurred for the remainder of the 2004–05 biennium, as determined by the Comptroller. If obtaining a reduced lease rate requires the agency to move its location, the Comptroller shall reduce the agency's appropriations less costs the agency incurs for moving the agency's tenant finishout expenses as defined by the Texas Building and Procurement Commission. Required moving and tenant finish-out costs incurred by an agency moving from leased space in fiscal year 2004 may be paid from fiscal year 2005 appropriations as necessary to facilitate the move.

#### Sec. 11.07. Transfer of Master Lease Purchase Program Payments.

- (a) The Texas Public Finance Authority is hereby authorized to transfer each agency's share of administrative fees and lease payments pursuant to the Master Lease Purchase Program from each agency's appropriations made elsewhere in this Act to the Texas Public Finance Authority Master Lease Purchase Program cost of issuance funds and the State Lease Fund Account, respectively. Transfers for administrative fees and lease payments may not be made earlier than 15 days prior to the date that debt service payment is required. The Texas Public Finance Authority may transfer funds necessary for Master Lease Purchase Program debt service payments from the State Lease Fund Account to the Texas Public Finance Authority Master Lease Purchase Program interest and sinking funds.
- (b) The Comptroller shall assist the Texas Public Finance Authority in the transfer of lease payments. State agencies participating in the Master Lease Purchase Program shall cooperate in the timely transfer of lease payments to the Texas Public Finance Authority. The absence of specific Master Lease payment appropriations, identified in an agency's capital budget, does not release an agency from lease payment obligations.

Sec. 11.08. Alternative Fuels Finance Payments: Transfer and Appropriation. The Texas Public Finance Authority (TPFA) may transfer each agency's pro rata share of administrative fees and finance payments pursuant to the alternative fuels finance program from each agency's appropriations made elsewhere in this Act to the TPFA alternative fuels finance program cost of issuance fund and the State Lease Fund Account, respectively. Transfers for administrative fees and lease payments may not be made earlier than 15 days prior to the date that debt service payment is required. #### Sec. 11.09. State Owned Housing - Recover Housing Costs.

- (a) It is the intent of the Legislature that the General Land Office (GLO) shall contract for the determination of the fair market rental value of all housing provided to state employees by agencies required to report their housing. The GLO shall provide, to each state agency providing housing to employees, information regarding the fair market rental values. The GLO shall also provide the statewide total and agency totals to the Legislative Budget Board, Governor, and Comptroller.
- (b) Each agency required to report employee housing to the General Land Office shall recover, from persons first employed by the agency before September 1, 1999, at least 20 percent of the established fair market rental value of its housing. Each agency required to report employee housing to the General Land Office shall recover, from persons first employed by the agency after August 31, 1999, at least 100 percent of the established fair market rental value of its housing. The recovered funds are hereby appropriated to the agency for its use.
- (c) Agencies that provide employee housing shall report to the Legislature annually all employees who receive agency housing, the fair market rental value of housing supplied by the agency, and the amount of revenue recovered to meet the mandated goals.
- (d) Unless specifically authorized by this Act, a person may not receive housing below the rate established by this section. Individuals authorized by this Act for reduced rate housing are absolutely critical to safe operation of a facility.
- (e) Funds may not be expended to construct additional employee housing.
- (f) When existing facilities are no longer suitable for employee housing, the agency should determine the feasibility of converting the use of housing or razing the structure before making repairs or updates.
- (g) A person may not receive additional compensation in lieu of state-owned housing.
- Sec. 11.10. Cleaning Allowances. A cleaning allowance is an allotment to help defray the cost of maintaining a uniform for certain state employees. A cleaning allowance authorized elsewhere in this Act for specific positions of employment is an authorization for the specific position and shall not transfer with an employee if that employee transfers to a position for which such reimbursement is not authorized.
- Sec. 11.11. Coordination of Tourism and Travel Promotion. It is the intent of the Legislature that the Texas Commission on the Arts, the Texas Historical Commission, the Texas Department of Economic Development, the Texas Department of Parks and Wildlife, and the Texas Department of Transportation coordinate their efforts and spending related to tourism and travel promotion. These agencies shall develop, maintain and adhere to a memorandum of understanding that details the specific travel and tourism objectives and responsibilities of each agency and continues to provide interagency coordination and support to achieve the objectives.
- Sec. 11.12. **Vehicle Fleet Management.** It is the intent of the Legislature that all state agencies and institutions shall adopt rules or policies to implement the State Vehicle Fleet Management Plan issued by the Office of Vehicle Fleet Management of the Texas Building and Procurement Commission. In accordance with the State Vehicle Fleet Management Plan, the Office of Vehicle Fleet Management

(Continued)

shall not grant a waiver for vehicle purchases for those agencies that have not adopted rules or procedures as required by § 2171.1045, Government Code. It is the intent of the Legislature that agencies follow recommendations in the State Vehicle Fleet Management Plan regarding replacing state vehicles when they reach 6 years (72 months) of service or 100,000 miles, whichever comes first. Circumstances may warrant exceptions to this policy based on economic factors for the state, as in the case of vehicles with excessive maintenance costs or unusually low maintenance costs. All state agencies and institutions must maintain detailed supporting documentation on their vehicle fleets and shall submit fleet data to the Office of Vehicle Fleet Management.

#### Sec. 11.13. Appropriation: Temporary Assistance for Needy Families (TANF) Federal Funds.

- (a) For the biennium beginning September 1, 2003, in addition to sums appropriated elsewhere by this Act, the balance of all available TANF federal funds allocated to the State is hereby appropriated for the purposes for which the TANF block grant is made. In the event of an expenditure requirement related to fiscal penalties, caseload growth, or other program needs (such as meeting work participation targets or increasing the capacity to serve TANF recipients facing time-limited benefits), the funds appropriated by this provision and/or the balance of all available TANF federal funds appropriated elsewhere by this Act may be expended and/or transferred as appropriate by the Single State Agency for TANF, subject to the written prior approval of the Governor and the Legislative Budget Board.
- (b) The expenditure of TANF federal funds is hereby limited to those amounts specifically identified and appropriated by this Act, unless specific written approval is made by the Legislative Budget Board and Governor.

#### Sec. 11.14. Incentive and Productivity.

- (a) Net annual savings/revenues realized from employee suggestions implemented by a state agency under the provisions of Government Code, Chapter 2108, Subchapter B and rules promulgated by the Texas Incentive and Productivity Commission must be allocated by the state agency as follows:
  - (1) An amount not to exceed 10 percent of the annual net savings/revenues attributable to a suggestion implemented by a state agency shall be transferred to the Texas Incentive and Productivity Commission. Any funds transferred to the agency that exceed \$211,233 per fiscal year to the Incentive and Productivity Commission shall be lapsed not later than the end of each fiscal year.
  - (2) An amount not to exceed 10 percent of the annual net savings/revenues attributable to a suggestion implemented by a state agency shall be available for the payment of employee awards and shall be subject to the provisions of Government Code, Chapter 2108.
  - (3) An amount, equal to at least 80 percent of the original annual net savings/revenues from amounts appropriated to the agency in the fiscal year(s) in which the savings/revenues were realized, shall be retained by the agency to pay operating costs such as those relating to Workers Compensation Assessments and the Statewide Allocation Plan.
- (b) The net savings/revenues realized in a fiscal year are to be considered encumbered by the agency implementing the suggestion for purposes of carrying out the allocation of funds listed in Subsection (a). The amounts encumbered shall be accounted for in the following manner:

(Continued)

- (1) Upon implementation of an approved employee suggestion, an agency shall establish a Savings Measurement Account for that suggestion and transfer into this account the share of the projected net first-year savings/revenues attributable to the suggestion during that fiscal year. All balances in these accounts as of August 31, 2003, are appropriated for fiscal year 2004, and all balances in these accounts as of August 31, 2004 are appropriated for fiscal year 2005. At the beginning of the following fiscal year, the agency shall transfer into the Savings Measurement Account the remaining share of the projected net savings/revenues for each approved suggestion.
- (2) At the conclusion of the implementation period for an approved and implemented suggestion, the amount of net savings/revenues certified by the agency and the Texas Incentive and Productivity Commission shall be compared with the balance in the Savings Measurement Account for that employee suggestion. If the certified net savings/revenue amount exceeds the balances in the Savings Measurement Account, the additional funds shall be derived from that agency's current year appropriations. If the certified net savings/revenue amount is less than the balance in the Savings Measurement Account, the excess amount deposited is available to the agency for expenditures in the current fiscal year for the same purposes as the original source appropriations. The certified net savings/revenues shall be transferred in accordance with Subsection (a).
- (c) In the event that agencies identify statutory, federal or constitutional restrictions on the use of funds in accounts where savings/revenues were generated by approved employee suggestions, agencies are authorized to substitute other funding and appropriation sources for the 10 percent employee award portion under Subsection (a). All such substitutions for statutory, federal, or constitutional restrictions shall be reviewed and approved by the Comptroller before the substitution of 10 percent from other funds is adopted.
- (d) The Comptroller and the Texas Incentive and Productivity Commission shall jointly develop rules for the above provisions of this section.

- (a) For each state employee who receives a lump-sum retirement incentive payment pursuant to the provisions of House Bill 3208, the Comptroller of Public Accounts shall reduce the appropriation of the agency employing the state employee on the effective date the employee's retirement by an amount up to thirty-five percent (35%) of the employee's average monthly salary multiplied by the number of whole months remaining in the biennium after the effective date of the employee's retirement.
  - (1) In the event that a state employee who receives a lump-sum payment as described by Subsection (a) of this section retires effective August 31, 2003, the effective date of the retirement shall be deemed to be September 1, 2003 for the purpose of Subsection (a) of this section and the appropriation reduction required by Subsection (a) of this section shall apply to appropriations made in this Act for fiscal year 2004 and fiscal year 2005.
  - (2) In the event that a state employee who receives a lump-sum payment as described by Subsection (a) of this section retires during fiscal year 2004, the Comptroller shall apply a proportionate amount of the reduction to fiscal year 2004 and fiscal year 2005.

- (b) The appropriation amounts reduced pursuant to Subsection (a) of this section or as much thereof as may be necessary, are hereby reappropriated to the Comptroller of Public Accounts for the purpose of paying lump-sum retirement incentive payments pursuant to House Bill 3208. Amounts not necessary to provide for the lump-sum retirement incentives shall be transferred to the unappropriated balances of the originating fund.
  - (1) In the event that the appropriation made under Subsection (b) of this section is not sufficient to fund the lump-sum retirement incentive payments authorized by House Bill 3208, the Comptroller of Public Accounts is hereby appropriated, out of the General Revenue Fund and other funds, the amounts necessary to provide for the House Bill 3208 lump-sum retirement incentive payments.
  - (2) In no event shall funds appropriated by this Act be used to pay House Bill 3208 lump-sum retirement incentive payment to, in excess of, twenty-five percent (25%) of the employee's total regular salary for the 12-month period preceding the month in which the employee retires.
